Note 1 - Description of the Plan

The following description of the GEP Administrative Services Savings and Profit Sharing 401(k) Plan (the "Plan") provides general information only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of GEP Administrative Services, Inc. ("GEP" or "Company") who have completed three months of service. The Plan is designed to qualify under Section 401(k) of the Internal Revenue Code ("IRC"), as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each participant may contribute to the Plan up to 50% of his or her compensation, subject to an annual maximum amount set by the Internal Revenue Service ("IRS"). The Company may make contributions in the form of profit sharing, matching, or a Qualified Non-Elective Contribution ("QNEC").

The profit sharing contribution is discretionary and is determined by the Board of Directors each year. Such discretionary contributions, if any, are included as employer contributions in the accompanying statement of changes in net assets available for benefits, and are based on a percentage of the participant's annual income, subject to certain limitations of the IRC. There were no Company profit sharing contributions in 2011.

The Company's matching contribution is based on each participant's contribution and is determined at the discretion of the Board of Directors. The Company did not make any matching contributions in 2011.

During the year ended December 31, 2011, the Company did not make a QNEC contribution.

Participant Accounts - Each participant's account is credited with the participant's contribution, employer contributions, and an allocation of plan earnings and forfeitures of terminated participants' non-vested accounts. These amounts are invested as directed by the participant in any of the investment options made available under the Plan. Plan earnings are allocated to participants based upon participants' account balances.

Vesting - Participants are fully vested immediately in their contributions, QNEC and the earnings thereon. Prior to reaching normal retirement age, as defined in the plan agreement, participants become fully vested in profit sharing and matching contributions over three years of service with the Company according to the following formula:

Years of Service	Vesting Percentage
1	34%
2	67%
3	100%

Note 1 - Description of the Plan (continued)

Payments of benefits - Upon termination of service, participants with a vested value in the Plan of more than $3,500 may elect to receive either a lump-sum amount in cash equal to the value of their account or a partial lump sum, with the remainder in periodic installments over a specified period of time, not exceeding the participant's life expectancy or the joint life expectancy of the participant and the participant's beneficiary.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the plan administrator. The maximum loan term is five years unless the loan term qualifies as a home loan, in which case the term of the loan is not to exceed ten years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2011, the rates of interest on outstanding loans ranged from 3.25% - 5.25% with various maturities through December 2020.

Forfeitures - Upon termination of service, a participant forfeits any non-vested profit sharing and matching contributions and earnings thereon. Forfeitures of profit sharing contributions are allocated to participants' accounts based on compensation and are treated as additional non-elective contributions by the Company for the plan year in which the forfeitures occur. Forfeitures of matching contributions are used to reduce future Company matching contributions. At December 31, 2011 there were no forfeited accounts and no forfeitures were used during 2011.

Plan costs and expenses - The Plan incurs expenses for trustee, professional and administrative services. These expenses are primarily paid by the Company, which is a party-in-interest, and are not reflected in these financial statements and constitute exempt party-in-interest transactions under ERISA. Certain other expenses related to participant elected transactions are paid by the Plan and included in the statement of changes in net assets available for benefits.

Note 2 - Summary of Significant Accounting Principles

Basis of accounting - The accompanying financial statements have been prepared in accordance with GAAP, using the accrual method of accounting.

Investment valuation and income recognition - Investments are stated at fair values as certified by the Plan's trustee. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The net depreciation in fair value of investments consists of both realized and unrealized gains and losses of those investments.

Notes receivable from participants - Participant loans are reported at the outstanding loan balance as of December 31, 2011 and 2010.

Note 2 - Summary of Significant Accounting Principles (continued)

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties - The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Payment of benefits - Benefits are recorded when paid.

Subsequent events - the Plan has evaluated subsequent events through October 9, 2012, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements - In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, Fair Value Measurements and Disclosures (Topic 820) - Improving Disclosures about Fair Value Measurements. The new guidance requires additional disclosures about transfers between levels within the fair value hierarchy and clarifies existing disclosure requirements regarding classes of assets and liabilities measured at fair value. The new guidance requires the Plan to: (a) disclose separately the amounts of significant transfers into and out of each level of the fair value hierarchy and describe the reasons for those transfers, (b) disclose the Plan's policy for determining when transfers between levels of the fair value hierarchy are recognized, and (c) present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements. The new guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 reconciliation disclosures which are effective for reporting periods beginning after December 15, 2010. The Plan adopted this guidance on January 1, 2010. See Note 8.

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS"). ASU 2011-04 amended Accounting Standards Codification 820 ("ASC 820") to converge the fair value measurement guidance in GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. ASU 2011-04 also requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating provisions of ASU 2011-04 and does not believe there will be a significant impact on the Plan's financial statements.

Note 3 - Federal Income Tax Status

The Plan uses a prototype plan document sponsored by Prudential Retirement Services. The Plan received an opinion letter from the IRS, dated April 29, 2002, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

The FASB issued new guidance on accounting for uncertainty in income taxes (ASC 740-10). Management evaluated the Plan's tax position and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax position that requires adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is no longer subject to U. S. federal tax authority examinations for years before 2008.

Note 4 - Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their individual accounts.

Note 5 - Investments

The following investments represent 5% or more of the net assets available for benefits as of December 31:

	2011	2010
T. Rowe Price Mid-Cap Growth Fund	$ 3,449,703	$ 3,299,580
AIM European Growth Investor Fund	3,022,604	2,411,684
American Funds Growth Fund of America	2,860,098	3,129,321
Dodge & Cox Income Fund	2,788,924	2,011,659
Highmark Diversified Money Market Fund	2,686,255	3,225,294
Lord Abbett Small Cap Value Fund	2,456,488	2,386,438
Eaton Vance Large Cap Value Fund	2,035,078	2,282,457
Oakmark Equity and Income Fund	1,938,941	2,108,061

During 2011, the Plan's mutual fund investments (including gains and losses on investments bought, sold and held during the year) depreciated in value by $1,012,219.

Note 6 - Benefits Payable

Benefit payments to participants are recorded upon distribution. All distribution requests were paid as of December 31, 2011 and 2010.

Note 7 - Information Certified by Trustee

The following is a summary of the unaudited information regarding the Plan as of December 31, 2011 and 2010 and for the year ended December 31, 2011, included in the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by Prudential Bank and Trust, F.S.B., the trustee of the Plan, and furnished to the plan administrator.

The plan administrator has obtained certifications from the trustee that such information is complete and accurate:

- Participant directed investments, at fair value, in the statements of net assets available for benefits as of December 31, 2011 and 2010;
- Dividends and net depreciation in fair value of investments included in the statement of changes in net assets available for benefits for the year ended December 31, 2011;
- All investment information included in Note 5; and
- All investment balances and information included in the supplemental schedule of assets (held at end of year) as of December 31, 2011.

Note 8 - Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quotes prices in markets that are not considered to be active or financial instruments for which all the significant inputs are observable, either directly, or indirectly.

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Note 8 - Fair value Measurement (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value as of December 31, 2011 and 2010:

	Investment Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
