GREAT AMERICAN GAMING CORPORATION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS For the years ended December 31, 2011 and 2010

NOTE 1. Description of the Plan

The following description of the Great American Gaming Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan and was established May 1, 2000 as a single employer defined contribution 401(k) savings plan to provide retirement benefits to eligible employees. All employees who have completed three consecutive months of service (at least 1 hour) and have reached 18 years of age following the date of hire qualify for the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and meets ERISA's minimum funding requirements. The provisions of the plan are subject to revision due to changes in laws due to pronouncements by the Internal Revenue Service (IRS) or Department of Labor (DOL).

Contributions:

The participating employer has the discretion to match employee's contributions to the Plan. The participating employer contributed an amount equal to 10 percent of eligible employees' contributions for 2011 and 2010. The participants may generally contribute a percentage of their pre-tax compensation up to the maximum dollar limit set by the IRS which is \$16,500 per year.

Participants' Accounts:

Investments in participants' accounts are self-directed. Each participant's account is credited with an allocation of (a) the participating employer's matching contribution and (b) Plan earnings (or losses) as defined in the Plan agreement. Unclaimed benefits may be forfeited and held in a suspense account and applied to reduce employers' future contributions to the Plan. Subsequent claim to these benefits will result in the reinstatement of the benefit. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employers' contributions portion of their accounts plus earnings thereon is based on years of continuing service as follows:

<u>Years of Service</u>	<u>Percentage</u>
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants:

Participants may borrow from their fund accounts up to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates at the time the loan was made. Principal and interest is paid ratably through payroll deductions.

GREAT AMERICAN GAMING CORPORATION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS For the years ended December 31, 2011 and 2010

NOTE 1. Description of the Plan (continued)

Payment of Benefits:

Under the terms of the Plan agreement, participants will receive their pension allowance at the normal retirement age of 65, termination of employment, or if disabled at any age.

Forfeited Accounts:

At December 31, 2011 and 2010 forfeited nonvested accounts totaled \$2,292 and \$788, respectively. These accounts will be used to reduce future employer contributions.

NOTE 2. Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Purchases and sales of securities are recorded on a trade date basis.

Payment of Benefits:

Payments of benefits to participants are deducted from net assets available for benefits when paid.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2. Summary of Significant Accounting Policies (continued)

Administrative Expenses:

All expenses of maintaining the Plan are paid by the Plan.

Reclassifications:

Certain amounts presented in the preceding year have been reclassified to conform to the financial statement presentation in the current year. The reclassification had no effect on change in net assets available for benefits or net assets available for benefits as previously stated.

NOTE 3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

TOTAL	<u>\$ 1,751,843</u>	<u>\$ 1,547,114</u>	<u>\$ 204,729</u>

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are observable, either directly or indirectly, but are not quoted prices includable in Level 1, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The value of the separate investment accounts are based on the net fair value of the underlying assets.

NOTE 3. Fair Value Measurements (continued)

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined using a market value formula that uses the Barclays Capital U.S. Aggregate Index (excluding treasuries) including an adjustment for capital gains or losses.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3):

	<u>Investment Contract</u>	<u>Total</u>
December 31, 2011:		
Beginning balance	\$ 204,729	\$ 204,729

Ending balance	<u>\$ 204,729</u>	<u>\$ 204,729</u>

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2011 are reported in net appreciation in fair value of investments.

NOTES TO FINANCIAL STATEMENTS For the years ended December 31, 2011 and 2010

NOTE 5. **Guaranteed Investment Contract with Insurance Company**

The Plan has entered into a benefit-responsive guaranteed investment contract with MassMutual Retirement Services through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the guaranteed interest account and participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield earned is calculated by dividing the annual interest credited to the Plan during the plan year by the average annual fair value. The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the plan year by the average annual fair value.

Certain events limit the Plan's ability to transact at contract value with MassMutual. Such events include the following: (a) temporary absence, (b) change in position or other occurrence qualifying as a temporary break in service under the plan, (c) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer, (d) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business, (e) removal from the plan of one or more groups or classifications of participants, or (f) partial or complete plan termination, (g) plan disqualification. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

	<u>2011</u>	<u>2010</u>
Average yields:		
Based in actual earnings	2.67%	2.86%
Based on interest rate credited to participants	2.67%	2.86%

NOTE 6. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 8. Related Party Transactions

Certain Plan investments are shares of separate investment accounts managed by Mass Mutual. Mass Mutual Life Insurance Company is the contract administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$17,305 for the year ended December 31, 2011.

NOTE 9. Reconciliation of Financial Statements to Schedule H of Form 5500

There are no differences between these financial statements and Schedule H of Form 5500; therefore, the reconciliation required by ERISA is not applicable.

NOTE 10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 27, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's Annual Return/Report of Employee Benefit Plan (Form 5500) for 2008, 2009, 2010, and 2011 are subject to examination by the IRS, generally for three years after they were filed.

NOTE 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 12. Subsequent Events

As of October 3, 2012, management has determined there are no subsequent events that are required to be recorded or disclosed in the financial statements under generally accepted accounting principles.

For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").
