### INDEPENDENT AUDITOR'S REPORT

We were engaged to audit the financial statements of Cablecraft Motion Controls 401(k) Plan as of December 31, 2011, and for the year then ended, and the supplemental schedule as of and for the year ended December 31, 2011 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 and presented in the Schedule of Assets (Held at End of Year), which was certified by John Hancock Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## **CABLECRAFT MOTION CONTROLS 401(K) PLAN**

### **Notes to Financial Statements**

#### **NOTE 1. DESCRIPTION OF PLAN**

The following description of Cablecraft Motion Controls 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

##### ***GENERAL:***

The Plan is a defined contribution plan covering all employees of Cablecraft Motion Controls, LLC (Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the Plan Administrator.

##### ***INITIAL PLAN YEAR:***

The Plan was established in 2011, its initial year of operation, and therefore there is no comparative data to present.

##### ***CONTRIBUTIONS:***

Each year, participants may contribute up to the maximum amount allowable by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching contributions equal to amounts determined annually by the Company. The Company made a discretionary matching contribution of \$193,217 for 2011.

Participants direct the investment of their contributions into various investment options offered by the Plan. The elections are subject to such rules and limitations as the Plan Administrator may prescribe.

##### ***PARTICIPANT ACCOUNTS:***

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's discretionary matching contributions and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

##### ***VESTING:***

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

## **CABLECRAFT MOTION CONTROLS 401(K) PLAN**

### **Notes to Financial Statements (Continued)**

#### **NOTE 1. DESCRIPTION OF PLAN (Continued)**

##### ***NOTES RECEIVABLE FROM PARTICIPANTS:***

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's accounts and bear interest at rates that range from 4.25% to 6.00%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

##### ***PAYMENT OF BENEFITS:***

On termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

##### ***FORFEITED ACCOUNTS:***

At December 31, 2011, forfeited nonvested accounts totaled \$389. Forfeitures may be used to reduce plan expenses. Also, during the plan year ended December 31, 2011, forfeitures of \$0 were used to reduce plan expenses.

#### **NOTE 2. SUMMARY OF ACCOUNTING POLICIES**

##### ***BASIS OF ACCOUNTING:***

The financial statements of the Plan are prepared on the accrual basis of accounting.

##### ***USE OF ESTIMATES:***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

##### ***INVESTMENT VALUATION AND INCOME RECOGNITION:***

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

## CABLECRAFT MOTION CONTROLS 401(K) PLAN

### Notes to Financial Statements (Continued)

#### NOTE 2. SUMMARY OF ACCOUNTING POLICIES (Continued)

##### **PAYMENT OF BENEFITS:**

Benefits are recorded when paid.

##### **ADMINISTRATIVE EXPENSES:**

The Company provides accounting, recordkeeping, and administrative services for the Plan for which it receives no compensation. Administrative expenses of the Plan are paid by both the Company and the Plan, as provided by the Plan document.

##### **SUBSEQUENT EVENTS:**

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through October 8, 2012, the date the financial statements were available to be issued.

#### NOTE 3. INVESTMENTS

The following table presents investments at December 31, 2011, which were certified by John Hancock Life Insurance Company, the trustee of the Plan. Investments that represent 5% or more of the Plan's net assets are separately identified.

##### Registered Investment Companies:

#### NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Level 2 | <p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none"><li>• quoted prices for similar assets or liabilities in active markets;</li><li>• quoted prices for identical or similar assets or liabilities in inactive markets;</li><li>• inputs other than quoted prices that are observable for the asset or liability;</li><li>• inputs that are derived principally from or corroborated by observable market data by correlation or other means.</li></ul> <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used in 2011.

*Mutual Funds:* Valued at the quoted net asset value of shares held by the plan at year end.

### Notes to Financial Statements (Continued)

#### NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2011:

|                            | Fair Value Measurements at December 31, 2011 |             |             |                     |

#### NOTE 5. RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

#### NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

#### NOTE 7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan is qualified and the trust established under the plan is tax-exempt, under the appropriate sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the trust is tax-exempt.

## **CABLECRAFT MOTION CONTROLS 401(K) PLAN**

### **Notes to Financial Statements (Continued)**

#### **NOTE 7. TAX STATUS (Continued)**

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

#### **NOTE 8. RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
