Retirement for Gayston Corporation
Springboro, Ohio

We were engaged to audit the accompanying statement of net assets available for benefits of the Retirement for Gayston Corporation Represented by AFL-CIO Industrial Plant Division of Local 141 (the "Plan") as of December 31, 2011, the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedule as of December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administration instructed the other auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the custodian. Their report, dated October 10, 2011 indicated that because of the significance of information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and the form and content of the information included in the financial statements other than that derived from the information certified by the custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the Plan's investment contract described in Note 3, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule taken as a whole, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN:

The following description of the Retirement for Gayston Corporation Represented by AFL-CIO Industrial Plant Division of Local 141 (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Gayston Corporation (the "Company") who are members of a collective bargaining unit. The plan excludes highly compensated employees, employees who are paid on a salary basis, and leased employees. Employees who have completed six months of service are eligible to participate. Eligible participants can enroll on the annual entry date following their satisfaction of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute a percentage of their compensation, up to the maximum dollar amount permitted by the Internal Revenue Code. Employees are not permitted to contribute amounts representing distributions from other qualified plans (rollover contributions). The Company makes a matching contribution equal to 50% of the first 1.5% of a participant's compensation, as defined by the Plan. To be eligible for the matching contribution, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year (unless unemployed due to death, disability, or retirement). Matching contributions are allocated on the last day of the Plan year.

Participant accounts

Each participant's account is credited with his or her contribution, the Company's matching contribution, and actual earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts, plus actual earnings thereon, is based on years of service. A participant is 20% vested after one year of service, and vests an additional 20% per year, until they are 100% vested after five years of credited service.

Payment of benefits

Participants become eligible for benefit payments upon death, disability, retirement or termination. Participants may elect to receive lump-sum cash distributions or direct rollover distributions. Vested balances of \$5,000 or less will automatically be paid in a lump sum payment. Certain in-service withdrawals and hardship distributions are also permitted, as defined by the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of presentation

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by accounting guidance, the statement of net assets available for benefits presents the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Company has elected to pay certain costs associated with plan administration out of the assets of the Plan as authorized by the plan provisions.

Forfeited accounts

There were no forfeited, non-vested accounts at December 31, 2011 and 2010. Forfeiture amounts are used to reduce future administrative expenses of the Plan, and then to reduce employer contributions. There were no forfeitures used to reduce administrative expenses or allocated to participant accounts during 2011 or 2010.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matter requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through October 10, 2012, the date on which the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN:

All financial data related to the Plan's investment contracts used in the preparation of the statements of net assets available for benefits, statements of changes in net assets available for benefits and the supplemental schedule of assets (held at end of year) have been certified as to accuracy and completeness by the plan's custodian, ING Life Insurance and Annuity Company.

During the years ended December 31, 2011 and 2010, the Plan's pooled separate accounts (including pooled separate accounts bought, sold and held during the year) appreciated (depreciated) in value by \$(13,205) and \$23,992, respectively.

The fair values of individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	2011	2010
Pooled separate accounts:		
ING Small Company Portfolio	\$ 42,280	41,641
ING Fidelity VIP Contrafund Portfolio	18,152	16,988
ING PIMCO Total Return Portfolio	33,629	32,238
American Funds EuroPacific Growth Fund	30,288	31,637
Davis New York Venture Fund	55,283	53,533
Insurance company general account:		
ING Fixed Account	93,213	85,741

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has a fully benefit responsive investment contract with ING Life Insurance and Annuity Company ("ING"). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting interest rates are based on an agreed-upon formula with the issuer, and are guaranteed for an agreed upon period, usually one year. The average yield and crediting interest rate on the ING Fixed Account was 3% for 2011 and 2010.

Because the general account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The general account is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$93,213 and \$85,741, respectively. The crediting rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial termination merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity was provision, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probably of occurring.

The investment contract does not permit the insurance company to terminate the general account agreement prior to the scheduled maturity date.

5. FAIR VALUE MEASUREMENTS:

Generally accepted accounting principles provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts: The Plan's pooled separate accounts do not have readily determinable market values. The Plan, as permitted by accounting principles generally accepted in the United States of America, has valued this investment based on the net asset value reported by the investment manager, which is based on the underlying securities. These securities consist primarily of registered investment companies, which are valued based on quoted market prices. Participants may redeem their investment at net asset value at any time. There are currently no unfunded commitments.

Insurance company general account: Valued using a discounted cash flow analysis that compares the crediting rate per the contract to current rates for investments of similar risks.

There have been no changes in the methodologies used at December 31, 2011 and 2010.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, to use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. INCOME TAX STATUS:

The Company adopted a prototype plan, for which a letter from the Internal Revenue Service dated March 31, 2008 has been received indicating that an employer who adopts this prototype plan will be considered to have a plan qualified under applicable sections of the Internal Revenue Code (IRC). The Company has elected not to request a separate determination letter for the Plan. The Plan has been amended since receiving the opinion letter. However, the Company and the plan administrator believe that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years ended prior to December 31, 2008.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

9. RELATED-PARTY TRANSACTIONS:

Certain Plan investments are pooled separate accounts and funds held in an insurance company general account which is managed by ING Life Insurance and Annuity Company (ING). ING is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for trustee services amounted to \$3,674 and \$3,922 for the years ended December 31, 2011 and 2010, respectively.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2010:

Net assets available for benefits per financial statements	\$ 316,292
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	808
Net assets available for benefits per Form 5500	<u>\$ 317,100</u>

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2010:

Net increase per financial statements	\$ 61,361
Current year adjustment from fair value to contract value for fully benefit-responsive investment contracts	808
Net increase per Form 5500	<u>\$ 62,169</u>
