Tavistock 401(k) Plan
Miami, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of Tavistock 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedules (1) Form 5500 Schedule H, Part IV, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2011 and (2) Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information referred to in Note 3, which was certified by John Hancock Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements, but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 – Description of Plan

The following description of the Tavistock 401(k) Plan (the "Plan") is provided for general information purposes only. The Plan is maintained for the employees of ICC Management, Inc. and Lake Nona Management Company, wholly-owned subsidiaries of Tavistock Group (the "Company" or the "Employer"). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan, a defined contribution plan, was established on August 24, 1996, for eligible employees of the Company and its affiliated companies as listed in the Plan document. The Company is the Plan's Sponsor and the Plan administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration of Plan Assets – The Plan is sponsored by the Company. The Plan's investments were maintained and administered John Hancock Life Insurance Company (the "Trustee" or "John Hancock") and the Plan's recordkeeping services and maintenance of participant account records are maintained by Carpenter Morse Group.

Eligibility – Employees become eligible to participate in the Plan upon completion of one month of eligible service and upon reaching twenty-one years of age.

Contributions – Subject to certain limitations, under Internal Revenue Code ("IRC") Section 401(k), participants may contribute up to 100% of their compensation, subject to 2011 annual limits of $16,500 and an additional $5,500 catch-up contribution for participants who are age 50 or older. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company has the option of making discretionary matching contributions and qualified non-elective contributions. The Company elected not to make any contributions for the 2011 Plan year.

Participant Accounts – Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions, the Employer's contributions, and an allocation of the Plan's investment earnings/losses and investment fees and any administrative expenses paid out of the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan.

Vesting – Participants are fully vested in their elective contributions, as well as any rollover contributions, plus or minus any earnings or losses thereon. Vesting in any discretionary Employer contributions and earnings or losses thereon is 20% after the completion of two years of employment, being 100% vested after six years of credited services.

Forfeitures – Forfeitures of matching contributions that are not used to pay Plan expenses are used to reduce the amount that the Company must contribute as a matching contribution. Forfeitures of profit sharing contributions that are not used to pay Plan expenses are reallocated as an additional profit sharing contribution. At December 31, 2011 and 2010, there were no forfeited non-vested account balances.

Note 1 – Description of Plan (Continued)

Investment Options - The Plan's assets are held and managed by the Trustee. The participants direct the investment of their account balances and may select from various investment options maintained by the Trustee. Participants may change their investment option selections on any business day as defined by the Plan.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The interest rates on these notes ranged from 4.25% to 8.75% as of December 31, 2011. The maximum note repayment period is five years unless the note is for purchase of a primary residence, in which case the repayment schedule may be for a term in excess of five years. The notes are collateralized by the participant's vested interest in their account balance. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Hardship Distribution - Hardship distributions are permitted if the distribution is due to expenses incurred or necessary for medical care described in IRC Section 213(d), purchase of a principal residence, payment of tuition, to prevent eviction from or foreclosure of the principal residence, or any other condition which the Commissioner of the Internal Revenue Service ("IRS") deems an immediate and financial need of the participant. Participant voluntary contributions are suspended for at least six months after receipt of a hardship distribution. Participants are limited to one hardship distribution during a Plan year.

Payment of Benefits – Upon termination of employment by reason of death, disability, or retirement, a participant is entitled to the entire participant account balance, which includes all of the vested Employer contributions allocated to the participant's account and all gains or losses attributable thereto. Terminating participants may elect to receive a distribution of their vested benefits in a lump sum distribution or annuity contract. Participants should refer to the Plan documents for a full description of the distribution methods offered by the Plan.

Plan Termination – Although it has not expressed any intent to do so, the Company reserves the right at any time to amend, modify or terminate the Plan without the consent of any participant or beneficiary subject to the provisions of ERISA. In the event of such termination, the Plan provides that the participants shall become 100% vested in all amounts credited to their accounts.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a collective investment trust with John Hancock Life Insurance Company, which is fully benefit-responsive (see Note 5). As of December 31, 2011 and 2010, the fair value of common collective trust approximates the contract value, and therefore the Statements of Net Assets Available for Benefits does not present a reconciliation between the fair and contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Fair Value of Investments – Investments held by the Plan are recorded at fair value. Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction. ASC 820 also establishes fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

> Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;
>
> Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets which are either directly or indirectly observable as of the reporting dates, and fair value can be determined through the use of models or other valuations methodologies; and
>
> Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for Plan instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Note 2 – Summary of Significant Accounting Policies (Continued)

Pooled Separate Accounts – These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Collective Investment Trust - These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair valuation of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recognized when earned. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements – In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of investments valued using Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number) information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. For the gross presentation of activity in the Level 3 roll forward information, the guidance is effective for fiscal years beginning after December 15, 2010. As this guidance is only disclosure related, it did not have any changes to carrying value of the investments on the Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010.

Upcoming Accounting Pronouncements – In May 2011, the FASB issued Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04), which amends ASC 820, to provide a consistent definition of fair value and to ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. In addition, ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are effective for annual periods beginning after December 15, 2011 (2012 Plan year) and should be applied prospectively. The adoption will not have a material effect on the Statements of

Note 2 – Summary of Significant Accounting Policies (Continued)

Net Assets available for Benefits and Statement of Changes in Net Assets Available for Benefits. Plan management has not determined the impact on the disclosures in the financial statements.

Benefits Paid to Participants - Benefits are recorded when they have been processed and paid by the Plan.

Administrative Expenses - In accordance with the Plan, expenses may be made from the Plan's assets. If expenses are paid using the Plan's assets, then the expenses will be allocated among the accounts of all participants in the Plan. These expenses will be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. The method of allocating the expenses depends on the nature of the expense itself. Expenses for the Plan may include investment advisory fees, redemption fees, administrative services, accounting and legal fees.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

Note 3 – Information Certified by the Trustee (Unaudited)

The following information included in the accompanying financial statements as of December 31, 2011 and 2010, and for the year ended December 31, 2011, and supplemental schedules as of December 31, 2011 was obtained from data that has been prepared and certified to as complete and accurate by John Hancock as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA.

Note 5 – Collective Investment Trust

The Plan holds an interest in a collective investment trust (John Hancock Stable Value Fund) to maintain a portion of the Plan contributions in guaranteed investment contracts, synthetic guaranteed investments contracts, and separate account investment contracts. The account is credited with contributions and earnings on the underlying investments and charges for participant withdrawals and administrative expenses charged by the trustee of the collective investment trust. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan. The collective investment trust is included in the financial statements at contract value as reported to the Plan by John Hancock, which approximated fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

	December 31,	
	2011	2010
Average yields:		
Based on actual earnings	< 1%	< 1%
Based on interest rate credits to participants	< 1%	< 1%

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be difference from each issuer and can be found in the contract of the collective investment trust. Examples of such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity wash provision, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any requires prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6 – Party-In-Interest Transactions

Certain Plan investments and the related transactions as of December 31, 2011 and 2010, and for the year ended December 31, 2011 were in shares of pooled separate accounts and collective investment trust managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants.

Note 7 – Risks and Uncertainties

The Plan provides for investment options in various funds. Investment securities are exposed to various risks, such as interest rate, market, credit, and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in their value, it is at least reasonably possible that changes in the fair value of investment securities in the near future could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Note 8 – Income Tax Status

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated March 6, 2007, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the IRC, and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9 – Delinquent Participant Contributions

During the year ended December 31, 2011, the Company's failure to remit certain employee contributions to the Plan on a timely manner constituted a lending of such monies to the Company. As such, these transactions represented nonexempt transactions between the Company and the Plan as identified in Form 5500, Schedule H, Part IV, Line 4a – Schedule of Delinquent Participant Contributions. As of October 8, 2012, the Plan's management was in the process of calculating the lost earnings on these late remittances, intends to fund the lost earnings into the Plan prior to December 31, 2012, and does not believe that the amount will have a material impact on the Plan's financial statements.

Note 10 – Subsequent Events

Effective April 1, 2012, the Plan's assets were transferred from John Hancock to Fidelity Brokerage Services LLC.

The Plan's management evaluated subsequent events through October 8, 2012 in connection with the preparation of these financial statements, which is the date that the financial statements were available to be issued.
