1. Description of Plan

The following brief description of the Atrium Companies, Inc. 401(k) Plan (the “Plan”) is provided as general information only. Participants should refer to the Plan document for a more comprehensive description of the Plan’s provisions.

General

The Plan is a defined contribution plan available to all employees of Atrium Companies, Inc. and its affiliates (the “Company”), except those employed by the New Boston or Palestine locations or covered by a collective bargaining agreement, who have reached 21 years of age and completed three months of service. Employees are automatically enrolled in the Plan upon meeting the eligibility criteria at a default pre-tax deferral rate of 1%. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective January 1, 2012, the plan was amended and restated, and a new trustee, administrator, and custodian of the Plan were appointed. The Plan’s assets were liquidated on December 30, 2011 and transferred to the new trustee and custodian on January 3, 2012. As such, as of December 31, 2011, the Plan’s assets primarily consisted of \$35,651,877 of cash and cash equivalents and notes receivable from participants of \$1,643,717. See Note 9 for additional disclosure.

Contributions

Participants may contribute up to 100 percent of their annual pretax compensation to the Plan, subject to Internal Revenue Service (“IRS”) limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company, at the discretion of its Board of Directors, may contribute to the Plan a percentage of each participant’s before tax contribution (limited to 4 percent of the participant’s compensation, as defined) and may also contribute an additional amount to be credited to all participants in the same proportion of each participant’s salary to the total salary of all participants. The Company’s percentage contributions are credited to the accounts of participants at the same time as the participant’s before-tax contributions. Additional Company contributions are credited to the accounts of participants who are employed by the Company on December 31 of the Plan year. No Company contributions were made for the year ended December 31, 2011.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, allocations of Plan earnings and the participant’s allocation of any Company contributions. Participant accounts are also charged with an allocation of certain administrative expenses. Contributions and earnings are allocated among investment options as selected by the participant.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2011 and 2010

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their deferral contributions plus actual earnings thereon. The Company matching contributions, earnings thereon, and any additional discretionary Company contributions vest over a five-year period based on years of service as follows:

<u>Completed Years of Vesting Service</u>	<u>Vesting Percentage</u>
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' nonvested accounts may be used to reduce future administrative expenses or Company contributions. At December 31, 2011 and 2010, unallocated forfeited nonvested accounts totaling \$151,658 and \$159,272, respectively, were available to offset future administrative expenses or Company contributions.

Participants Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of their vested account balance. Loans are collateralized by the participant's account balance and bear interest at a fixed rate based on the prevailing rate on the date of funding. Interest rates ranged from 5.25% to 10.25% as of December 31, 2011. Principal repayments and the interest on outstanding balances are deducted ratably from the participant's pay. Participants may not have more than one loan outstanding at a time.

Payments of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account, in either a lump sum or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, subject to minimum balance distribution requirements. A participant may withdraw part of the vested interest in his or her account upon attainment of age 59 1/2, subject to Plan provisions.

Administrative Expenses

The Company pays certain administrative expenses incurred by the Plan, including recordkeeping, trustee and audit fees. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2011 and 2010

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments in mutual funds are stated at fair value based on quoted market prices on the last trading day of the Plan year. Investments in pooled separate accounts are stated at their net asset value ("NAV"), which is based on the market value of the underlying investments. The guaranteed investment contracts are presented at fair value, which represents the amount the plan sponsor would receive if they terminated the contract at the reporting date, which is book value less an early withdrawal charge (See Note 3 for further information).

The Plan presents, in the Statement of Changes in Net Assets Available for Plan Benefits, the net appreciation (depreciation) in the fair value of investments, which consists of the realized and unrealized gains or losses on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants represent loans and are stated at amortized cost. Interest income is recorded on the accrual basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various options in any combination of specified investments. The underlying investments may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events

Subsequent events have been evaluated through the date of the independent auditor report, the date these financial statements were available to be issued. With the exception of matters discussed in Note 9, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2011 and 2010

3. Investments

The fair value of investments that represent 5 percent or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010 are summarized as follows:

	<u>2011</u>	<u>2010</u>
Cash and Cash Equivalents	\$ 35,651,877	\$ - *
Principal Money Market Separate Account	- *	6,963,583
Principal Bond & Mortgage Separate Account	- *	3,621,227
Guaranteed Investment Contracts	- *	3,358,773
Principal Large Cap S&P 500 Index Account	- *	4,171,615
Principal International Smallcap Account	- *	2,214,339

*Amount represents less than 5% or more of the Plan's net assets. Information was presented for comparative purposes.

Investment Contracts with Insurance Company

The Plan has entered into various guaranteed investment contracts with The Principal Life Insurance Company ("Principal"). Principal maintains the contracts in a general account. The accounts are credited with earnings on the underlying investment contracts and charged for participant withdrawals and administrative expenses. These contracts promise contract value for a benefit event; however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Thus, they are not considered fully benefit responsive and are therefore included in the financial statements at fair value as reported by Principal. Interest is credited to the accounts daily and compounded annually on the last day of each year.

As of December 31, 2011, the Plan's assets invested in the guaranteed investment contracts were liquidated in preparation of the change in service provider. Accordingly, the Plan did not maintain any holdings in investment contracts at year end.

Selected information for the investment contracts at December 31, 2010 and for the year then ended is as follows:

	<u>Average Yield</u>	<u>Guaranteed Interest Rate</u>
Guaranteed 2 year matures December 31, 2010	0.99%	0.77%
Guaranteed 5 year matures December 31, 2010	4.09%	0.77%
Guaranteed 2 year matures December 31, 2011	0.17%	0.77%

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2011 and 2010

3. Investments (continued)

Net Change in Fair Value

During 2011, the Plan's investments (including investments bought, sold, and held during the year) depreciated in value by \$508,613 as follows:

	2011
Net depreciation in mutual fund accounts	\$ (365,888)
Net depreciation in Pooled separate accounts	(142,725)
Net depreciation in fair value of investments	<u>\$ (508,613)</u>

Information Certified by the Trustee (unaudited)

The Company elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements and supplemental schedule has been certified by The Principal Life Insurance Company, the trustee, as being complete and accurate:

	2011	2010
Cash and cash equivalents	\$ 35,651,877	\$ -

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the net asset value (or unit value) of the units held by the Plan at year-end based on information reported by the custodian. The NAV of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and is determinative of their fair value and represent the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2011 and 2010

4. Fair Value Measurements (continued)

Mutual funds: The fair value of mutual funds is determined by quoted market prices on nationally recognized securities exchanges which represent the net asset value of shares held by the Plan at year end.

Guaranteed investment contracts: The guaranteed interest accounts cannot be sold to a third-party, thus, the only option to exit the guaranteed interest accounts is to withdraw the funds prior to maturity. The fair value of the account is the value paid when funds are withdrawn prior to their maturity. The fair value of the guaranteed interest accounts is reflected in Level 3 and the valuation is based on the applicable interest rate. If the applicable interest rate is greater than the interest rate on the account, the fair value is the contract value reduced by a percentage. This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date. If the applicable interest rate is equal to or less than the interest rate on the account, the fair value is equal to the contract value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2011, the Plan had liquidated all investments into cash and cash equivalents of \$35,651,877, which represents fair value and is classified as a level 1 investment.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2011 and 2010

4. Fair Value Measurements (continued)

- (1) Fixed income funds invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.).
- (2) International equity funds invest in stocks or shares of ownership in companies with their principal place of business or office outside of the United States.
- (3) Large U.S. equity funds invest in stocks, or shares of ownership in large, well-established, U.S. companies.
- (4) Short-term fixed income funds invest in short-term fixed-income investment options that are largely liquid and are designed to not lose much value.
- (5) Small/mid/specialty funds invest in common stock of small or midsize U.S. companies or the common stock of specialized U.S. companies.
- (6) Asset allocation funds invest in a combination of funds that invest in U.S. stocks, international stocks, U.S. bonds and other fixed-income investments using asset allocation strategies based on a conservative, moderate or target date allocation methodology.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31:

	2011	2010
Balance, beginning of the year	\$ 3,358,773	\$ 4,208,946

Balance, end of the year	<u><u>\$ -</u></u>	<u><u>\$ 3,358,773</u></u>

5. Related Party Transactions

Plan investments include shares of guaranteed investment contracts and pooled separate accounts managed by Principal. Principal is the trustee, as defined by the Plan, and therefore, these investments qualify as party-in-interest investments.

6. Plan Termination

The Plan has been established with the intention that it will continue and be a permanent plan. However, although it has not expressed any intent to do so, the Company has the right under the Plan to terminate it at any time, subject to the provisions of ERISA. In the event the Plan terminates, participants would become fully vested in their account balances.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2011 and 2010

7. Tax Status

The Plan uses a prototype plan document sponsored by Principal. Principal received a favorable determination letter dated March 31, 2008, from the Internal Revenue Service ("IRS") stating that the prototype document satisfies the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. However, Plan management believes the Plan, as adopted and amended, is operating within the guidelines of the IRC. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits at December 31, 2011 and 2010 per the financial statements to the Form 5500:

	<u>2011</u>	<u>2010</u>

Net assets available for plan benefits per Form 5500	<u>\$ 37,262,803</u>	<u>\$ 40,618,148</u>

The following is a reconciliation of the net increase for the year ended December 31, 2011 per the financial statements to the Form 5500:

Net decrease per the financial statements	\$ (3,381,596)
Add: participant contribution receivable at December 31, 2010	85,413
Less: participant contribution receivable at December 31, 2011	(89,206)
Less: contribution refunds payable at December 31, 2010	(2,583)
Add: contribution refunds payable at December 31, 2010	28,671
Add: deemed distributions	3,956
Net decrease per the Form 5500	<u>\$ (3,355,345)</u>

9. Subsequent Event

Effective January 1, 2012, the plan was amended and restated, and a new trustee, administrator, and custodian of the Plan were appointed. Diversified Retirement Corporation was appointed to serve as the Plan's third party administrator and recordkeeper. State Street Bank and Trust Company was appointed to serve as the trustee and custodian of the Plan's assets. The conversion initiated a blackout period beginning December 21, 2011 at 3:00 p.m. CT, and continued until through the week ended of January 21, 2012. During this period, funds could not be applied to the employee-selected funds with the trustee or withdrawn from the plan until the trustee had time to accurately complete the conversion. During this period, employee contributions continued to be made through payroll deductions. The contributions were held by the Company until the completion of the blackout period. At the end of the blackout period, these funds were transferred to the new trustee and invested in funds, as requested by each participant.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2011 and 2010

9. Subsequent Event (continued)

Prior to the transferring of the Plan's assets, participant were given the option to choose, from the Plan's new investment options, the investment options in which to invest their existing balance as well as ongoing contributions. Participants whom elected not to choose new investment options existing balances and ongoing contributions were invested in the Plan's default investment option. Upon completion of the blackout period, participants may change their investment allocation at any time.

The Plan Sponsor chose Diversified's PortfolioXpress as the Plan's default investment option. PortfolioExpress is similar to other target date or lifecycle funds. Like these funds, PortfolioXpress rebalances the investment mix each quarter to make sure its stays on track with each participant's retirement goals. The PortfolioXpress service presents a series of asset allocation model based on a designated retirement year. Participants are solely responsible for selecting the retirement year. In implementing the service, the participant agrees to each of the asset allocation mixes and automated rebalancing transactions that will take place over time within the account. For participants who do not designate a retirement year, the Plan will set their target retirement year as the year in which they attain age 65. The way PortfolioXpress is different from target date and lifecycle funds is that it is comprised solely of the underlying investments offered by the Plan. The Plan's default version of PortfolioXpress is a "moderate" asset allocation. Participants have the ability to customize the risk profile by choosing a more conservative or more aggressive model.

Pursuant to the terms of the amended and restated plan document certain plan provisions were amended or restated. Participants should refer to the amended plan document for a comprehensive description of the Plan's amended and restated provisions.
