Note 1 - Description of Plan

The following description of the Gagosian Gallery, Inc. 401(k) Savings Plan ("Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) arrangement covering all employees of Gagosian Gallery, Inc. and Pre-War Art, Inc. (collectively the "Company") who have completed a minimum of one month of service and are twenty one years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of their annual compensation not to exceed the maximum allowable limits, as prescribed by the Internal Revenue Code (the ""Code"") ($16,500 for 2011, with a catch-up contribution of $5,500, if eligible.) There are no employer matching contributions permitted. The Company made a qualified non-elective contribution amounting to $20,773.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately and fully vested in their voluntary contributions, plus actual earnings thereon.

Note 1 - Description of Plan (continued)

Notes Receivable from Participants
The Plan permits loans to participants, for any reason, from the vested portion of participant accounts. Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Note terms typically range from one to five years or up to 20 years if used for the purchase of a principal residence. The loans are secured by the balance in the participants account. Unless otherwise determined by the Trustee, the interest rate will be the prime rate charged by the sponsor's current commercial bank plus 1.5%. Interest rates were 4.75% on all notes receivable. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of Benefits
On termination of service due to death, disability or retirement, a participant may elect to receive a lump sum amount equal to the value of his or her account or receive a series of periodic payments. Participants may receive hardship distributions as well as in-service distributions upon attaining age 59 1/2.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue it at any time and to terminate the Plan subject to the provisions of ERISA.

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (continued)

Subsequent Events

Plan management has evaluated subsequent events through October 11, 2012, the date the financial statements were available to be issued.

Note 3 - Investment Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, ING Life Insurance and Annuity Company, the custodian of the Plan has certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying statements of net assets available for benefits as of December 31, 2011, the statement of changes in net assets available for benefits for the year ended December 31, 2011 and the accompanying supplemental schedule, Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2011.

Note 4 - Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2011	2010
*ING Strategic Alloc Growth Port I	$ -	$ 373,127
Oppenheimer Developing Markets Fnd A	-	192,474
*ING PIMCO Total Return Portfolio I	-	205,913
American Funds Growth Fnd R3	-	414,520
Davis New York Venture Fund R4	-	201,484
*ING Group Annuity Contract	-	487,618

* Indicates an exempt Party-In-Interest as defined by ERISA.

During the year ended December 31, 2011, the Plan's investments appreciated (depreciated) in value by ($81,070) as follows:

Mutual funds	$ (84,770)
Group Annuity Contract	3,700
	$ (81,070)

Note 5 - Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5 - Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of the shares held by the Plan at year-end.

Group Annuity Contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Assets at Fair Value at December 31, 2010		
	(Level 1)	(Level 3)	Total
Mutual funds:			
Money market	$ 46,957	$ -	$ 46,957
Asset allocation funds	498,339	-	498,339
Small/mid/specialty funds	284,151	-	284,151
Global/international funds	312,899	-	312,899
Large Cap Growth Funds	941,173	-	941,173
Large Cap Value Funds	106,151	-	106,151
Balanced Fund	87,529	-	87,529
Bond Funds	339,213	-	339,213
Total mutual funds	2,616,412	-	2,616,412
Group annuity contract	-	487,618	487,618
Total assets at fair value	$ 2,616,412	$ 487,618	$ 3,104,030

Note 6 - Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Investment advisory and management fees are charged by the custodian and included in net depreciation in fair value of investments.

Note 7 - Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2008.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near future and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
