NOTE A - DESCRIPTION OF PLAN

The following description of the TGH-US, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering eligible employees of TGH-US, Inc. (the "Company") and its affiliates (collectively referred to as the "Employer") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and any amendments. Effective April 1, 2011, the Employer transferred sponsorship of the Plan to Forum Energy Technologies, Inc. ("Forum" or "Plan Sponsor"), the successor entity to the Employer by corporate combination.

During December 2011, a Merger Agreement was executed, effective December 31, 2011, transferring all assets and liabilities of the Plan to the Forum Energy Technologies, Inc. 401(k) Plan, to be held therein in trust. Additionally, on December 31, 2011, the Plan was frozen so that no employee who was not already a participant in the Plan as of this date would be eligible to become a participant in the Plan.

Administration of the Plan: The trustee and recordkeeper for the Plan's participant directed assets is Fidelity Management Trust Company (the "Trustee" or "Fidelity").

Eligibility: Prior to April 1, 2011, employees were eligible to become participants in the Plan after completion of three months of service and attainment of age 18. Effective April 1, 2011, the Plan was amended to remove the age requirement and to allow employees to become eligible to participate in the Plan after completion of 30 days of service.

Contributions: Prior to April 1, 2011, participants may elect to make pretax contributions to the Plan in an amount up to 60% of their eligible annual compensation. Participant contributions were limited to $16,500 for 2011. This limitation is adjusted periodically to reflect cost-of-living increase as prescribed by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions ($5,500 for 2011). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Effective April 1, 2011, participants may elect to make both pre-tax and post-tax (as Roth 401(k) contributions) contributions to the Plan which, in total, may be in an amount up to 75% of their eligible compensation.

Prior to April 1, 2011, the Employer contributed a non-discretionary matching contribution of 100% of participants' pretax contributions, up to 6% of the participant's eligible compensation. Effective April 1, 2011, the Plan was amended to allow non-discretionary Employer matching contributions equal to 100% of participants' pretax contributions, up to 3% of compensation plus 50% of participants' pretax contributions on the next 2% of compensation.

Additionally, effective April 1, 2011, the Employer may also make a discretionary profit sharing contribution. No discretionary profit sharing contributions were made during 2011.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of the Employer's contribution and plan earnings, and, at times, charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN (Continued)

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. Participants vest 20% after two years of service and 20% for each following year. Participants are 100% vested after six years of credited service.

Investments: Each participant directs the investment of their account into any of the available investment options offered by the Plan.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. Loan repayments are deducted from the participants' payroll over the term of the loan through payroll deductions. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. When a participant ceases to be an employee or the Plan is terminated, the balance of any outstanding loan is due immediately.

Form of Benefits: On termination of service, whether due to death, disability, retirement, or otherwise, participants may elect to receive either a lump sum cash amount or a series of installment payments equal to the value of the vested interest in their Plan accounts. In addition, the Plan permits in-service withdrawals from a participant's deferred contribution account in the event the participant incurs a substantial financial hardship as defined in the Plan Agreement.

Forfeitures: At December 31, 2011 and 2010, forfeited nonvested accounts totaled $96,373 and $35,946, respectively. The forfeitures at December 31, 2011 were included in the assets transferred and will be used to pay Plan expenses or to reduce future employer contributions in accordance with the Forum Energy Technologies, Inc. 401(k) Plan agreement. For the year ended December 31, 2011, no forfeitures were applied to reduce employer contributions.

Administrative Expenses: Administrative expenses consist of all expenses incidental to the administration, termination or protection of the Plan, including, but not limited to, legal, accounting, investment manager and trustee fees. Substantially all administrative expenses were paid by the Employer.

Plan Termination: The Employer has the right under the Plan Agreement to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA. In the event of termination, the net assets would be allocated among participant and beneficiaries of the Plan in the order provided for by ERISA and participants would become fully vested.

During 2011, the Plan's management determined that there was a partial plan termination under the Internal Revenue Code ("IRC") and applicable IRS rules and related guidance, due to reductions in the Employer's workforce. Accordingly, those participants who were involuntarily terminated as part of the workforce reduction became fully vested in their employer contributions on their termination date.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with the accounting principles generally accepted in the United States of America as codified by the Financial Accounting Standards Board ("FASB") in its Accounting Standards Codification ("ASC").

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: Investments in mutual funds are stated at fair value, based on quotations obtained from national security exchanges. Investments in guaranteed investment contracts ("GICs") are stated at fair market value as determined by the issuer based on the fair value of the underlying investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As described in ASC 962, *Plan Accounting - Defined Contribution Pension Plans*, defined contribution plans holding an investment in a GIC are required to report the investment at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan which are attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by ASC 962, the Statements of Net Assets Available for Benefits present investment contracts at fair value as well as an additional line item showing an adjustment from fair value to contract value for fully benefit-responsive investment contracts. The Statement of Changes in Net Assets Available for Benefits is presented on a contract value basis.

Risks and Uncertainties: The Plan provides for various investments in GICs and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan has evaluated all events through October 11, 2012, the date the financial statements were available to be issued and has determined that there are no events that required recognition in the financial statements or disclosure in the notes to the financial statements.

NOTE C - INVESTMENTS (UNAUDITED)

As permitted by the rules and regulations of the Department of Labor with respect to reporting and disclosure under ERISA, the trustee has certified to the Plan Administrator that the listing of investments (stated at cost and fair value) together with all other transactions which affect Plan investments, are complete and accurate as of December 31, 2011 and 2010 and for the year ended December 31, 2011.

Individual investments that represent 5% or more of the Plan's net assets available for benefits in either of the two years are as follows:

	December 31,	
	2011	2010
Fidelity Managed Income Portfolio	$ - *	$ 931,134
Mutual fund accounts:		
Fidelity Contrafund	- *	1,053,891
Fidelity Value Fund	- *	373,536
Fidelity Diversified International Fund	- *	519,181
PIMCO Total Return Administration Fund	- *	1,373,751

TOTAL INVESTMENTS AT FAIR VALUE	$ -	$ 8,316,648

* Investment does not represent 5% or more of net assets available for benefits for the year indicated but is included for comparative purposes.

For the year ended December 31, 2011, the Plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) in value as follows:

Mutual funds	$ (271,497)
Guaranteed investment contract	9,179
	$ (262,318)

NOTE D - PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in various investments offered by the trustee. These investments are considered party-in-interest transactions because Fidelity serves as the trustee and investment custodian of the Plan. The Plan management has approved these investment options.

NOTE E - INCOME TAX STATUS

The Plan uses a Volume Submitter Profit Sharing/401(k) Plan offered by Fidelity. The trustee received an advisory letter dated March 31, 2008 from the IRS that the form of the Volume Submitter Plan is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The Plan has subsequently been amended. However, the Plan Sponsor believes that the Plan was designed and was operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Employer has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Employer believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE F - FAIR VALUE MEASUREMENTS

The Plan measures fair value in accordance with guidance issued by the FASB which defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The guidance establishes a formal fair value hierarchy, which prioritizes the inputs used in measuring fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

The three levels of the fair value hierarchy as defined by the guidance are as follows:

- Level 1: Valuations utilizing quoted, unadjusted prices for identical assets or liabilities in active markets that the Plan has the ability to access. This is the most reliable evidence of fair value and does not require a significant degree of judgment.
- Level 2: Valuations utilizing quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly for substantially the full term of the asset or liability.
- Level 3: Valuations utilizing significant, unobservable inputs. This provides the least objective evidence of fair value and requires a significant degree of judgment. Inputs may be used with internally developed methodologies and should reflect an entity's assumptions using the best information available about the assumptions that market participants would use in pricing an asset or liability.

NOTE F - FAIR VALUE MEASUREMENTS (Continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds*: (Level 1) are stated at fair value based on quoted market prices for applicable publicly traded mutual and money market funds.

- *Guaranteed investment contract*: (Level 2) are valued at fair value of the underlying investments and then adjusted by the issuer to contract value.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in techniques used during 2011.

Effective December 31, 2011, all assets were transferred to another plan and accordingly the Plan held no assets. The following sets forth by level, within the fair value hierarchy, the Plan's assets as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
