INDEPENDENT AUDITORS' REPORT

October 10, 2012

To the Trustees and Participants of the
Traffic Control and Safety Corporation 401(k) Plan:

We were engaged to audit the financial statements and supplemental schedules of the Traffic Control and Safety Corporation 401(k) Plan (the Plan) as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by John Hancock Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TRAFFIC CONTROL AND SAFETY CORPORATION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF PLAN

The following description of the Traffic Control and Safety Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Traffic Control and Safety Corporation and its subsidiaries (the Company). The Company's subsidiaries participating in the Plan include Safety Systems Hawaii, Inc., Toomey Industries, Inc., American Barricade, Inc., Traffic Solutions, Inc., Flash Safety Co., Statewide Safety and Signs, Inc. and Flashco, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees are eligible to participate in the Plan on the first day of the month following completion of 2 months of service.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute up to 100% of eligible pre-tax or post-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

During 2011, the Company made discretionary employer matching contributions to the Safety Systems Hawaii, Inc. employees of 50% of the participant's deferral, up to the first 6% of compensation deferred. The Company may also make discretionary profit sharing contributions. For the year ended December 31, 2011, the Company made no discretionary profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances exceeding $1,000, but not exceeding $5,000, may be rolled into an Individual Retirement Account. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contributions plus actual earnings thereon is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5	100%

Forfeitures

The unvested portion of a terminated participant's account will be used to pay for Plan expenses or to reduce future Company contributions. For the year ended December 31, 2011, employer contributions were reduced by $13,471 from forfeited nonvested accounts. As of December 31, 2011 and 2010, the amount of available forfeitures totaled $10,985 and $13,471, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Basis of Accounting – (Continued)

As described in guidance issued by the Financial Accounting Standards Board (the FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Reclassifications

Certain reclassifications have been made to the prior year amount to conform to the current year presentation.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

New Accounting Pronouncement

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits, changes in net assets available for benefits or related disclosures.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

3. FAIR VALUE MEASUREMENTS – (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: These investments, previously reported as registered investment companies, are valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV of investments is based upon a combination of the net asset value of the underlying investments and contract charges. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Common/collective trust: Valued at the NAV based upon the market value of its underlying investments. The investment contains fully benefit responsive investment contracts comprised of both underlying investment and contractual components which have observable level 1 or level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. The asset is classified within level 2 of the valuation hierarchy based on the lowest level of pricing inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS – (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Description	Total	Level 1	Level 2	Level 3
December 31, 2011				
Pooled separate accounts:				
Conservative	$ 140,036	$ -	$ 140,036	$ -
Growth	1,225,298	-	1,225,298	-
Income	362,417	-	362,417	-
Growth & income	946,450	-	946,450	-
Aggressive growth	580,260	-	580,260	-
Total pooled separate accounts	3,254,461	-	3,254,461	-
Common / collective trust	132,467	-	132,467	-
Total investments at fair value	$ 3,386,928	$ -	$ 3,386,928	$ -
December 31, 2010				
Registered investment companies:				
Conservative	$ 142,771	$ -	$ 142,771	$ -
Growth	1,621,735	-	1,621,735	-
Income	456,374	-	456,374	-
Growth & income	952,012	-	952,012	-
Aggressive growth	595,550	-	595,550	-
Total registered investment companies	3,768,442	-	3,768,442	-
Common / collective trust	87,207	-	87,207	-
Total investments at fair value	$ 3,855,649	$ -	$ 3,855,649	$ -

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of level 1, 2 or 3 during the year ended December 31, 2011. The nature, risks and investment objectives of the Level 2 investment category described above, for which fair value is estimated at NAV, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. As of December 31, 2011, there were no unfunded commitments associated with any of these investments.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. TAX STATUS

The Company adopted a Non-Standardized Prototype Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 1, 2009, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since then been amended. However, the plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. Currently, the Plan is undergoing an audit by the Department of Labor for the Plan years covering January 2009 through April 2012. As of the date of the independent auditors' report, the results of the audit were not made known to the Plan Sponsor and it is therefore indeterminable whether or not such findings would have a material impact on these financial statements.

6. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (John Hancock), the custodian of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year) as of December 31, 2011 and 2010, and for the year ended December 31, 2011.

	2011	2010
Pooled separate accounts	$ 3,254,461	$ -
Common / collective trust	128,409	87,207
Registered investment companies	-	3,768,442
Non-interest bearing cash	10,985	13,471
Net depreciation in fair value of investments	(153,613)	n/a

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

At December 31, 2011, the Plan held assets of $128,409 in a common / collective trust that invests in a benefit-responsive investment contract with John Hancock. John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. At December 31, 2010, the difference between fair value and contract value was not material and thus no adjustment from fair value to contract value was presented. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2011	2010
Based on actual earnings	2.12%	2.36%
Based on interest rate credited to participants	1.60%	2.03%

9. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by John Hancock, the custodian and record-keeper of the Plan. For the year ended December 31, 2011, the Plan paid third party administration fees of $3,750. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

10. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010:

		2011
