LOURDES EMPLOYEES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Lourdes Employees 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering all full-time employees of Lourdes Industries, Inc., Lourdes Industries LLC and Lourdes Communications Inc. (the "Company"), who have three months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each year, participants may contribute, subject to ERISA limitations, up to $16,500 (for 2011) of their pretax annual compensation, as defined in the Plan. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into any, and/or all of the various investment options offered by the Plan. The Company may at its option make contributions to the Plan, which is based upon a percentage of employee contributions. The Company did not make any contributions for the current Plan year. The Plan provides investment options through the Principal Life Insurance Company in the form of participation in a group annuity contract, which includes pooled separate accounts. Each participant may choose any of the funds for their investment account.

C. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (Continued)

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

E. Participant Loans

Participants may borrow from their fund accounts, a minimum of $1,000, up to a maximum of 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 6% to 11%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator.

F. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

B. Investment Valuation and Income Recognition

The plan's investments are stated at fair value. Participant loans are valued at their outstanding balances, which approximates fair value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Effective fiscal year ending December 31, 2009, The Plan adopted The Fair Value Measurements Topic of FASB's ASC that defines fair value as the price that the plan would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market for the investment. The Fair Value Measurements Topic established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs to establish classification of fair value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 – quoted prices in active markets for identical investments
Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
Level 3 – significant unobservable inputs (including the Plan's own assumptions in determining the fair value of investments)

Level 2 investments consist of pooled separate accounts. The pooled separate accounts invest in short terms securities, such as commercial paper, mutual funds, domestic stocks, international stocks and fixed securities, including domestic and foreign corporate bonds, asset backed securities, and commercial mortgage backed securities and government bonds. The fair values of the underlying mutual funds and domestic stocks are a publicly quoted pricing input and are used in determining the net asset values of the pooled separate accounts, which are not publicly quoted. The short term securities and international stocks have observable level 1 and 2 pricing inputs, including quoted prices for similar assets in active and non-active markets. The fixed securities have observable level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Investment Valuation and Income Recognition (Continued)

Level 3 investments consist of participant loans, guaranteed interest investment contracts and a pooled separate account which invests primarily in commercial real estate. Participant loans are reported at unpaid balances which approximates fair value. There is no existing external exit market for these loans as all transactions are restricted to participants and the plan sponsor. These loans can not be assumed or sold to outside parties. There is no credit risk involved with these loans as any participant defaults are then deemed taxable distributions to the participant. The fair value of guaranteed interest investment contracts is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other then death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceeds crediting rates. The underlying real estate investments of the pooled separate account have unobservable level 3 pricing inputs. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transactions prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser.

The following is a summary of the inputs used as of December 31, 2011 in valuing the Plan's investments carried at fair value:

		Fair Value Measurements at Reporting Date Using		
Description	12/31/11	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

5. PLAN TERMINATION

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 30, 1993, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

7. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

Pooled separate accounts	$3,627,143
Guaranteed interest accounts	1,066,555

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
