McGladrey

To the Plan Administrator and Investment Committee
Luminator 401(k) Retirement Plan
Plano, Texas

Our audit was performed in accordance with auditing standards generally accepted in the United States of America, except that we did not perform any of the normal auditing procedures on asset information certified or provided by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B. (Prudential), the custodian, under section 2520.103-8 of the Department of Labor's Rules and Regulations. In planning and performing our audit of the financial statements of Luminator 401(k) Retirement Plan (the Plan) as of and for the year ended December 31, 2011 and for the period from October 27, 2010 (inception) to December 31, 2010, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in internal control to be significant deficiency:

SIGNIFICANT DEFICIENCY

Timeliness of Remittance of Employee Deferrals

The Department of Labor (DOL) continues to focus on the timeliness of remittance of participant contributions in contributory employee benefit plans. McGladrey LLP has become aware that the DOL is actively enforcing the requirement that employee 401(k) deferrals must be paid to the Plan as of the earliest date on which the contributions can be reasonably segregated from the employer's general assets.

The DOL Web site contains a section titled "Frequently Asked Questions about Reporting Delinquent Participant Contributions on the Form 5500." In that document, they describe the "aggressive enforcement project intended to safeguard employee contributions to 401(k) plans" by investigating situations in which employers delay in forwarding participant contributions to employee benefit plans. It further states that when an employer is delinquent in forwarding participant contributions and holds them commingled with its general assets, the employer is deemed to have engaged in a non-exempt prohibited transaction under ERISA section 406.

Rule 29 CFR 2510.3-102 paragraph (a) states that the assets of the plan should be contributed to the plan "as of the earliest date on which such contributions can reasonably be segregated from the employer's general assets." Paragraph (b) sets the maximum time period for these contributions as follows "in no event shall the date determined pursuant to paragraph (a) of this section occur later than the 15th business day of the month following the month in which the participant contribution amounts are received by the employer". ***This 15-business day period by which elective contributions must be transmitted to the plan is not a safe harbor***. The DOL expectation is that an employer must contribute participants' elective deferrals to the plan by the earliest date on which the contributions can be reasonably segregated from its general assets. This means that 401(k) withholdings from each payroll need to be deposited within days after each withholding occurs, similar to the timing for payroll tax deposits. Failure to remit 401(k) withholdings in accordance with the requirements could be interpreted by the DOL as a prohibited transaction, fiduciary breach, or both, and may result in significant penalties.

We noted the Plan Sponsor failed to remit certain participant contributions, in the amounts of $5,971, and $69,927 to the custodian as soon as could be reasonably segregated during 2011 and 2010, respectively. We recommend the Plan's management establish procedures to ensure that all participant contributions are remitted to the trustee as soon as practicable and in a consistent number of days following the pay period. We further recommend that any remittances outside of the normal number of days to remit be documented as to the reason for the delay.

In addition, you should be aware of the Voluntary Fiduciary Corrections Programs offered by the DOL for instances of fiduciary breach, such as late deposits of employee withholdings. This allows employers to voluntarily report instances such as late deposits and take corrective action to remedy the breach, without becoming the subject of an enforcement action, and without liability for penalties. In the situation of late deposits of 401(k) withholdings, the Plan must be made whole with a contribution of lost earnings, computed under established guidelines.

Following is a description of an identified control deficiency that we determined did not constitute a significant deficiency:

CONTROL DEFICIENCY

Plan Adoption Agreement Executed Date

We reviewed the Internal Revenue Service opinion letter for the Prudential Prototype Plan dated March 31, 2008. The letter indicates the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Prudential regularly provides their clients with updated plan amendments and follows up with them to ensure they are adopted and communicated where necessary. We noted however, in this case, the plan document was not executed until after year-end. This is an operational defect and, to be considered established to receive the spin-off assets, the Plan should have been signed no later than December 31, 2010. Further, for there to be an acceptable receipt of 401(k) salary deferrals, the Plan must be in existence by the deposit date of the first deferrals. In this case, the first deposit date was November 7, 2010, but the Plan was not signed under January 12, 2011. This presents the risk to participants that their salary deferrals were taxable and raises the importance of the need of the sponsor to address this matter.

Each of these errors is eligible for correction under Revenue Procedure 2008-50. The Plan Administrator should consider submitting a request for relief under the Employee Plans Compliance Resolution System to ensure the Plan's tax-advantaged status and the actions described above will survive any challenge by the IRS with respect to the formation of the Plan.

Independent Auditor's Report

To the Plan Administrator and Investment Committee
Luminator 401(k) Retirement Plan
Plano, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of Luminator 401(k) Retirement Plan (the Plan) as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the year ended December 31, 2011 and for the period from October 27, 2010 (inception) to December 31, 2010, and the supplemental schedules, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2011, and as of December 31, 2010 and Schedule H, Line 4(a) – Schedule of Delinquent Participant Contributions for the year ended December 31, 2011 and for the period from October 27, 2010 (inception) to December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 which was certified or provided by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B. ("Prudential"), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that Prudential holds the Plan's assets and executes transactions. As disclosed in Note 4, the Plan Administrator has obtained certifications from Prudential regarding the completeness and accuracy of the information provided to the Plan Administrator by Prudential as of and for the year ended December 31, 2011, and as of December 31, 2010 and for the period from October 27, 2010 (inception) to December 31, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by Prudential, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Luminator 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan whereby eligible employees of Luminator Technology Group, LLC (the Company) are permitted to make pretax contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective October 29, 2010, the Company, through a series of transactions, acquired 100% of the equity of various operating subsidiaries from Mark IV Industries, LLC (Mark IV) as a private equity investment. Consistent with this acquisition, the Plan was established effective October 27, 2010 (inception) to allow the former employees of Mark IV to begin participating in the Plan. Assets of $10,266,574 were transferred from the Mark IV Savings & Investment Plan (Mark IV Plan) to the Plan on December 23, 2010, the date legal responsibility for the transferred assets was assumed. Subsequently on January 12, 2011, assets of $219,456 for two participants were transferred from the Mark IV Plan to the Plan.

Effective November 15, 2011, the Mark IV Plan submitted $601,228 of employer contributions to the Plan for the period when participants were employed by Mark IV in 2010.

Effective January 12, 2011, the Plan document was amended to adopt the provisions of the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART Act).

Eligibility: Employees become eligible for participation after a 30 day eligibility service period from date of hire, as defined by the Plan. Auto enrollment is a one-time event upon initial eligibility for the Plan and is subject to a 30-day opt-out period. Employees excluded from the Plan include union employees, non-resident aliens, part-time employees with less than 1,000 hours of service, temporary and seasonal employees.

Contributions: Under the Plan, employees are permitted to contribute not less than 1% and up to 100% of their pretax compensation to the Plan, subject to certain maximum limitations imposed by the IRC ($16,500 for 2011). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($5,500 for 2011).

The Company may make matching contributions equal to a discretionary percentage of the participants' elective deferral contribution. For the year ended December 31, 2011, the employer made a matching contribution equal to 33% of each participant's contribution up to 6% of the participant's compensation. For the year ended December 31, 2011, the Company also made profit sharing contributions of 2.5% of the participant's eligible wages. Participants contribute each pay period through authorized payroll deductions. Participants may roll over amounts representing distributions from other qualified benefit plans.

Vesting: Participants are immediately 100% vested in their Plan accounts.

Participant accounts: Each participant's account is credited with the participant's contribution and the Company's discretionary matching contributions and profit sharing contributions. Earnings or losses of the Plan are allocated to participants based on the account balance in existence. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment options: Upon enrollment in the Plan, a participant must direct contributions among the investment options provided by the Plan. Participants may change their investment options any time throughout the year through service center, internet or voice response access to the custodian.

Note 1. Description of Plan (Continued)

Forfeitures: There are no forfeitures as participants are 100% vested in the Company contributions.

Payment of benefits: On termination of service, participants may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or periodic installments. If a participant's vested balance is $1,000 or less, the participant will receive a single lump distribution of their entire vested account balance. In the event of a distribution that is greater than $1,000 but less than $5,000, if the participant does not elect to have such distribution paid directly to an eligible retirement plan in a direct rollover or to receive the distribution, then the Plan Administrator will pay the distribution in a direct rollover to an IRA designated by the Plan Administrator. In-service distributions are permitted for participants that attain age 59 ½, or in situations of hardship or disability.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lower of 50% of their vested account balance or $50,000. Notes receivable are secured by the balance in the participant's account and bear interest at a rate based on the prime lending rate plus 2%. Interest rates on outstanding notes receivable ranged from 4.25% to 10.50% as of December 31, 2011 and December 31, 2010. Note receivable terms range from 1 to 5 years. Principal and interest are paid ratably through automatic payroll deductions. A participant may be granted one loan during any one year period and only one loan may be outstanding at a time. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Administrative expenses: The Plan will pay some or all Plan related expenses except for a limited category of expenses which the law requires the employer to pay.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are presented on the accrual basis of accounting.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of benefits: Benefits are recorded when paid.

Income taxes: Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 2. Significant Accounting Policies (Continued)

Subsequent events: The plan administrator has evaluated subsequent events through October 11, 2012, the date on which the financial statements were available to be issued.

Recently issued accounting standards: In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. This amendment requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 measurements was effective for periods beginning on or after December 15, 2010. The adoption of the guidance related to Level 3 measurements did not have a material effect on the Plan's financial statements. With respect to matters other than Level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2009, and the adoption of these provisions of ASU 2010-06 did not have a material impact on the Plan's financial statements.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of this guidance is not expected to have a material impact on the Plan's financial statements.

Note 3. Investment Contract With Insurance Company

In 2010, the Plan entered into a benefit-responsive insurance contract with Prudential. Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed insurance contract issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a market value (fair value) adjustment does not apply upon a discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The Plan owns a promise to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional GIC and therefore there are not any known cash flows that could be discounted. As a result, the fair value amount shown is equal to the contract value.

When establishing interest crediting rates of this product, Prudential considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 1.50%.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate were 1.85% and 1.60% during the year ended December 31, 2011 and for the period from October 27, 2010 (inception) to December 31, 2010, respectively. Interest crediting rates are reviewed on a semi-annual basis for resetting.

Note 3. Investment Contract With Insurance Company (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletions of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 4. Information Certified and Provided by Prudential

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011 and for the period from October 27, 2010 (inception) to December 31, 2010 included throughout the Plan's financial statements and supplemental schedules, that were prepared by or derived from information provided by Prudential, the custodian of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Prudential that information provided to the Plan Administrator by Prudential related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the assets listed in the table below.

The following table presents the fair value of the assets in this Plan that were certified by Prudential at December 31, 2011 and 2010:

	2011	2010
Cash	**$ 3**	$ -
Investments at fair value:		
Mutual funds	**7,064,146**	6,903,421
Group annuity insurance contract	**3,867,325**	2,997,844
Notes receivable from participants	**527,785**	463,964
	$ 11,459,259	$ 10,365,229

Prudential certified to the completeness and accuracy of $274,013 of net depreciation in fair value of investments, $95,847 of dividends from mutual funds, $59,511 of interest on the group annuity insurance contract and $25,390 of interest on notes receivable from participants related to the aforementioned assets for the year ended December 31, 2011. Prudential also certified to the completeness and accuracy of $8,924 of net appreciation in fair value of investments, $9,000 of dividends from mutual funds, $1,220 of interest on the group annuity insurance contract and $1,155 of interest on notes receivable from participants related to the aforementioned assets for the period from October 27, 2010 (inception) to December 31, 2010.

Note 5. Fair Value Measurements

ASC 820, *Fair Value Measurement and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated from by observable market data by correlation or other means

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value ('NAV") of shares held by the Plan at year end. Accordingly, the fair value of these assets is established using Level 1 inputs.

Guaranteed insurance contract: The fair value of this investment is considered equal to the contract value (see Note 3). Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Accordingly, the fair value of these assets is established using Level 3 inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010. The following table also presents separately those investments that represent 5% or more of the Plan's net assets:

Note 6. Plan Administration

The Plan is administered by the investment committee as appointed by the Company. The Plan's investment funds are held by Prudential as custodian for the Plan.

Certain administrative functions are performed by officers or employees of the Company. However, such employees receive no compensation from the Plan. The Company and the Plan share in the Plan expenses. Additionally, certain expenses, such as transaction fees from receiving a loan, withdrawal, or distribution from the Plan, are deducted from participants' accounts.

Note 7. Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary to the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted with the Company and Prudential qualify as party-in-interest transactions.

Note 8. Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by Prudential Insurance Co of America. The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Plan Termination

While there is no intention to do so, the Company reserves the right to terminate the Plan. In the event of termination of the Plan, the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 10. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 11. Prohibited Transactions

During the year ended December 31, 2011 and the period from October 27, 2010 (inception) to December 31, 2010, the plan sponsor did not timely remit certain participant withholdings totaling $5,971 and $69,927, respectively, to the custodian of the Plan. These untimely submissions constitute prohibited transactions as defined by ERISA. The untimely submissions were not within the Company's normal process. The related interest due and the necessary excise taxes will be paid in 2012 for the 2011 and 2010 late contributions. The interest and excise taxes are not material to the financial statements.

Note 12. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31, 2011 and December 31, 2010:

	2011	2010
Net assets available for plan benefits per the financial statements	**$ 12,011,334**	$ 11,233,846
