Julian Gold, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of the Julian Gold, Ltd. 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Julian Gold, Ltd. (Company). Employees, who are not union employees, are eligible to participate in the Plan once they have completed one year of service and have attained age 21. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

Contributions

Employer contributions to the Plan consist of discretionary amounts determined annually by the Company. In order to receive an allocation of the employer profit sharing contribution, participants must be employed on the last day of the plan year and have completed a year of service during the Plan year. The profit sharing contribution is allocated based on a formula as defined in the Plan document. Participants may elect to defer a portion of their compensation by an amount that does not exceed the maximum allowed under Internal Revenue Service (IRS) rules and regulations. Participants who have reached age 50 by the end of the calendar year and who have already made the maximum elective deferral may make an additional pre-tax "catch-up" contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution and an allocation of the Plan's earnings or losses. Allocations of earnings and losses are based on the participant's balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service (or upon death or disability of the participant).

Participant's forfeitures of non-vested contributions are applied to employer discretionary contributions. During 2011, there were no forfeited non-vested accounts allocated to participants. As of December 31, 2011 and 2010, unallocated forfeited amounts were $390 and $63, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the prior twelve months, whichever is less. The loans are secured by the balance in the participant's account and bear a fixed interest rate as determined quarterly by the Plan administrator based on interest rates charged for similar types of loans by other lenders. The loan term should not exceed five years with the exception of a loan for the purchase of a principal residence. A participant may only have one loan outstanding at any time.

Payment of Benefits

Benefit payments are available upon termination, retirement, death or disability. Benefit payments may be in the form of lump-sum or partial distributions.

In-service distributions are allowed provided a participant has reached age 59½. Hardship withdrawals are available to participants upon approval by the Plan administrator.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual method of accounting.

Use of Estimates

The preparation of accrual basis financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Investments in mutual funds are valued at net asset value, corporate stocks and bonds are valued based upon quoted market prices. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Further, cash and cash equivalents are stated at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 3: Certification by Plan Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

Accordingly, the custodian of the Plan has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2011 and 2010
- Investment income and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2011

The Plan's independent auditors did not perform auditing procedures related to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Fair value	$ 257,926
Contract value	$ 244,373
Adjustment from fair value to contract value	$ 13,553

Note 5: Party-in-interest Transactions

Plan investments include mutual funds and cash and cash equivalents that are managed by ING. ING acts as the custodian for the Plan; therefore, these transactions qualify as party-in-interest transactions.

Note 6: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds representing registered investment funds which are valued at the net asset value (NAV) of shares held by the Plan at year-end and money markets which are stated at cost and approximate fair value. The Plan does not have any assets that qualify as Level 2 securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include a fixed income fund valued based upon schedules in its contract.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at:

		December 31, 2011 Fair Value Measurements Using

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	ING Fixed Income Account

Dividends and interest	3,544
Purchases	209,106
Sales	(2,984)
Balance, December 31, 2011	$ 257,926

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Plan sponsor's contributions.

Note 8: Tax Status

The Plan operates under a prototype nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Simpkins & Associates, Inc. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter, dated March 31, 2008, from the IRS stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Service Code (IRC) and that the related trust was tax exempt as of the financial statement date. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust was tax exempt as of the financial statement date. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2008.

Note 9: Risk and Uncertainties

The Plan may invest in various types of investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 10: Subsequent Events

Subsequent events have been evaluated through October 9, 2012, which is the date the financial statements were available to be issued.
