Report of Independent Auditors

To the Participants and Benefit Plans Committee of the
Robert Bosch Defined Contribution Retirement Plan

We were engaged to audit the financial statements and supplemental schedule of the Robert Bosch Defined Contribution Retirement Plan (the "Plan") at December 31, 2011 and for the period from July 1, 2011 (inception) through December 31, 2011, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Mercer Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and for the period from July 1, 2011 through December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Robert Bosch Defined Contribution Retirement Plan

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

1. Description of the Plan

The following description of the Robert Bosch Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Robert Bosch LLC (the "Company") is the Plan administrator.

General

The Plan, a defined contribution plan established July 1, 2011, is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Each covered employee who is an active participant in the Bosch Pension Plan on the day immediately preceding the established date including a covered employee who terminates employment with all affiliates before, but receives compensation after June 30, 2011, will become an active participant of the Plan. All full-time employees of the Company and its participating subsidiaries hired on July 1, 2011 or later are eligible to participate in the Plan on their date of hire. Part-time employees are eligible to participate after one year of service with 1,000 hours of service, as defined in the Plan document.

Contributions

The Plan provides for employer contributions to be made to each plan participant's account. Contributions, ranging from 2.5% to 6.5% of eligible compensation, are based on age at December 31 of the current plan year, as defined in the plan document. Employee contributions and rollovers are not allowed under the Plan.

Vesting

After 3 years of service with the Company, a participant will become 100% vested in Company contributions plus actual earnings thereon. Forfeited balances of terminated participants' nonvested accounts can be used to reduce Company contributions or to pay expenses of the Plan. Forfeited nonvested accounts totaled \$13 at December 31, 2011.

Participant Accounts

Each participant's account is credited with the Company's contributions and Plan earnings. Allocations of Plan earnings are based on participant account balances in the respective investment options. The benefit to which a participant is entitled is equal to the vested balance that can be provided from the participant's account.

Investment Options

Participants may direct contributions in any of the investment options offered, which include collective trusts, as well as the Vanguard Prime Money Market Fund. Changes in allocations of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions. The Plan's investments are held by Mercer Trust Company (the "Trustee").

Benefit Payments

In the event of retirement, termination of service, death, or disability, the participant may receive a lump sum or installment payments equal to the vested value of his or her account.

The amount may be transferred directly to an Individual Retirement Account or another qualified plan. If the participant does not elect a direct plan-to-plan transfer, the Internal Revenue Service ("IRS") requires the Company to withhold 20% of the final distribution for payment of federal income taxes.

Robert Bosch Defined Contribution Retirement Plan

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

The Plan does not allow for loans, hardship withdrawals or withdrawals after attaining age 59 ½.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants shall immediately be fully vested and distributed to the participants.

Administrative Expenses

Administrative expenses, consisting principally of investment management, audit and recordkeeping fees, are paid by the Company.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Units of collective trusts are valued at the net asset value of units held by the Plan at year-end, based on information reported by the investment advisor using the financial statements of the collective trusts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments which consists of the gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

New Accounting Pronouncements

Fair Value Measurements

In January 2010, the Financial Accounting Standards Board ("FASB") issued authoritative guidance intended to improve disclosures about fair value measurements. The guidance requires entities to disclose significant transfers in and out of fair value hierarchy levels and reasons for the transfers and to present information about purchases, sales, issuances and settlements separately in the reconciliation of fair value measurements using significant unobservable inputs (Level 3). Additionally, the guidance clarifies that a reporting entity should provide fair value measurements for each class of assets and liabilities and disclose the inputs and valuation techniques used for fair value measurements using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3). This guidance is effective for annual periods beginning after December 15, 2009 except for disclosures about purchases, sales, issuances and settlements in

Robert Bosch Defined Contribution Retirement Plan

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

the Level 3 reconciliation, which is effective for annual periods beginning after December 15, 2010. The Company has expanded disclosures in Note 4 to comply with the aforementioned fair value guidance.

In May 2011, the FASB issued authoritative guidance to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and International Financial Reporting Standards by changing the wording used to describe many of the requirements for measuring fair value and disclosing information about fair value measurements. The amendments include those that clarify FASB's intent about the application of existing fair value measurement and disclosure requirements and those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. This Accounting Standards Update, which is to be applied prospectively, is effective for annual periods beginning after December 15, 2011. As this guidance provides only disclosure requirements, the adoption of the standard will not impact the Plan's financial statements.

3. Certification of Investment Information

The Trustee of the Plan holds the Plan's investments and executes all related transactions. Information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2011, net appreciation in fair value of investments and dividend and interest income for the period from July 1, 2011 through December 31, 2011, and the investment information presented below was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Mercer Trust Company, the Trustee.

The fair value of individual investments that represent 5% or more of the Plan's net assets is as follows at December 31:

JPMorgan SmartRetirement 2010 Fund C Class	\$	836,279
JPMorgan SmartRetirement 2015 Fund C Class		1,751,194
JPMorgan SmartRetirement 2020 Fund C Class		5,085,968
JPMorgan SmartRetirement 2030 Fund C Class		4,238,330
JPMorgan SmartRetirement 2040 Fund C Class		2,268,916

The Plan's investments, including investments bought and sold as well as held during the year, appreciated in fair value as follows:

		2011
Collective trusts	\$	129,278

4. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Robert Bosch Defined Contribution Retirement Plan

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value, see Investment Valuation and Income Recognition under Note 2.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2011.

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

Common collective trusts consist of pools of investments used by institutional investors to obtain equity and fixed income market exposures by investing in funds which are intended to mirror market indices. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts. The underlying assets are valued based on the NAV as provided by the investment account manager and are classified in Level 2 of the fair value hierarchy. Certain of these investments can only be traded within a certain window within each monthly period. Common collective trusts included in the Plan and their relative benchmarks include:

Common Collective Trust	Description	Benchmark	Trade Frequency Restrictions
JPMorgan SmartRetirement 2010 Fund	Diversified target date fund	S&P Target Date 2010 Index	30 day Buy Back
JPMorgan SmartRetirement 2015 Fund	Diversified target date fund	S&P Target Date 2015 Index	30 day Buy Back
JPMorgan SmartRetirement 2020 Fund	Diversified target date fund	S&P Target Date 2020 Index	30 day Buy Back
JPMorgan SmartRetirement 2030 Fund	Diversified target date fund	S&P Target Date 2030 Index	30 day Buy Back
JPMorgan SmartRetirement 2040 Fund	Diversified target date fund	S&P Target Date 2040 Index	30 day Buy Back
NT Collective Long-Term Government Bond Index	Long-Term Government Bond	Barclays US Government Long -Term Index	30 day Buy Back

There are no unfunded commitments related to these funds as of December 31, 2011.

5. Tax Status

The Plan has not yet filed an application for a determination letter from the Internal Revenue Service for a determination as to whether the Plan meets the qualification requirements of Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the Plan is subject to income tax examinations for all plan years.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

7. Subsequent Events

Effective January 1, 2012 all salaried and non-union associates employed at Hagglunds Drives, Inc. and Bosch Software Innovations Corp. became participants in the Plan and received credit for

prior service with Hagglunds Drives, Inc. and Bosch Software Innovations Corp. as applicable for vesting service under the Plan.

Effective January 1, 2012 hourly associates employed by Robert Bosch Tool Corporation in the Lincolnton distribution facility became participants in the Plan and received credit for prior service with Robert Bosch Tool Corporation for vesting service under the Plan.

The Plan has evaluated the events and transactions that have occurred through October 10, 2012, the date the financial statements were available to be issued, and concluded there were no other subsequent events to recognize or disclose.

Report of Independent Auditors

To the Participants and Benefit Plans Committee of the
Robert Bosch Defined Contribution Retirement Plan

We were engaged to audit the financial statements and supplemental schedule of the Robert Bosch Defined Contribution Retirement Plan (the "Plan") at December 31, 2011 and for the period from July 1, 2011 (inception) through December 31, 2011, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Mercer Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and for the period from July 1, 2011 through December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Robert Bosch Defined Contribution Retirement Plan

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

1. Description of the Plan

The following description of the Robert Bosch Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Robert Bosch LLC (the "Company") is the Plan administrator.

General

The Plan, a defined contribution plan established July 1, 2011, is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Each covered employee who is an active participant in the Bosch Pension Plan on the day immediately preceding the established date including a covered employee who terminates employment with all affiliates before, but receives compensation after June 30, 2011, will become an active participant of the Plan. All full-time employees of the Company and its participating subsidiaries hired on July 1, 2011 or later are eligible to participate in the Plan on their date of hire. Part-time employees are eligible to participate after one year of service with 1,000 hours of service, as defined in the Plan document.

Contributions

The Plan provides for employer contributions to be made to each plan participant's account. Contributions, ranging from 2.5% to 6.5% of eligible compensation, are based on age at December 31 of the current plan year, as defined in the plan document. Employee contributions and rollovers are not allowed under the Plan.

Vesting

After 3 years of service with the Company, a participant will become 100% vested in Company contributions plus actual earnings thereon. Forfeited balances of terminated participants' nonvested accounts can be used to reduce Company contributions or to pay expenses of the Plan. Forfeited nonvested accounts totaled \$13 at December 31, 2011.

Participant Accounts

Each participant's account is credited with the Company's contributions and Plan earnings. Allocations of Plan earnings are based on participant account balances in the respective investment options. The benefit to which a participant is entitled is equal to the vested balance that can be provided from the participant's account.

Investment Options

Participants may direct contributions in any of the investment options offered, which include collective trusts, as well as the Vanguard Prime Money Market Fund. Changes in allocations of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions. The Plan's investments are held by Mercer Trust Company (the "Trustee").

Benefit Payments

In the event of retirement, termination of service, death, or disability, the participant may receive a lump sum or installment payments equal to the vested value of his or her account.

The amount may be transferred directly to an Individual Retirement Account or another qualified plan. If the participant does not elect a direct plan-to-plan transfer, the Internal Revenue Service ("IRS") requires the Company to withhold 20% of the final distribution for payment of federal income taxes.

Robert Bosch Defined Contribution Retirement Plan

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

The Plan does not allow for loans, hardship withdrawals or withdrawals after attaining age 59 ½.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants shall immediately be fully vested and distributed to the participants.

Administrative Expenses

Administrative expenses, consisting principally of investment management, audit and recordkeeping fees, are paid by the Company.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Units of collective trusts are valued at the net asset value of units held by the Plan at year-end, based on information reported by the investment advisor using the financial statements of the collective trusts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments which consists of the gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

New Accounting Pronouncements

Fair Value Measurements

In January 2010, the Financial Accounting Standards Board ("FASB") issued authoritative guidance intended to improve disclosures about fair value measurements. The guidance requires entities to disclose significant transfers in and out of fair value hierarchy levels and reasons for the transfers and to present information about purchases, sales, issuances and settlements separately in the reconciliation of fair value measurements using significant unobservable inputs (Level 3). Additionally, the guidance clarifies that a reporting entity should provide fair value measurements for each class of assets and liabilities and disclose the inputs and valuation techniques used for fair value measurements using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3). This guidance is effective for annual periods beginning after December 15, 2009 except for disclosures about purchases, sales, issuances and settlements in

Robert Bosch Defined Contribution Retirement Plan

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

the Level 3 reconciliation, which is effective for annual periods beginning after December 15, 2010. The Company has expanded disclosures in Note 4 to comply with the aforementioned fair value guidance.

In May 2011, the FASB issued authoritative guidance to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and International Financial Reporting Standards by changing the wording used to describe many of the requirements for measuring fair value and disclosing information about fair value measurements. The amendments include those that clarify FASB's intent about the application of existing fair value measurement and disclosure requirements and those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. This Accounting Standards Update, which is to be applied prospectively, is effective for annual periods beginning after December 15, 2011. As this guidance provides only disclosure requirements, the adoption of the standard will not impact the Plan's financial statements.

3. Certification of Investment Information

The Trustee of the Plan holds the Plan's investments and executes all related transactions. Information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2011, net appreciation in fair value of investments and dividend and interest income for the period from July 1, 2011 through December 31, 2011, and the investment information presented below was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Mercer Trust Company, the Trustee.

The fair value of individual investments that represent 5% or more of the Plan's net assets is as follows at December 31:

JPMorgan SmartRetirement 2010 Fund C Class	\$	836,279
JPMorgan SmartRetirement 2015 Fund C Class		1,751,194
JPMorgan SmartRetirement 2020 Fund C Class		5,085,968
JPMorgan SmartRetirement 2030 Fund C Class		4,238,330
JPMorgan SmartRetirement 2040 Fund C Class		2,268,916

The Plan's investments, including investments bought and sold as well as held during the year, appreciated in fair value as follows:

		2011
Collective trusts	\$	129,278

4. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Robert Bosch Defined Contribution Retirement Plan

Notes to Financial Statements

July 1, 2011 through Year Ended December 31, 2011

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value, see Investment Valuation and Income Recognition under Note 2.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2011.

Investment Assets at Fair Value as of December 31, 2011

July 1, 2011 through Year Ended December 31, 2011

Common collective trusts consist of pools of investments used by institutional investors to obtain equity and fixed income market exposures by investing in funds which are intended to mirror market indices. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts. The underlying assets are valued based on the NAV as provided by the investment account manager and are classified in Level 2 of the fair value hierarchy. Certain of these investments can only be traded within a certain window within each monthly period. Common collective trusts included in the Plan and their relative benchmarks include:

Common Collective Trust	Description	Benchmark	Trade Frequency Restrictions
JPMorgan SmartRetirement 2010 Fund	Diversified target date fund	S&P Target Date 2010 Index	30 day Buy Back
JPMorgan SmartRetirement 2015 Fund	Diversified target date fund	S&P Target Date 2015 Index	30 day Buy Back
JPMorgan SmartRetirement 2020 Fund	Diversified target date fund	S&P Target Date 2020 Index	30 day Buy Back

NT Collective Long-Term Government Bond Index	Long-Term Government Bond	Barclays US Government Long -Term Index	30 day Buy Back

There are no unfunded commitments related to these funds as of December 31, 2011.

5. Tax Status

The Plan has not yet filed an application for a determination letter from the Internal Revenue Service for a determination as to whether the Plan meets the qualification requirements of Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the Plan is subject to income tax examinations for all plan years.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

7. Subsequent Events

Effective January 1, 2012 all salaried and non-union associates employed at Hagglunds Drives, Inc. and Bosch Software Innovations Corp. became participants in the Plan and received credit for

prior service with Hagglunds Drives, Inc. and Bosch Software Innovations Corp. as applicable for vesting service under the Plan.

Effective January 1, 2012 hourly associates employed by Robert Bosch Tool Corporation in the Lincolnton distribution facility became participants in the Plan and received credit for prior service with Robert Bosch Tool Corporation for vesting service under the Plan.

The Plan has evaluated the events and transactions that have occurred through October 10, 2012, the date the financial statements were available to be issued, and concluded there were no other subsequent events to recognize or disclose.
