Note 1 - Description of Plan

The following description of the Glenn Thurman, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement or Summary Plan Description (SPD) for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Glenn Thurman, Inc. and its wholly owned subsidiaries, Thurman Transportation, Inc., Eagleford Transportation Services, LLC and GTI Energy Services, LLC (collectively, the Company or Employer). The Plan is designed to comply with the Employee Retirement Income Security Act of 1974, (ERISA), and the Internal Revenue Code (IRC). In addition, the financial statements have been prepared in compliance with ERISA. The Plan is under the administration of the Company and the Plan's trustees. From January 1, 2011 through September 13, 2011, ING Life Insurance and Annuity Company was the Custodian of the Plan's assets and was responsible for recordkeeping and executing transactions. Beginning September 14, 2011, Great-West Life and Annuity Insurance Company is the Custodian of the Plan's assets and is responsible for recordkeeping and executing transactions.

Eligibility

All employees of the Company who have completed one year of service (more than 1,000 hours during a twelve month period) and are age 21 or older are eligible to participate in the Plan.

Employer contributions

The Company may make matching contributions as determined and authorized by the Company's board of directors. The Company has elected to match one hundred percent (100%) of employee contributions, limited to two percent (2%) of compensation. Additional discretionary contributions may be made at the option of the Employer's board of directors.

Employee contributions

Participants may contribute any amount of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations as set forth by the Internal Revenue Service (IRS).

Note 1 - Description of Plan - (Continued)

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's matching contributions, and an allocation of (a) the Company's discretionary contributions, if any, and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations of Plan earnings or losses are based on a participant's account balance in each investment option as a percentage of the total of participants' account balances, and the allocation of additional discretionary contributions is based on the participant's compensation as a percentage of the total participants' compensation.

Vesting

Participants are immediately vested in their voluntary contributions and any earnings or losses thereon. Vesting in Company contributions and any earnings or losses thereon is based on years of continuous service as follows:

Years of Service	Vested Percentage
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Payment of benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Upon death, disability, or retirement, a distribution from the Plan will be made in one lump-sum payment equal to the value of the participant's vested account.

Note 1 - Description of Plan - (Continued)

Forfeitures

Forfeitures of terminated participants' nonvested account balances may be used to reduce administrative expenses and to reduce Employer contributions. Forfeited accounts available for the Employer to reduce future matching contributions totaled $9,686 and $7,415 at December 31, 2011 and 2010, respectively. No forfeitures were applied in the reduction of matching contributions for the year ended December 31, 2011.

Participant loans receivable

Loans may be made to participants at their request subject to certain statutory and Plan limitations on principal and repayment provisions. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. No more than two loans may be outstanding at any one time, with the second loan available only for the purchase of a principal residence. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25 to 10.25 percent as of December 31, 2011 and 2010, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Participant loans are recorded at their unpaid principal balance plus any unpaid accrued interest.

Investment options

Participants direct the investment of their contributions into a variety of investment options offered by the Plan, including several pooled separate accounts and a fixed account.

Administrative expenses

Administrative expenses are generally paid by the Employer. However, the Plan may pay transaction fees which are allocated to the specific participants initiating the transaction.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP) and present the net assets available for benefits and changes in those assets.

Subsequent events

Management of the Plan has evaluated subsequent events through October 10, 2012, the date the financial statements were available to be issued.

Use of estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Accordingly, actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Fair value of investments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. US GAAP also establishes a fair value hierarchy, which requires an entity to minimize the use of unobservable inputs when measuring fair value. Three levels of inputs may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Plan investments are held in pooled separate accounts and a fixed account. Pooled separate accounts are stated at fair value as reported to the Plan by the Custodian, based on quoted market prices of the underlying mutual funds, less any fees charged by the Custodian and are classified in level 2 of the fair value hierarchy. The fixed account is valued as reported by the issuer, based on the fair value of the underlying investments less any fees paid by the fund for its expenses, and are classified within level 2 of the valuation hierarchy. There have been no changes in the methodology used to measure fair value at December 31, 2011 and 2010. Prior year investments reflect a fixed account in level 3 of the fair value hierarchy. However, due to a change in Custodian in the current year this fixed account is no longer held.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Fair value of investments - continued

Fair value estimates are made at a specific point in time and the methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair value. Although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Investment valuation and income recognition

Investments are stated at fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses for investments purchased and sold during the year.

Payment of benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Note 3 - Fair Value Measurements

The following tables present the Plan's fair value hierarchy for those assets measured at fair value as of December 31:

Note 4 - Contracts with Insurance Company

US GAAP defines the circumstances in which an investment contract is considered fully benefit-responsive, and requires such contracts to be reported at fair value on the statements of net assets available for benefits with a corresponding adjustment to reflect these investments at contract value.

From January 1, 2011 to September 13, 2011, the Plan had a Group Annuity contract with the Custodian under which the Custodian maintained the contributions, as directed by participants, in either various funds of a pooled separate account or fixed account. The Group Annuity contract could be terminated by the Custodian after five completed contract years. The fixed account was combined in the Custodian's general account and provided a guaranteed minimum interest rate of 3% for the life of the contract. There were certain limitations and restrictions on transfers and withdrawals from the fixed account. Distributions other than benefit payments may have been subject to a market value adjustment. The terms of the contract caused the investments to not be fully benefit-responsive.

The annual effective yield of the fixed account was 3% both at September 13, 2011 and December 31, 2010. Each calendar year, a guaranteed floor interest rate was set which would not be less than 3%. The Custodian could, in its discretion, credit interest at a rate greater than the one-year rate.

Beginning September 14, 2011, the Plan has a Group Annuity contract with the Custodian under which the Custodian maintains the contributions, as directed by participants, in either various funds of a pooled separate account or fixed account. The Group Annuity contract can be terminated by the Custodian if the total fair value of investments or annual contribution amounts falls below minimum levels stated in the contract. The contract can also be terminated by either the Company or Custodian for certain other reasons. The Guaranteed Portfolio Fund is comprised of a pool of medium-long term portfolio investments that are combined in the Custodian's general account. The contract includes provisions which prevent the immediate and full payout of the contract value for plan-initiated transactions under certain events, which the Company believes are not probable of occurring. The terms cause the investments in the Guaranteed Portfolio Fund to be fully benefit-responsive as defined by US GAAP and as such require them to be reported in the financial statements at contract value. There was no adjustment required to reflect these investments at contract value as the fair value equals the contract value at December 31, 2011.

Note 4 - Contracts with Insurance Company - (Continued)

The average yield for the Guaranteed Portfolio Fund is derived by averaging the quarterly interest rates for the fund over the year, which was 1.95% for the period ended December 31, 2011. The actual crediting interest rate was 1.95% for the period ended December 31, 2011. The interest crediting rate is adjusted on a quarterly basis.

Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by ING Life Insurance and Annuity Company, the Custodian from January 1, 2010 to September 13, 2011, and Great West Life & Annuity Insurance Company, the Custodian beginning September 14, 2011, except for comparing such information certified by the Custodians to information included in the Plan's financial statements and supplemental schedule. Note 7 - Plan Termination

Note 8 - Income Tax Status

Effective January 1, 2009, the Plan adopted the prototype plan document sponsored by Pension Analysis Bureau, Inc. Pension Analysis Bureau, Inc. received an opinion letter from the IRS dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9 - Parties-in-Interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by the Custodian and its affiliates qualify as party-in-interest transactions.
