WILLIAMS COMFORT AIR EMPLOYEES PROFIT SHARING TRUST

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following descriptions of the Williams Comfort Air, Inc. ("Company") Retirement Plan provide only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company who were employed on January 1, 1994, (the effective inception date of the Plan). Subsequent to the initial plan enrollment, eligible employee participants must have one month of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan sponsor absorbs Plan audit fees while other plan administrative expenses are absorbed by the Plan.

Contributions: Each year, subject to the 401(k) salary reduction provisions and limitations, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans, at the discretion of the Administrator. The Company may contribute a discretionary amount to participants' accounts as authorized by the Company's Board of Directors determined annually. Employer contributions for any Plan year may not exceed the maximum amount deductible by the Company under Section 404 of the Internal Revenue Code. To participate in any discretionary contribution, a participant must have completed 500 hours of service or be actively employed on the last day of the applicable Plan year.

Participant accounts: Each participant's account is *(a)* credited with their specific contribution, allocations of the Company's contribution (if any) and Plan earnings, and *(b)* charged with an allocation of the Plan's administrative expenses. Allocations are based on participant earnings or account balances, as defined.

1. Description of the Plan (continued)

Vesting: Participants are immediately vested in their contributions and actual earnings thereon. Vesting in any of the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, is 100% vested upon deposit into the Plan.

Investment options: Upon enrollment in the Plan, a participant may direct their investment in any increments to the various investment funds offered, including a fixed rate investment option offered by the Plan through the Trustee.

Notes receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest – 4.25% currently. Principal and interest is paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Williams Comfort Air Employees Profit Sharing Trust have been prepared on the accrual basis of accounting, in conformity with the financial statement presentation prescribed for participant-directed investments, under Statement of Position 99-3 issued by the American Institute of Certified Public Accountants.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to certain investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the contract value of the fixed rate option investment contract, which approximates the fair value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Summary of Significant Accounting Policies (continued)

Plan Assets

The Trustee, The Guardian Insurance & Annuity Company, Inc., maintains the plan assets. Investments are stated at fair value as determined by the quoted market prices, or contract values, of the underlying securities and investments owned by the respective mutual and non-registered investment funds *(see "fair value measurements")*. Purchases and sales of the securities are recorded on a trade-date basis. Interest income is reported when earned, and dividend income is recorded on the ex-dividend date. The Company anticipates continuing the Plan without interruption but reserves the right to discontinue the Plan subject to ERISA provisions. In the event of Plan termination, participants will become 100% vested in their accounts.

Accounting estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent events

Plan management has evaluated subsequent events through October 10, 2012, the date the financial statements were available to be issued.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value, or reflective of future fair values. The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Level 1 input consists of unadjusted quoted prices in active markets, which generally provide the most reliable evidence of fair value. As of December 31, 2011, the investment funds representing the underlying assets of the pooled separate accounts consist of approximately 63% of Level 1 and 37% of Level 2 measurements.

3. Fair Value Measurements (continued)

The fixed rate option account is an investment fund that primarily invests in various registered mutual funds and non-registered collective investment funds. Thus, the fair value of this fund is determined by Level 1 and Level 2 inputs by comparing the December 31 audited financial statements of the fund disclosing the fair value of the underlying investments within the fund, and the total outstanding units of ownership in the fund. There are no assets valued using Level 3 inputs, which are unobservable and based on the best information available under the applicable circumstances.

Plan investments include a fixed rate option investment contract with The Guardian Insurance & Annuity Company, Inc. (GIAC). GIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value, as reported to the Plan by GIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $69,159 and $51,506, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed at least annually for resetting. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

4. Summary of Financial Data Certified by Trustee

Information regarding the Plan's investment balances and executed transactions included in the Plan's financial statements was prepared from information provided by the Trustee of the Plan and furnished to the plan administrator. The plan administrator has obtained certifications from the Trustee that such information is complete and accurate.

6. Tax Status

The Company received a favorable determination letter dated March 31, 2008 from the Internal Revenue Service (IRS) stating that the Plan is qualified and exempt from income tax under the applicable Sections of the Internal Revenue Code, as amended. Effective January 1, 2010, the Company adopted a restatement and adoption amendment to the previous Adoption Agreement in order to comply with current regulations. The plan's administrator and Trustee believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
