J.R. CARLSON LABORATORIES, INC. 401(K) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2011

NOTE A - DESCRIPTION OF PLAN

The following description of the J.R. Carlson Laboratories, Inc. ("Company") 401(k) Plan and Trust ("Plan") provides only general information. Participants should refer to the Plan Adoption Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who complete one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to the maximum allowable amount of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers approximately 15 investment options for participants. The Company has the option of making contributions on behalf of participants. For 2011, the Company made a matching contribution of 20% of 401(k) deferrals up to 4% of eligible compensation and a profit sharing contribution of $300,000.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings; and charged with any applicable depreciation in value, and any expenses that may apply. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each account is participant directed.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts. The loans are secured by the balance in the participant's account and bear interest at prime plus 1%. Principal and interest are paid ratably through biweekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE A - DESCRIPTION OF PLAN - continued

Forfeited Accounts

At December 31, 2011 and 2010 forfeited non-vested accounts totaled $1,515 and $360, respectively. Forfeited non-vested accounts are used to reduce employer contributions or pay administrative fees. Also, in 2011 and 2010, administrative fees of $6,396 and $0 were paid from forfeited non-vested accounts, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note I for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company or from forfeitures.

Subsequent Events

Effective January 1, 2012, the Plan changed investment custodians from ING Life Insurance and Annuity Company to Principal Financial Group.

The Plan has evaluated subsequent events through September 14, 2012, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

The following are investments that represent 5% or more of the Plan's net assets:

	12/31/11	12/31/10
Fidelity VIP Contrafund Portfolio	$ 251,396	$ 296,602
ING Fixed Account	220,510	*
ING Growth and Income Portfolio	244,972	231,669

Invesco V.I. Capital Appreciation Fund	233,932	236,675
Invesco V.I. Core Equity Fund	*	203,177

*less than 5%

During 2011, the Plan's pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $102,968.

NOTE D - PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are managed and held by ING Life Insurance and Annuity Company ("ING"). ING is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to ING are included in net depreciation in fair value of investments.

NOTE E - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	12/31/11	12/31/10
Investments, at fair value:		
Pooled separate accounts	$ 3,361,938	$ 3,290,476
Insurance contract	220,510	167,058

Year ended December 31, 2011	
Net depreciation in fair value of investments	$ 102,968
Interest income from insurance contract	5,527

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G - RECONCILIATION OF FINANCIAL STATEMENTS TO FORMS 5500

Differences between the financial statements and Form 5500 can arise due to the accounting for benefits paid to participants. For financial statement purposes, benefits are recorded when they are paid to the participants. For Form 5500 purposes, however, amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31st, but not yet paid as of that date.

There were no such differences in the benefit amounts for 2011 or 2010. Therefore, the benefits paid to participants for 2011 totaled $351,469 for both financial statement and Form 5500 purposes. Also, the net assets available for benefits at December 31, 2011 ($3,933,381) and 2010 ($3,724,929) were the same for financial statement and Form 5500 purposes.

NOTE H - TAX STATUS

The Plan adopted the DATAIR Mass-Submitter Prototype Non-Standardized Cash or Deferred Profit Sharing Plan effective January 1, 1999. The Plan has been amended since the adoption. The Internal Revenue Service has determined and informed the Company by a letter dated April 16, 2010, that the Plan amendments to the date are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE I - FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE I - FAIR VALUE MEASUREMENTS - continued

Level 2 Inputs to the valuation methodology include

--quoted prices for similar assets or liabilities in active markets;
--quoted prices for identical or similar assets or liabilities in inactive markets;
--inputs other than quoted prices that are observable for the asset or liability; and
--inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at the current participant-unit value.

Insurance contract: Valued at contract value (principal invested plus interest earned), which approximated fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010.

NOTE I - FAIR VALUE MEASUREMENTS - continued
