GREDE HOLDINGS LLC 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE A - DESCRIPTION OF THE PLAN

The following description of Grede Holdings LLC 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all eligible employees of Grede Holdings LLC (the Company), including subsidiaries or divisions, who are not members of collective bargaining groups, unless participation in the Plan is specifically provided for in the collective bargaining agreement.

Employees are eligible to participate in the Plan after completing three months of service and attaining age 18. Eligible employees can begin participating on the first day of each calendar quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2011, five other Company-sponsored plans were merged into the Plan. Plan assets of approximately \$8,000,000 were transferred into the Plan on January 11, 2011.

Contributions

Contributions to the Plan may consist of participant elective deferral contributions and Company-matching contributions. Participants' contributions are subject to limits prescribed by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes matching contributions to each participant's account, who is not a member of a collective bargaining group, in an amount equal to 25 percent of the amount deferred by each participant up to a maximum of three percent of the participant's compensation. The Company may make Company-matching contributions for members of collective bargaining groups if specified in the applicable collective bargaining agreement. Additionally, the Company may make discretionary employer contributions for nonbargaining employees in an amount to be determined by the Company's Board of Directors. Discretionary employer contributions may be made for bargaining employees if specified in the applicable collective bargaining agreement. No discretionary employer contributions were made in 2011.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Investments

Participants may direct the investment of their contributions, as well as the Company-matching contributions, into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Company contributions, Plan earnings or losses and are charged with an allocation of administrative expenses. Allocations are based on participant account balances. Distributions, withdrawals and allocated expenses are subtracted from the account balances when paid. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions and rollover contributions become fully vested upon receipt.

Each participant's Company-matching contributions and discretionary employer contributions become fully vested upon receipt for all nonbargaining employees and United Steel bargaining employees at the Berlin location. All other participant's Company-matching and discretionary employer contributions become fully vested upon normal retirement, disability, death or after four years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The notes receivable from participants are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through biweekly payroll deductions.

Payment of Benefits

On termination of service due to separation, retirement, death or disability, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount equal to the value of the participant's vested interest in his or her account or in annual installments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

GREDE HOLDINGS LLC 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -
Continued

On January 1, 2010, the Plan adopted the provisions of Accounting Standards Update (ASU) No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which require loans to participants to be classified as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for fiscal years ending after December 15, 2010, and retrospective application to all prior periods presented is required. The adoption of ASU No. 2010-25 did not have any impact on the Plan's financial condition.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in a stable value fund, which holds synthetic investment contracts, that is fully benefit-responsive, of which Principal Life Insurance Company is the custodian. The statements of net assets available for benefits present the fair value of the investment contract, as well as the adjustment of the investment from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The fair value of the Plan's investment in the Principal Stable Value Fund is primarily based on market values obtained from independent pricing services, quotes by dealers who are market makers in those securities, a pricing service based upon market transactions for normal, institutional-sized trading units of the same or similar securities or the net asset value per share/unit on the valuation date. Accrued interest, if any, on the underlying investments of the synthetic investment contracts is added to the fair value of the investments for presentation purposes. The fair value of the wrap contracts associated with the synthetic investment contracts is determined using the market approach discounting methodology, which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated yield curve as of year end.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -
Continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are reflected as of the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts and collective trust funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Contributions

Contributions from participants and Company-matching contributions are recorded in the period in which the Company makes the deductions from the employees' payroll. Rollover contributions are recorded as Plan contributions during the period in which the funds are received by the Plan.

Notes Receivable from Participants

Notes receivable from participants represent loans to participants and are measured at the unpaid principal balance plus any accrued and unpaid interest. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -
Continued

Administrative Expenses

The Company provides certain administrative and accounting services to the Plan at no cost and also pays certain other administrative expenses on behalf of the Plan and is not reimbursed by the Plan. Certain administrative expenses, including record keeping fees, have been paid by the Plan.

Transfers

As employees of the Company move between employment positions within the Company, they may become participants in another Company-sponsored retirement plan. Corresponding transfers of funds between plans are reflected as transfers in the accompanying financial statements.

Uncertain Tax Positions

The Plan accounts for uncertainty in income taxes in accordance with the provisions of the Accounting Standards Codification (ASC). This guidance requires entities to assess their uncertain tax positions for the likelihood that they would be overturned upon Internal Revenue Service (IRS) examination. In accordance with this guidance, the Plan has determined that it does not have any positions at December 31, 2011, that it would be unable to substantiate.

The Plan has filed Form 5500, which is the annual return for employee benefit plans, for all years through December 31, 2010. Years December 31, 2008, and subsequent remain subject to audit by taxing authorities.

Subsequent Events

Management has evaluated subsequent events and their potential effects on these financial statements through the report date, which is the date the financial statements were available to be issued.

NOTE C - INVESTMENT INFORMATION

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010, and net depreciation in fair value of investments and interest and dividends for the year ended December 31, 2011, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Principal Life Insurance Company (the custodian).

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

GREDE HOLDINGS LLC 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE D - FAIR VALUE MEASUREMENTS - Continued

- Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust: Valued based on the fair value of the underlying investments as described in Note B.

Pooled separate accounts: The underlying investments consist of mutual funds; domestic and international stocks; fixed securities, such as asset-backed securities, residential mortgage-backed securities, commercial mortgage-backed securities and corporate bonds; and commercial real estate, including mortgage loans, which are backed by the associated properties. Mutual funds are valued at the net asset value of shares held by the Plan at year end. Common stock and fixed securities are valued at the closing price reported on the active market on which the individual securities are traded. Real estate is valued based on certified appraisals updated daily for changes in factors, such as occupancy levels, lease rates, overall market conditions and capital improvements. Mortgage loans are valued based on estimated market interest rates for loans of comparable quality and maturity giving consideration to the value of the underlying collateral.

GREDE HOLDINGS LLC 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Life insurance: Valued at cash surrender value, which approximates fair value.

Guaranteed interest contract: Valued at the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. Fair value represents contract value adjusted to reflect current market interest rates only to the extent such markets rates exceed crediting rates.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

A small portion of the Plan's financial instruments, including Company and participant contributions receivable and notes receivable from participants, are not measured at fair value on a recurring basis. However, these instruments are carried at amounts that approximate fair value due to their liquid, or short-term, nature.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2011:

	Owned Real Estate	Life Insurance	Guaranteed Interest Contracts
Beginning balance - January 1, 2011	\$ 463,185	\$ 127,181	\$ -
Realized gains	10,968	-	12,066
Unrealized gains relating to instruments still held at the reporting date	71,659	3,620	-

Sales	<u>(182,220)</u>	<u>-</u>	<u>(131,694)</u>
Ending balance - December 31, 2011	<u><u>\$ 977,612</u></u>	<u><u>\$ 130,801</u></u>	<u><u>\$ 431,079</u></u>

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The significance of transfers between levels was evaluated based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2011, there were no significant transfers in or out of Levels 1, 2 or 3.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE F - TAX STATUS

The Plan obtained its latest determination letter on April 26, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE G - RELATED PARTY TRANSACTIONS

Certain Plan investments are units of pooled separate accounts managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian (see Note C) as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan for other services amounted to \$134,915 for the year ended December 31, 2011.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - PROHIBITED TRANSACTIONS

During 2011, the Company determined that certain amounts of participant deferrals were not remitted to the Plan in accordance with the Department of Labor's (DOL) rules regarding the timeliness of depositing such employee contributions, representing a nonexempt loan of funds to the Company from the Plan. During 2011, the Company took remedial actions under the DOL's Self-Correction Program to correct the matter and remit lost earnings on delinquent contributions. The lost earnings were not material to the financial statements.

Effective October 1, 2012, the Plan was amended to make all Company-matching contributions for Glass, Molders, Potters, Plastics & Allied Workers bargaining employees at the Bessemer location 100 percent vested when made.
