October 9, 2012

To the Plan Administrator of
Global Flow Technologies, Inc. 401(k) Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Global Flow Technologies, Inc. 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule H, line 4a - schedule of delinquent participant contributions for the year ended December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Delaware Charter Guarantee & Trust Company, conducting business under the trade name Principal Trust Company, and Principal Life Insurance Company, the trustee and custodian of the Plan, respectively, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the trustee and custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee and custodian is complete and accurate.

As further discussed in Note 1, the Plan was merged into the Forum Energy Technologies, Inc. 401(k) Plan effective at the close of business December 31, 2011.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As discussed in Note 3 to the financial statements, a certain error resulting in an understatement of previously reported employer contributions receivable as of December 31, 2010 was discovered during 2011. Accordingly, the 2010 financial statements have been restated and an adjustment has been made to net assets available for benefits as of January 1, 2011 to correct the error.

GLOBAL FLOW TECHNOLOGIES, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Global Flow Technologies, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all non-bargaining employees of Global Flow Technologies, Inc. and all of its U.S. Affiliates (“Global Flow”) through March 31, 2011 and Forum Energy Technologies, Inc. (“Forum”) after March 31, 2011 (collectively, the “Company”). Effective April 1, 2011, Global Flow transferred sponsorship of the Plan to Forum, and the Benefits Committee of Forum became the Plan administrator.

Through March 31, 2011, employees were eligible to participate in the Plan on the earliest quarterly date of the Plan year following the completion of three months of service. Effective April 1, 2011, the Plan was amended to allow eligible employees to participate in the Plan on the first day of the month following the completion of thirty days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Merger

In December 2011, an agreement of merger was signed to merge the Plan into the Forum Energy Technologies, Inc. 401(k) Plan (the “Forum Plan”). Participants in the Plan became participants in the Forum Plan on January 1, 2012. Net assets of the Plan were effectively transferred into the Forum Plan on December 31, 2011, and are shown as transfer to Forum Plan in the statement of changes in net assets available for benefits.

Contributions

Through March 31, 2011, participants could elect to make salary deferral contributions to the Plan limited to 75% of the participant’s eligible compensation, subject to federal statutory limitations. The Company made matching contributions equal to 50% of each participant’s contribution up to 6% of the participant’s eligible compensation. The Company could also make an annual discretionary contribution. Participants were eligible to receive the discretionary contribution upon the completion of 1,000 hours of service in a Plan year and employment at the end of the Plan year, unless termination was the result of retirement, disability, or death.

Effective April 1, 2011, the Plan was amended to provide participants the election to make Roth contributions to the Plan, in addition to salary deferral contributions. Total salary deferral and Roth contributions are limited to 75% of the participant’s eligible compensation, subject to federal statutory limitations. Roth contributions are recorded in a separate Roth account in the participant’s account. The Company’s matching contribution was amended to equal 100% of the first 3% of the participant’s salary deferral and Roth contributions plus 50% of the next 2% of the participant’s salary deferrals and Roth contributions, up to 4% of the participant’s eligible compensation. A participant’s eligibility to receive the Company’s annual discretionary contribution was amended to only require employment at the end of the Plan year, unless termination is the result of retirement, disability, or death. For 2011, there was no discretionary contribution.

GLOBAL FLOW TECHNOLOGIES, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2011

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

The Plan is participant directed. Participants may change their contribution rates on the first day of each month and investment options at any time. Employees, regardless of participation in the Plan, may make rollover contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on a participant's eligible compensation or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are at all times fully vested in their deferral and rollover contributions and the appreciation or depreciation thereon. Vesting in the Company's contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant must complete 1,000 hours of service during a Plan year to qualify for a year of service and count toward vesting. Participants are 40% vested after two years of service and vest an additional 20% each year, becoming 100% vested after five years of service.

Forfeited Accounts

Forfeitures of nonvested employer contributions shall be used to: (1) reinstate the nonvested account of a rehired employee, in accordance with the Plan agreement, (2) pay the Plan's administrative expenses, and (3) reduce employer contributions. The forfeitures balance at December 31, 2010 was \$42,973. Forfeitures of \$49 and \$17,426 were used in 2011 to pay administrative expenses and reduce employer contributions, respectively. No forfeitures were used to reinstate a rehired employee's participant account in 2011. Unused forfeitures of \$29,601 were included in the net assets transferred to the Forum Plan effective December 31, 2011.

Payment of Benefits

A participant shall become immediately vested upon death, retirement, or disability. Normal retirement age under the Plan is 65. Participants who have attained age 59 ½ and those with rollover contributions are limited to two distributions, annually, equivalent to their vested balances and rollover account balances, respectively. Hardship distributions are allowed in the Plan. Participants may receive their distributions in a lump-sum or an annuity payment.

Notes Receivable from Participants

Plan participants may borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance in the Plan. Notes receivable are repaid in level installments through payroll deductions for periods ranging up to five years. The notes bear interest at prime plus 2% and are secured by the participant's vested account to the extent of the principal amount of the note plus accrued interest.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their employer contributions and related earnings.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Accounting principles generally accepted in the United States of America require investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount the participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts through a common collective trust. The statement of net assets available for benefits presents the fair value of all investments, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Most administrative expenses of the Plan are paid by the Company.

GLOBAL FLOW TECHNOLOGIES, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2011

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Federal Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated July 13, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

During the year ended December 31, 2011, two operational errors occurred with respect to the Plan: (1) incorrect compensation was used in calculating salary deferral and Roth contributions and (2) Company matching contributions were not calculated and remitted on all salary deferral and Roth contributions. Although the effect of these operational errors is not material to the financial statements, if the errors are not corrected, they could jeopardize the Plan's tax-exempt status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 3 - PRIOR PERIOD ADJUSTMENT

In 2010, the Plan inadvertently did not record a receivable for the 2010 Company annual discretionary contribution for \$350,469. Accordingly, the accompanying 2010 statement of net assets available for benefits has been restated and the beginning of year net assets available for benefits shown on the 2011 statement of changes in net assets available for benefits has been adjusted to correct for this error. The effect of the restatement and corrective adjustment was to increase both employer contributions receivable and net assets available for benefits at December 31, 2010 by \$350,469.

*Includes an adjustment from fair value to contract value as of December 31, 2010 of \$(81,944).

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

Pooled Separate Accounts	\$(223,735)
Mutual Funds	<u>67,630</u>
	<u>\$(156,105)</u>

NOTE 5 - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

GLOBAL FLOW TECHNOLOGIES, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2011

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Common Collective Trust Fund: Composed of units of conventional and synthetic investment contracts and a government short-term investment fund. The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate at year-end. The fair value of the individual assets of the synthetic investment contracts is based on market values obtained from independent pricing services, quotes by dealers in the securities, or by a methodology approved by the trustee. The government short-term investment fund is a collective investment fund that invests in high quality fixed income securities issued by the U.S. government. The fair value of these securities is based on market values obtained from independent pricing services. The investment fund seeks to maintain a stable NAV of \$1.

Pooled Separate Accounts: Valued at the number of the Plan's units of participation multiplied by the unit value for the underlying investments. Unit value is based on the market value of the underlying investments less a management fee divided by the total number of outstanding units for the underlying investments. The underlying investments are either a single mutual fund or a portfolio of domestic or international stocks. These investments are valued by the sponsor of the pooled separate accounts based primarily on observable market data. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at the reported unit value with no advance notice requirement. The Plan has no unfunded commitments and no contractual obligations to further invest in the pooled separate accounts.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities.

NOTE 6 - INFORMATION CERTIFIED BY THE TRUSTEE AND CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee & Trust Company, conducting business under the trade name Principal Trust Company, and Principal Life Insurance Company, the trustee and custodian of the Plan, respectively, have certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statement of net assets available for benefits as of December 31, 2011 and 2010, and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are in pooled separate accounts managed by Principal Life Insurance Company, the custodian of the Plan. Notes receivable from participants also qualify as party-in-interest transactions. These party-in-interest transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 8 - NONEXEMPT TRANSACTIONS

During 2010, there were unintentional delays by the Company in submitting participant contributions in the aggregate amount of \$2,476. Lost earnings were replaced during 2011.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2010 to the Form 5500 (there were no differences at December 31, 2011):

Net assets available for benefits per the financial statements	\$15,189,358
Prior period adjustment (Note 3)	(350,469)
Adjustment from contract value to fair value for interest in common collective trust relating to fully benefit-responsive investment contracts	<u>81,944</u>
Net assets available for benefits per the Form 5500	<u>\$14,920,833</u>

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2011:

Change in net assets available for benefits (before the transfer to the Forum Plan) per the financial statements	\$229,293
Plus: Prior period adjustment (Note 3)	350,469
Less: Adjustment from contract value to fair value for interest in common collective trust relating to fully benefit-responsive investment contracts for 2010	<u>(81,944)</u>
Change in net assets available for benefits per the Form 5500	<u>\$497,818</u>

NOTE 11 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 9, 2012, the date the financial statements were available to be issued.
