NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)
DECEMBER 31, 2011 AND 2010**

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Garvey Companies' Savings and Retirement (The Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a retirement plan with a salary reduction (Sec. 401K) feature covering all full time employees of C-Graphic L.L.C. d/b/a Global Fulfillment Services, United General Graphics L.L.C., Tru - Line Lithographing, Inc., and Ed Garvey and Company (all of which are under common control). Participants must be age eighteen or older to participate in the Plan. There is a three month service requirement for elective deferrals and a one year service requirement for all other contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee of the plan is Fidelity Management Trust Company.

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. In addition, the Company may make matching and/or company-discretionary contributions for a plan year. Matching contributions, if any, are allocated in proportion to the amount of each participant's deferral. Company-discretionary contributions are allocated among participants in the ratio that compensation of each participant bears to the total compensation of all participants. The Company has no obligation to make matching or company-discretionary contributions in any year. Effective February 1, 2008, all new employees are automatically added to the plan with a 3% contribution rate. If a new employee does not wish to be a member of the plan, the employee must take the required steps with the Trustee to opt out.

Participant Accounts

Each participant's account is funded with the participant's contribution and allocations of the Company's contributions, if any, and Plan earnings or losses. Allocations are based on participant account balances, as defined by the Plan. The participant is entitled to the vested portion of his or her account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Loans to Participants'

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000, or 50% of their account balance, whichever is lower. The maximum term of a loan is ten years for a primary residence, and five years for all other loans. The loans are secured by the balance in the participants' account and bear interest at prevailing rates as determined by the Plan administrator. Principal and interest are to be repaid through payroll deductions.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Investment Options

Plan investments are participant directed. Upon enrollment in the Plan, a participant may direct contributions in any of the then available investment fund options. Participants may change or transfer their investment options at any time via telephone or a secure internet website.

Payment of Benefits and Other Withdrawals

Upon termination of service, a participant or beneficiary shall be entitled to his/her vested benefit. Distributions may be made in a lump sum payment, a series of installments, or partial payment. A participant may also elect to leave the balance in their account for withdrawal at a later point in time. The Plan's minimum automatic distribution of a terminated participant's account is \$1,000. Prior to termination, a withdrawal would be available based financial hardship.

Forfeitures

Forfeitures are retained by the Plan and will first be used to pay administrative expenses. Any remaining amounts will be used to reduce any company contributions payable under the Plan. The balance in the forfeiture account was \$713 at December 31, 2011 and \$399 at December 31, 2010.

Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan follows the modified cash basis of accounting, which is the cash basis of accounting except for investments, which are adjusted to fair value. The modified cash basis of accounting is a comprehensive basis of accounting other than the accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments in the plan are stated at fair value (See Note 4). Purchases and sales of securities are recorded on a trade-date basis. Net appreciation / (depreciation) includes the plan's realized gains and losses on investments bought and sold as well as held at year end.

**GARVEY COMPANIES' SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)
DECEMBER 31, 2011 AND 2010**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

Participant loans, which are classified as receivables, are stated at the unpaid principal balance.

Payments of Benefits

Benefits and distributions are recorded when paid.

Plan Operating Expenses

Expenses of maintaining the plan are paid by the company. Expenses relating to the purchase or sale of investments are included in the cost or deducted from the proceeds, respectively. Certain participant services and recordkeeping fees are charged to the participants' account.

Recent Accounting Pronouncements

In May 2011, new accounting guidance on fair value measurements was issued which requires updates to the fair value measurement disclosure to conform GAAP and International Financial Reporting Standards, effective for interim and annual periods beginning after December 15, 2011. The adoption of the new guidance will have no effect on the Plan's financial statements.

NOTE 3 – INVESTMENT APPRECIATION / DEPRECIATION

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year, along with dividends and interest appreciated / (depreciated) as follows:

	December 31,	
	2011	2010
Registered Investment Companies	\$ (294,046)	\$ 1,038,527
Common/Collective Trusts	16,284	19,197
	<u>\$ (277,762)</u>	<u>\$ 1,057,724</u>

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value of an asset is defined as the price at which the asset could be sold in an orderly transaction between unrelated, knowledgeable and willing participants at the measurement date. Assets recorded at fair value are measured using a three tier framework value hierarchy, which prioritizes the inputs by giving the highest priority to unadjusted quoted prices in active markets for (level 1 measurement) and lowest priority to measurements involving significant unobservable inputs (level 3 measurements).

The fair value hierarchy and inputs to valuation techniques are summarized as follows:

Level 1: Quoted prices for in active markets for identical securities.

Level 2: Other significant observable inputs to include:

- A. Quoted prices for similar assets or liabilities in active markets;
- B. Quoted prices for identical or similar assets in inactive markets;
- C. Inputs other than quoted prices that are observable for the securities;
- D. inputs that are derived principally from or corroborated by observable market data or by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Unobservable inputs for the securities, including situations where there is little, if any, market activity for the securities.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2011 and 2010

Registered Investment Company: Valued at the net asset value (NAV) of shares held by the plan at year end (Level 1 inputs). The investment objectives and underlying investments of the registered investment companies vary.

Stable Value Fund: The fair values of participation units in the stable value trust are based on the net asset values of the fund, after adjustments to reflect all fund investments at fair value, including direct interests in fully benefit responsive contracts, as reported by the fund managers of the trust (Level 2 inputs). The fund is primarily invested in cash, insurance contracts and synthetic instrument contracts.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no transfers between fair value levels and therefore no disclosure has been made.

NOTE 4 - FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair values as of December 31, 2011 and 2010:

NOTE 5 – FIDELITY ADVISOR STABLE VALUE PORTFOLIO CLASS II

The Fidelity Advisor Stable Value Portfolio is a commingled pool managed by the Fidelity Management Trust Co. The Fund is considered a fully benefit responsive investment according to the AICPA Statement of Position 94-4. The portfolio strives to preserve principal investments while earning interest income and trying to maintain a stable \$1 unit price. The pool invests in investment contracts issued by major insurance companies and other approved financial institutions, and in certain types of fixed income securities. A small portion of the pool is invested in a money market fund to provide daily liquidity.

The contract is included in the financial statements at contract value as reported to the plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As described in Note 4, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$1,312,316 and \$1,119,046, respectively. The crediting interest rate is based on a formula agreed upon by the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

NOTE 5 - FIDELITY ADVISOR STABLE VALUE PORTFOLIO CLASS II (continued)

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plans prohibition on competing investment options or deletion or equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which could limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	December 31,	
	2011	2010
Based on actual earnings	1.74	2.37
Based on interest rate credited to participants	1.26	1.48

NOTE 6 - TAX CONSIDERATIONS

Income Tax Status of the Plan

The IRS has determined and informed the Plan sponsor by a letter dated November 25, 1997, that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code.

Evaluation of Tax Position -

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that "more likely than not" would not be sustained in a tax examination, with a tax examination being presumed to occur. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 7 - DOL LIMITED-SCOPE AUDIT

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Act of 1974, the following information was certified as complete and accurate by the trustee Fidelity Management Trust Company for the years ended December 31, 2011 and 2010.

- Schedule of reportable transactions (when applicable)

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and amounts reported in the statement of net assets available for benefits.

NOTE 10 - RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.
