INDEPENDENT AUDITORS' REPORT

ProHEALTH Corp. 401(k) Savings Plan :

We were engaged to audit the accompanying statements of net assets available for benefits of ProHEALTH Corp. 401(k) Savings Plan (the "Plan") as of December 31, 2011 and 2010, the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) - December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by AXA Equitable Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PROHEALTH CORP. 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

Background - The ProHEALTH Corp. 401(k) Savings Plan (the "Plan"), is a defined contribution plan as described in the Internal Revenue Code ("IRC") section 401(k) sponsored and administered by ProHEALTH Corp. (the "Company"). The Plan was adopted on January 1, 1998 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The investment custodian, which also provides recordkeeping services, is AXA Equitable Life Insurance Company ("AXA Equitable") and the third-party administrator is The Heritage Group, LLC. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

Eligibility - The Plan is available to all employees of the Company, as well as the following related companies: ProHEALTH Care Associates, LLP, ProHEALTH Ambulatory Surgery Center, Inc., and Mobile Medical Services, P.C., excluding collective bargaining employees and leased employees, who have attained age 21 and completed six months of service. Eligibility credit may be given when an established medical practice joins the Company. An employee may elect participation in the Plan on the first day of the month following completion of such eligibility requirements.

Contributions and Vesting - Participants in the Plan may make regular 401(k) deferral contributions, specified as a percentage of their eligible compensation or a dollar amount, on a pre-tax basis. In addition, Plan participants may make Roth 401(k) deferral contributions, specified as a percentage of their eligible compensation or a dollar amount. The Plan allows for such combined contributions up to 100 percent of eligible compensation, subject to Section 401(k) maximum limitations (\$16,500 for the year ended December 31, 2011). Additionally, those participants who are age 50 or above may make catch-up contributions of up to \$5,500.

An eligible employee may make a transfer to the Plan of a benefit from a qualified retirement plan of another employer, referred to as rollover contributions, with certain restrictions.

Contributions from participants consisted of the following during 2011:

Regular 401(k) contributions (including catch-up)	\$ 3,575,522
Roth 401(k) contributions	70,898
Rollover contributions	761,043
Total	<u>\$ 4,407,463</u>

Participants are fully and immediately vested in their own contributions and earnings thereon.

1. PLAN DESCRIPTION (continued)

Distributions to Participants - Distributions to participants are available upon the following events: retirement, termination of employment, the attainment of age 59 1/2, or death. A participant's benefit, consisting of his/her entire account balance, is paid in the form of a single lump sum payment or direct rollover to an individual retirement account or another retirement plan. Payment shall be made as soon as administratively feasible following the event, provided, however, that the participant's consent is obtained for distributions of amounts in excess of \$5,000. A participant with an account balance in excess of \$5,000 may elect to defer payment until minimum distribution rules apply under the IRC. Participant account balances of less than \$1,000 will be paid automatically in a lump sum payment.

The Plan also provides for hardship withdrawals to participants meeting certain requirements as described in the Plan agreement. Upon written request, participants may withdraw all or a portion of their rollover contributions.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25 percent to 10.25 percent per annum, which is commensurate with local prevailing rates in effect at the times the loans commenced, as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions over periods of 1 to 5 years. The repayment period may be extended for loan proceeds used for the purchase of a primary residence.

Administrative Expenses - Certain Plan expenses are deducted from participant accounts or investment income. Administrative costs paid by the Plan in 2011 consist of asset-based fees and benefit payment and participant loan transaction fees charged by the custodian. The Company pays the remainder of administrative costs on behalf of the Plan. In accordance with Plan provisions, the Company may, at any time, elect to have all of such expenses paid by the Plan.

Termination - The Company intends to continue the Plan indefinitely, but reserves the right to modify or discontinue it at its discretion, subject to applicable provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The Plan's policy is to prepare financial statements on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the accompanying financial statements and notes. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net investment gain (loss) on pooled separate accounts represents the earnings (loss) on the underlying investments in such accounts, in which dividends are recorded on the ex-dividend date, and net appreciation (depreciation) includes the accounts' gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties - The Plan provides for various investment options, including pooled separate investment accounts with underlying investments in any combination of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to interest rate, market and credit risk. As a result of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent Events - The plan has evaluated subsequent events through October 5, 2012, the date the financial statements were available to be issued.

3. INCOME TAX STATUS

In March 2008, the Internal Revenue Service stated in an opinion letter that the prototype plan adopted by the Plan administrator was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and accordingly, they believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that would likely not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2005.

4. INVESTMENTS

4. INVESTMENTS (continued)

The following Plan receivable, which is classified as an investment for purposes of the Form 5500, was also obtained from data that has been prepared and certified to as complete and accurate by the trustee:

	December 31, 2011	December 31, 2010
Notes receivable from participants	\$ <u>378,107</u>	\$ <u>190,713</u>

The following information included in the accompanying statement of net assets available for benefits was obtained from data that has been prepared and certified to as complete and accurate by AXA Equitable:

	Year Ended December 31, 2011
Interest on investment in insurance company general account	\$ <u>41,842</u>
Net investment loss from pooled separate accounts	\$ <u>(549,514)</u>
<u>Other interest income:</u>	
Interest income on notes receivable from participants	\$ <u>10,972</u>

AXA Equitable Guaranteed Interest Option - Contributions to the AXA Equitable Guaranteed Interest Option ("AXA GIO") become part of AXA Equitable's general account. At the beginning of each quarter, AXA Equitable will set a minimum guaranteed interest rate for that quarter. The Guaranteed Interest Option rate as of December 31, 2011 was 2.6 percent and the contract minimum rate in effect was 2.5 percent. The AXA GIO is not considered fully benefit-responsive and accordingly, fair value, as reported to the Plan by AXA Equitable, is the relevant measurement attribute for that portion of the net assets available for benefits attributable to this investment. Transfer restrictions apply, such that the maximum amount that participants may transfer from the AXA GIO during a calendar quarter to AXA Equitable pooled separate accounts is the greater of 25 percent of their investment in the AXA GIO or the total amount they transferred out of the AXA GIO during the preceding 12 months.

Pooled Separate Accounts - These funds are maintained in accounts separate from the insurance company general accounts. They offer various investment options ranging from conservative funds which principally seek to preserve capital and provide fixed income to aggressive funds invested principally in common stocks which seek growth of capital over the long term. Included in the pooled separate accounts held by AXA Equitable are Target Allocation accounts with varied target retirement dates.

5. FAIR VALUE MEASUREMENTS

The Financial Statement Accounting Board Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurements and Disclosures*, establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. Changes in methodologies used at December 31, 2011 as compared to December 31, 2010 were as follows: As of December 31, 2010 pooled separate accounts were classified as either level 1 or 2 on a pro-rata basis according to the classification of the underlying investments in the accounts' annual financial statements; however, as of the beginning of the year ended December 31, 2011, the methodology was changed to reflect investments in pooled separate accounts as level 2, which represented the lowest level for these investments as a whole based on the related accounts' 2011 annual financial statements.

5. FAIR VALUE MEASUREMENTS (continued)

Value of interest in insurance company general account - The fair value of the AXA GIO, which is a general obligation of AXA Equitable, is equal to the contributions and any transfers in, plus interest, less any transfers out, withdrawals, and any applicable withdrawal fees. The Plan's investment in the AXA GIO is classified as Level 2 in the fair value hierarchy, based on inputs other than quoted prices that are observable for the asset. As per information provided by AXA Equitable, the account values as of December 31, 2011 and 2010 of \$2,042,490 and \$949,884, respectively, were also equal to the contract cash surrender values as of such dates.

Pooled separate accounts - Investments in pooled separate accounts are stated at fair value, which have been determined based on the unit values of the accounts. Unit values are determined by AXA by dividing the account's net assets at fair value by its units outstanding at the valuation date. When taking a distribution or a loan in accordance with Plan provisions, or when making fund transfers, participants may redeem their interest in the pooled separate accounts at unit value with no waiting period or other redemption restrictions. Level 2 is appropriate for pooled separate accounts because the valuations are based primarily on quoted prices for similar assets in active markets.

The investment strategies of each significant class of pooled separate accounts are summarized as follows:

<u>Class</u>	<u>Investment Strategy</u>
Domestic and International stock	Pooled separate accounts investing primarily in domestic and international stocks seek to achieve long-term capital appreciation and outperform the related market benchmarks for the classification of stocks held.
Balanced	Pooled separate accounts classified as balanced seek to achieve long-term growth of capital with an emphasis on risk-adjusted returns and lower volatility relative to traditional equity funds and equity market indexes.
Bond	Pooled separate accounts investing primarily in bonds seek to earn high current income, with long-term capital appreciation as a secondary objective.
Conservative	The pooled separate account classified as conservative is the EQ/Money Market Portfolio, which seeks to obtain a high level of current income, preserve its assets, and maintain liquidity.
Specialty	The pooled separate accounts classified as specialty include the MFS Utilities Series, which focuses on utilities stocks believed to have strong growth prospects, and the Multimanager Technology Portfolio, which seeks long-term growth of capital.

5. FAIR VALUE MEASUREMENTS (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2011 and 2010:
