INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
The General Motors Income Security Plan for Hourly-Rate Employees in the United States
Detroit, Michigan

We have audited the accompanying statements of net assets available for benefits of the General Motors Income Security Plan for Hourly-Rate Employees (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011 in conformity with accounting principles generally accepted in the United States of America.

FOR HOURLY- RATE EMPLOYEES**

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following is a brief description of The General Motors Income Security Plan for Hourly-Rate Employees ("Plan") and provides only general information. The Plan sponsor is General Motors LLC ("GM LLC", "GM" or "Company"), an indirect wholly-owned subsidiary of General Motors Company. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established pursuant to collective bargaining agreements between GM LLC and certain labor unions. The purpose of the Plan is to provide benefits for (i) an eligible employee who is laid off under specified circumstances and conditions, who may withdraw stipulated weekly amounts to supplement state unemployment compensation benefits and (ii) an employee who retires or is terminated as defined in the Plan. Hourly employees are eligible to participate in the Plan upon attainment of seniority. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), and the Internal Revenue Code ("IRC"), as amended.

Effective January 25, 2012, the Employee Benefit Plans Committee ("EBPC") was appointed the named fiduciary for general administration. The EBPC succeeded the GM Benefit Plans Administration Committee. State Street Bank and Trust Company ("State Street" or "Trustee") is the Trustee of the General Motors Savings Plans Master Trust ("Master Trust"). General Motors Investment Management Corporation ("GMIMCo") is the named fiduciary for purposes of investment of Plan assets. Fidelity Investments Institutional Operations Company serves as participant recordkeeper and is a wholly owned subsidiary of FMR Corp. ("Fidelity"). Certain affiliates of State Street and Fidelity serve as manager and custodian for various Plan investments.

Promark Trust Bank, N.A. ("PTB"), a non-depository trust bank then registered with the Office of the Comptroller of the Currency, managed the Promark Income Fund ("PIF"). Effective as of the close of business on March 31, 2011, GMIMCo replaced PTB as manager of the PIF and State Street succeeded PTB as the trustee of the trust that held the PIF. Accordingly, as of such date the PIF was no longer "bank-maintained." The PIF changed its name to Income Fund ("IF") effective July 18, 2011. GMIMCo and PTB are/were indirect wholly-owned subsidiaries of General Motors Company.

Contributions and Vesting

GM's contributions to the Plan are based upon negotiated rates for each compensated hour, while employee contributions, provided such contributions are permitted under the respective negotiated agreements, are based upon employee election and can range from 1% to 5% of an employee's base hourly rate (as adjusted for cost of living allowance) times the number of weekly compensated hours. Employer and employee contributions to the Plan vest immediately. Contributions are subject to certain IRC limitations.

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan (continued)

Plan Investments

Assets of the Plan are maintained in the Master Trust. The Plan document provides for the types of investments that can be held. All investments are non-participant directed. As of December 31, 2011 and 2010, all assets of the Plan within the Master Trust were invested in the IF.

Participant Withdrawals

An employee who is eligible under the Plan may make withdrawals up to the amount credited to the employee's account, for each week, as defined in the Plan, during which the employee is laid off. In addition, an employee's account balance is payable in a lump sum, upon retirement, termination of employment or death of the employee. Participant loans are not permitted.

Plan Administration

GM pays certain costs of Plan administration and such costs are not reflected in the financial statements.

Note 2. Summary of Significant Accounting Policies

The significant accounting policies followed in the preparation of the accompanying financial statements are as follows:

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Distributions to participants are recorded when paid.

FOR HOURLY-RATE EMPLOYEES**

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan and Master Trust utilize various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the financial statements.

Investment Valuation

The investments held by the Master Trust are stated at fair value, except for the IF which is recorded at fair value and adjusted to contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair Value Hierarchy

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* ("ASC 820") establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below.

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The Master Trust's policy is to transfer investments between the levels of the fair value hierarchy at the beginning of the year based upon changes to observable inputs that are significant to the overall fair value measurements.

**GENERAL MOTORS INCOME SECURITY PLAN
FOR HOURLY-RATE EMPLOYEES**

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (continued)

Recently Adopted Accounting Standards

The Plan adopted the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2010-06, *Fair Value Measurements and Disclosures* ("ASU 2010-06") related to the disclosure about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. This guidance was effective for fiscal years beginning after December 15, 2010 and its adoption did not have an effect on the Plan's financial statements.

New Accounting Standards

In May 2011, the FASB issued "ASU" 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). This guidance amends ASC 820 and provides consistency between U.S. GAAP and International Financial Reporting Standards regarding the definition of fair value and results in common fair value measurements and disclosure requirements. Certain of the amendments clarify the intent about the application of existing fair value measurement requirements while other provisions change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. ASU 2011-04 is effective for reporting periods beginning after December 15, 2011 and the guidance must be applied prospectively. The effect of adopting ASU 2011-04 on the Plan's financial statements is being evaluated.

Note 3. Investment in the Master Trust

Master Trust

All of the investments in the Plan are held in the Master Trust. The Master Trust was established pursuant to a trust agreement with State Street in order to permit the commingling of trust assets of multiple employee benefit plans for investment and administrative purposes.

In addition to the Plan, the employee benefit plans participating in the Master Trust as of December 31, 2011 consisted of the following:

- General Motors Retirement Savings Plan for Salaried Employees in the United States and
- The General Motors Personal Savings Plan for Hourly-Rate Employees in the United States.

**GENERAL MOTORS INCOME SECURITY PLAN
FOR HOURLY-RATE EMPLOYEES**

NOTES TO FINANCIAL STATEMENTS

Note 3. Investment in the Master Trust (continued)

Each participating employee benefit plan has a divided interest in the assets and changes therein of each of the Master Trust investment options in which the respective plan participates. As of December 31, 2011 and 2010, the Plan had approximately a 0.1% interest in the Master Trust. The net investment income (loss) of the Master Trust investment funds is allocated by the Trustee to each participating plan based on that plan's interest in each investment fund, as compared with the total interest of all the participating plans in each investment fund. Security transactions are recorded on a trade-date basis. Investment income (loss) is recognized as earned based on the terms of the investments and the periods during which the investments are held by the Master Trust.

The net assets available for benefits of the Master Trust at December 31, 2011 and 2010 were as follows (\$ in thousands):

NOTES TO FINANCIAL STATEMENTS

Note 3. Investment in the Master Trust (continued)

All Level 1 investments are mutual funds that were traded in active markets and valued at the closing prices on the last reported business day. Investments categorized as Level 2 represent holdings of common collective trusts and commingled pools. These fund investments were valued using the net asset value (or its equivalent) determined by the respective investment manager based on the fair values of the underlying investments. Under procedures prescribed by the funds which make up each Plan investment option, periodic reviews of the valuation methodology used by each manager are conducted to ascertain that they utilize readily available market values and otherwise follow fair value procedures that the managers reasonably believe are consistent with those set forth in the funds' own valuation policies and procedures in determining net asset value. None of the funds held by the Master Trust have redemption restrictions.

There were no transfers of investments between the fair value hierarchy levels during 2011.

Wrapper Contracts

The Plan invests in the IF through a separate pool within the Master Trust. The IF is a common collective trust fund and invests primarily in U.S. investment grade corporate bonds, U.S. government/agency bonds, mortgage and other asset-backed securities, U.S. below-investment grade corporate bonds, and other fixed income securities, as well as derivative instruments, coupled with negotiated contracts ("Wrappers") issued by three insurance companies (the "Issuers"). The Issuers are ING Life Insurance and Annuity Company, Pacific Life Insurance Company, and Monumental Life Insurance Company. The Plan participates in the IF together with other employee benefit plans sponsored by GM as well as certain unrelated employee benefit plans of other employer sponsors. All plans of an employer that offer the IF as an investment option are referred to as a "Plan Group." Effective March 23, 2011, the only Plan Group participating in the IF was the GM Plan Group.

The Wrappers, as amended in August 2009, contain general obligations of the Issuers to pay under certain circumstances the amount, if any, by which the fair value of certain assets of the IF is less than the IF's contract value, which is the participant's original investment plus accrued interest thereon, based on a rate of return ("Crediting Rate"). The Wrappers enable gains or losses on the wrapped assets to generally be amortized over the duration of the portfolio, thereby smoothing out changes in the IF's income and value with respect to these assets. The GMAM Investment Funds Trust ("GIFT Trust") held the net assets of the IF and the Wrappers throughout 2010. Effective as of the close of business on February 8, 2011, the net assets of the IF and the Wrappers were transferred from the GIFT Trust to GMAM Trust (collectively referred to herein as "Funds Trust").

The Wrappers provide that the Crediting Rate will not be less than zero. The Crediting Rate is typically reset quarterly. The IF assets not covered by the Wrappers are generally invested in money market accounts and cash equivalents to provide necessary liquidity for participant withdrawals and exchanges. The Crediting Rate is affected by many factors, including market performance of the wrapped investments and purchases and redemptions by participants.

NOTES TO FINANCIAL STATEMENTS

Note 3. Investment in the Master Trust (continued)

The Crediting Rate is determined based upon factors such as the rate of return set by formula for the relevant periods on the wrapped assets by the Issuers and confirmed by the Funds Trust, the anticipated return of the IF's other assets for the relevant time period and anticipated liquidity needs.

The average annual yields for 2011 and 2010 were as follows:

	Year Ended	
	December 31,	
	<u>2011</u>	<u>2010</u>
Average actual portfolio yields	3.29%	4.58%
Average Crediting Rates	3.40%	3.61%

The Crediting Rates as of December 31, 2011 and 2010 were 3.25% and 3.50%, respectively.

In the event of the insolvency of one of the Issuers, or the non-payment on, or the termination of, a Wrapper by the respective Issuer for reasons specified in the Wrapper, GM, GMIMCo, PTB, the Funds Trust, the IF's managers, the Trustee (including the predecessor trustee), and the investment advisors (collectively, the "Fund-Related Parties") are not required to fulfill any of the Issuers' obligations under the Wrappers. The Fund-Related Parties do not guarantee either the units or the underlying assets or any Crediting Rate of return. Participants that invest in the IF bear the risk of this Plan investment option. Units of the IF are not insured by the Federal Deposit Insurance Corporation.

The IF and the supporting Wrappers are designed to pay all participant-initiated transactions at contract value. Participant-initiated transactions are those transactions allowed by the Plan. Typically this would include withdrawals for benefits, loans or transfers to non-competing funds within the Plan.

The Wrappers may limit the ability of participants to transact at contract value upon the occurrence of an employer initiated event ("EIE"), where the cumulative value of net withdrawal activity by all Plans within the affected Plan Group during a defined time period exceeds a specified threshold value of such Plan Group's total investment in the IF. EIEs are determined by relevant Plan Group and include the following:

- Merger, consolidation, sale of assets or other events (e.g., spin-offs or restructurings) within the control of a Plan Group sponsor;
- Certain layoff or early retirement incentive programs of a Plan Group sponsor;
- The filing of a petition in bankruptcy by a Plan Group sponsor;
- An involuntary termination or take over by the Pension Benefit Guaranty Corporation of a Plan Group sponsor's defined benefit pension plans; and
- Elimination of the majority of a Plan Group sponsor's subsidy to its primary post-retirement medical benefits program.

NOTES TO FINANCIAL STATEMENTS

Note 3. Investment in the Master Trust (continued)

The measurement principles for purposes of determining a Plan Group sponsor's net withdrawal threshold following an EIE, are as follows:

- The initial measurement period for 2009 commenced on June 1 and extended for a thirteen month period ending June 30, 2010;
- The measurement period for 2010 and subsequent years is from July 1 to June 30;
- The cumulative value of net withdrawal activity related to a specific Plan Group equals or exceeds: a) 20% of the IF book value for such Plan Group as of May 29, 2009 for the first fiscal period ending June 30, 2010 and b) 18% of the IF book value for such Plan Group as of the prior June 30 for each fiscal year thereafter; and
- Net withdrawals include a specified percentage of full and partial withdrawals and loan draw downs by participants, netted against the full amount of contributions, loan repayments and rollovers into the IF for the respective Plan Group during the twelve months after an EIE. Participant exchanges into and out of the IF are not included in the calculations of net withdrawals.

If the net withdrawal thresholds are exceeded, benefit payments to all participants in the Plan Group would be made at fair value for the remainder of the measurement period. Benefit payments for Plan Groups other than the affected Plan Group would continue to be paid at contract value.

The Issuers have the right to terminate the Wrappers at any time without cause, after which benefit payments would continue to be made to all participants at contract value, subject to the terms of the Wrappers, for a period through a maturity date equal to the duration of the wrapped assets (which may be extended). On the maturity date, the Issuers would pay the amount, if any, by which the contract value exceeded either the fair value of the wrapped assets or the liquidation proceeds from the sale of the wrapped assets, as selected by the Funds Trust.

The Issuers have the right to terminate the Wrappers for cause upon the occurrence of the following events (either with respect to the applicable Plan Group, in the case of the first four events described below, or all Plan Groups in the other cases):

- A participating plan is disqualified by the Internal Revenue Service ("IRS") or is terminated and its assets are distributed to participants;
- A participating plan adds a competing fund to its investment options without the Issuers' approval (subject to a 30 day cure period);
- A participant communication is delivered, other than non-biased factual information regarding investment options or otherwise legally required communications, designed to induce participants to transfer into or out of the fund in a manner that materially and adversely impacts the Issuers;
- A participating plan is amended or its administration altered, thereby effecting a change which the Issuers reasonably determine will materially and adversely impact their obligations under the Wrappers (subject to a 30 day cure period);

NOTES TO FINANCIAL STATEMENTS

Note 3. Investment in the Master Trust (continued)

- The Funds Trust ceases to meet its material obligations under the Wrapper and fails to meet such obligation within 30 days following receipt of notification of the failure;
- The Funds Trust, without the Issuers' consent, attempts to assign its interest in the Wrapper;
- GMIMCo (or predecessor PTB) is terminated as investment manager, and a successor that is reasonably acceptable to the Issuers is not appointed within 30 days from the termination date;
- The Funds Trust changes the investment guidelines without the Issuers' written agreement;
- Investment discretion over the wrapped investments is exercised by or granted to anyone other than GMIMCo (or predecessor PTB) or a sub-advisor appointed by GMIMCo (or predecessor PTB)(subject to a 30 day cure period); and
- The Funds Trust engages in any act of fraud, misrepresentation of material facts or deceit relating to the Wrappers.

In the event of a termination for cause, contract value benefit payments will cease and benefits will be paid at fair value. If benefit payments with respect to one or more but less than all Plan Groups are to be made at fair value, GMIMCo (or predecessor PTB) may deem it appropriate to restructure the Wrappers and/or the IF. It is possible that this could result in a temporary disruption of the IF's normal investment, admission and withdrawal activity.

Ratings of the Issuers could be reduced below their current level. In the event one of the Issuers defaults in the performance of its obligations, circumstances might be such that it would not be feasible to replace the Issuer, and that the other Issuers would thereby be obligated to accept a share of the terminated or defaulting Issuer's obligations, up to certain limits, for a period of up to six months.

Throughout 2011 and through the date of this report, the IF continued to transact at contract value with Plan participants. Plan management believes that it is probable that any event or events which would limit the IF's ability to transact at contract value with Plan participants will not occur. Accordingly, the IF and the Plan's statements of net assets available for benefits are stated at fair value and adjusted to contract value in accordance with U.S. GAAP to reflect the IF's fully benefit responsiveness to conduct transactions with Plan participants at contract value. The Plan's share of the adjustment to contract value appears in the Plan's statements of net assets available for benefits as of December 31, 2011, and 2010.

NOTES TO FINANCIAL STATEMENTS

Note 4. Termination

As described in Note. 8, the Plan was terminated on July 6, 2012.

Note 5. Federal Income Tax Status

By letter dated June 16, 2011, the IRS has determined and informed GM that the Plan is a tax-qualified employee benefit plan, meeting the requirements of Sections 401(a), of the IRC, and the Master Trust established thereunder was determined to be exempt from United States Federal income taxes under Section 501(a) of the IRC. The Plan's management, fiduciary and tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions. There are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to audit for periods prior to the 2008 plan year.

Note 6. Related Party-Transaction

The Plan and Master Trust have certain related-party relationships as described in Note 1 and enter into certain related-party transactions. These generally include investments with State Street, Fidelity, fund managers, GM and its subsidiaries. The fair value of investments held in the Master Trust sponsored by State Street, Fidelity and GMIMCo aggregated \$12.0 billion and \$13.1 billion as of December 31, 2011 and 2010, respectively. Such transactions are within the scope of the investment guidelines and Plan provisions.

On January 25, 2012, the Company and the International Brotherhood of Electrical Workers reached an agreement to cease all contributions effective June 29, 2012 and to terminate the Plan as soon thereafter as reasonably practicable. The Plan was merged into the General Motors Personal Savings Plan for Hourly-Rate Employees in the United States ("PSP") on July 6, 2012 and terminated. All Plan assets representing fully vested participant account balances were transferred to the PSP and aggregated approximately \$10 million.
