Note 1 Description of the Plan

The following description of Jacques Moret, Inc. 401(k) Plan and Trust, ("the Plan"), provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Jacques Moret, Inc. and Affiliates, H. Best Ltd., and SBH Intimates Inc. and Subsidiary (collectively the "Company" or the "Sponsor"), who have 3 months of service, are not covered by a collective bargaining agreement, and who have attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of their eligible compensation, as defined by the Plan, provided such amount will not cause the Plan to exceed certain limitations prescribed by the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch up contributions. Participants who commence employment on or after January 1, 2008 are automatically deemed to have made a salary deferral election of 3% of their compensation, if no affirmative salary deferral election is made. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. These amounts are credited to each participant's rollover contribution account.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's discretionary contributions, Plan earnings and an allocation of administrative expenses. Allocations are based on participants' contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become 100% vested in the Company's discretionary contribution portion of their account and actual earnings thereon upon completion of 3 years of continuous service.

Forfeited Accounts

At December 31, 2011 and 2010 forfeited nonvested accounts totaled $1,170 and -0- dollars respectively. Forfeited accounts will be credited to the employer contribution accounts of the active participants in the ratio that the employer's contribution bears to the total employer's contribution for such Plan year for all active participants.

Investment Options

Upon enrollment in the Plan, participants may direct their elective and employer contributions into various investment options offered by the Plan. The Plan currently offers pooled separate investment accounts and a guaranteed interest account as investment options for participants.

Participants may change their investment options daily.

Note 1 Description of the Plan - Continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. All loans are required to be repaid within 5 years of the loan unless the purpose of the loan is the purchase of a primary residence, subject to approval by the Trustee. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% as of the date of the loan unless otherwise determined by the Plan Trustee. Interest rates range from 4.25% to 9.50% on loans outstanding at December 31, 2011. Principal and interest are paid ratably through weekly payroll deductions.

Plan Expenses

In accordance with the Plan, all administrative expenses may be paid out of the Plan unless paid by the Company. During the years ended December 31, 2011 and 2010, substantially all administrative expenses were paid by the Plan.

Payment of Benefits

On termination of service for any reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his/her account or annual installments over a certain number of years selected by the participant.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Securities are managed in the pooled separate accounts and the guaranteed interest account by ING Life Insurance and Annuity Company.

Note 2 Summary of Significant Accounting Policies - Continued

Valuation of Investments and Income Recognition - Continued

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Payments of Benefits

Benefits are recorded when paid.

Funds held in insurance company general account	$ 32,835
Investments in pooled separate accounts	(441,916)
Net change in fair value	$ (409,081)

Note 4 Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820") provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets or model-derived valuations in which all significant inputs are observable or can be derived principally from, or corroborated with, observable market data.

Level 3: Unobservable inputs are used when little or no market data are available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as considers counterparty credit risk in its assessment of fair value.

Pooled separate accounts are valued using readily available pricing sources for comparable instruments. Shares of pooled separate accounts are reported at the net asset value based upon the fair value of the underlying investments held by the account at year end.

The guaranteed interest contract is valued at fair value by discounting the related cash flows based on current yields of similar investments with comparable durations considering the credit worthiness of the issuer. It is classified within Level 3 of the hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 Fair Value Measurements - Continued

Financial assets carried at fair value at December 31, 2011 are classified in the table below in the three categories described above:

Note 5 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 Tax Status

The Internal Revenue Service has determined, and informed the Company by a letter dated March 10, 2011, that the Plan and the related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

Note 7 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the amounts per Form 5500 for the year ended December 31, 2011:

Net assets available for benefits per the financial statements	$8,966,235
Net assets available for benefits per Form 5500	$8,966,235

Note 8 Information Certified by the Custodian (Unaudited)

On December 31, 2011 and 2010, the Plan's investments were held by ING Life Insurance and Annuity Company. The following is a summary of the Plan's financial information that is included in the financial statements based on the information certified by the Custodian as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

	December 31,	
	2011	2010
Investments at Fair Value:		
Guaranteed interest and pooled separate accounts	$8,809,349	$8,808,306
Notes receivable from participants	228,123	254,646
Investment income (loss)	(409,081)	838,974

Note 9 DOL Limited Scope Audit Requirements

Under 29 CFR 2520.103-8, which interprets and implements Section 103(a)(3)(c) of ERISA, the examination and report of an independent qualified public accountant need not address any statements or information regarding Plan assets held by a bank, similar institution or insurance carrier, which is regulated and supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or insurance carrier in accordance with 29 CFR.2520.103-5.

Note 10 Related Party Transactions

Certain Plan investments are pooled separate investment accounts and a guaranteed interest account managed by the Custodian. Therefore, these transactions qualify as party-in-interest transactions.

Note 11 Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

The financial markets' volatility in 2012 may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2011 may not necessarily be indicative of amounts that could be realized in a current exchange.

Note 12 Subsequent Events

Management has evaluated subsequent events through October 11, 2012 the date on which the financial statements were available for issue. The adoption of this guidance did not materially impact the Plan's financial statements.
