Note 1 – DESCRIPTION OF PLAN

General

The 401(k) Plan for Employees of Utilities & Industries Management Corp. and Affiliates (the "Plan") is a defined contribution plan established January 1, 1985 covering all eligible employees of Utilities & Industries Management Corp. and its affiliates (the Company and Plan Co-Sponsors) including Lee Spring Company LLC.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan document provides for trustees to be appointed by the Company. Currently, TD AMERITRADE Trust Company ("TD AMERITRADE") is the custodian of the Plan.

The following summary of major plan provisions in effect for the Plan provides only general information. Participants should refer to the Plan agreement for more complete information.

Eligibility

Each employee shall be eligible to become a participant at the completion of one year of service, attainment of age 21 and being employed by either Utilities & Industries Management Corp. or the aforementioned affiliates.

Retirement

A participant's normal retirement date shall be the first day of the month coincident with or next following his/her 65th birthday.

A participant can retire at an early retirement date provided he/she has attained age 59-1/2.

Contributions

The employees may make contributions to the Plan in accordance with Internal Revenue Code Section 401(k). These contributions result in a reduced salary for the employees for Federal income tax purposes. In accordance with the Tax Reform Act of 1986, the maximum before-tax amount an employee can contribute under a 401(k) plan for the years ending December 31, 2011 and 2010, respectively, was $16,500. Notwithstanding the above, the contribution allocated to a participants' account for the plan year cannot exceed the lesser of (a) $49,000 for the years ending December 31, 2011 and 2010, respectively, or (b) 75% of the participant's compensation (as defined in the Internal Revenue Service rules) for the plan year. Employees may change the percentage of salary, which they contribute to the Plan not more than four times a year, on a quarterly basis. Employees age 50 or older may elect to defer additional amounts, called "catch-up contributions" to the Plan. The additional amounts may be deferred regardless of any other limitations on the amounts that may be deferred to the Plan. The maximum "catch-up contribution" that can be made in the years ending December 31, 2011 and 2010, respectively, is $5,500.

Note 1 – DESCRIPTION OF PLAN (Continued)

Contributions (Continued)

The Plan contains a provision which requires the Company to make matching contributions to the Plan equal to; (i) 100% of each participant's elective deferral not to exceed 1% of compensation, and (ii) a matching contribution equal to 50% of each participant's elective deferral on the next 2% of compensation. The matching contribution may only be made to those eligible non-union participants who work over 501 hours during the Plan year. The maximum contribution is $4,900 for the years ended December 31, 2011 and 2010, respectively, or 2% of compensation, whichever is less.

Under the terms of the Plan, the Company will make additional contributions to the Plan based on profit sharing formulas, as defined. The contribution may only be made to those eligible non-union participants who have worked 1,000 hours during the Plan year and are still employed on the last day of the Plan year. The maximum contribution is $15,925 for the years ended December 31, 2011 and 2010, respectively, or 6.5% of compensation, whichever is less.

Participant Accounts

Each participant's account is credited with the participant's contribution and the participant's account earnings (losses).

Vesting

Participants are immediately vested in all salary deferral contributions made to their respective accounts plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. A participant will vest 20 percent after each year of credited service beginning after the second year, to be 100 percent vested in the Company's contributions after six years of credited service.

Payment of Benefits

Distributions from the Plan will be made to those participants who retire, die, terminate or become disabled. The value of the participant's distribution will be paid in a single payment or will be used to purchase an annuity. The Plan allows for early withdrawals by participants providing the participant has attained age 59-1/2 or if the participant is able to prove financial hardship as defined in the plan document.

Note 1 – DESCRIPTION OF PLAN (Continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably, not less frequently than quarterly, through payroll deductions.

Forfeited Accounts

Forfeited non-vested accounts totaled $1,085 and $924 at December 31, 2011 and 2010, respectively. Forfeitures by participants who are terminated prior to becoming fully vested are used to reduce future employer contributions or pay administrative expenses of the Plan.

Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the modified cash basis of accounting which is a comprehensive basis of accounting other than generally accepted accounting principles. The Plan's modified cash basis of accounting is essentially an accrual method of accounting, except that interest income is recorded as received.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Interest income is recorded as received. Purchases and sales of securities are recorded on a trade-date basis.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative expenses are paid by the Plan's Co-Sponsors.

Reclassifications

Certain amounts from prior year financial statements have been reclassed to conform to current year presentation.

Note 3 – RISK AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 4 TAX DETERMINATION STATUS

The Plan is approved as qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended, and is exempt from Federal income taxes under Section 501(a) of such Code, pursuant to a determination letter dated September 8, 2010 from the Internal Revenue Service. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The following is the major tax jurisdiction for the Plan and the earliest tax year subject to examination: United States, 2008.

Note 5 – RELATED PARTY TRANSACTIONS

Certain investments are with TD AMERITRADE. TD AMERITRADE is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest.

Note 6 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

At December 31, 2011 and 2010, the Plan's investments were held by the custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with Section 29 CFR 2520.103-8 of ERISA.

Investments representing greater than 5% of the Plan's net assets available for benefits at December 31, 2011 and 2010 are as follows:

TD AMERITRADE Trust Company	2011	2010
Eaton Vance Large Cap Value Fund Class A	$ 575,516	$ 634,221
Franklin Income Fund Class A	298,560	391,655
Growth Fund of America Class R-3	733,843	785,290
Pimco Real Return Class A	861,810	921,200
Oppenheimer Global Fund Class N	330,421	341,125
TD Bank Institutional MMDA	935,449	792,412

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated and appreciated in value by $(109,085) and $310,255, respectively, as follows:

	2011	2010
Registered Investment Companies	$ (112,484)	$ 306,335
Common Collective Trust	3,399	3,920
Net (depreciation) appreciation in Fair Value of Investments	$ (109,085)	$ 310,255

Note 7 – FAIR VALUE MEASUREMENTS

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

- *Money market funds:* Valued at the net asset value ("NAV") of shares held by the Plan at year-end.
- *Registered investment companies*: Valued at the NAV of shares held by the plan at year end.
- *Common collective trust:* Valued using the NAV provided by the administrator of the trust. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding.

Note 7 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 941,563	$ -	$ -	$ 941,563
Registered investment companies	3,376,535	-	-	3,376,535
Common collective trust	-	200,630	-	200,630
	$4,318,098	$ 200,630	$ -	$4,518,728

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 793,292	$ -	$ -	$ 793,292
Registered investment companies	3,563,878	-	-	3,563,878
Common collective trust	-	242,002	-	242,002
	$4,357,170	$ 242,002	$ -	$4,599,172

Note 8 – PLAN TERMINATION

Although they have not expressed any intention to do so, the Plan Co-Sponsors have the right under the Plan to terminate, amend or modify the Plan, subject to the provisions of ERISA.

Note 9 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2005, the Plan began to allow participants to invest in the Morley Stable Value Fund III (the "Fund"). The Fund invests principally in guaranteed investment contracts issued by insurance companies, investment contracts issued by banks, synthetic investment contracts issued by banks, insurance companies and other related securities. These investment contracts are intended to maximize current income consistent with the maintenance of principal while permitting participant-initiated benefit-responsive withdrawals for certain events.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan, is cost plus accrued income minus redemptions. Contract value is the amount participants would receive if they were to initiate permitted withdrawals under the terms of the Plan.

Certain events limit the ability of the Fund to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of the Fund, which causes a withdrawal from an investment contract, may result in a negative market value adjustment with respect to such withdrawals. Such events include, but are not limited to, the following: (1) partial or complete legal termination of the trust, (2) tax disqualification of the trust or a participant, or (3) certain trust amendments if issuers' consent is not obtained. As of December 31, 2011, the occurrence of an event outside the normal operation of the Fund, which would cause a withdrawal from an investment contract, is not considered to be probable.

	2011	2010
Average yields		
Based on actual earnings	2.00%	2.61%
Based on interest rate credited to participants	2.00%	2.59%

Note 10 SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 11, 2012, the date the financial statements were available to be issued and determined that no disclosure is required.
