Participants are vested immediately in their voluntary contributions. Participants become vested in Company contributions over a six year period; 20% after 2 years and an additional 20% for each year of service after 2 years. Forfeitures of nonvested Company contributions are first used to pay plan administrative expense, any remaining are used to reduce the Company match or may be reallocated to participants in the same manner as Company contributions.

Benefits are payable to a participant or the participant's designated beneficiary upon the participant's termination with the Company or disability or death. Payments are made in a lump sum distribution.

The Plan allows any participant to borrow up to 50% of their vested account balance not to exceed \$50,000. The loans are secured by the balance in the participant's account. Interest rates are determined at the time the loan is disbursed at the prime rate. All loans must be repaid within five years unless such loan is for the purchase of a primary residence, in which case the loan must be repaid within ten years. A loan that is in default is considered a distribution and becomes taxable income to the participant. Interest on participant loans is included in investment earnings.

The Company anticipates and believes the Plan will continue without interruption but reserves the right to terminate the Plan at any time. If the Plan is terminated, employees will become 100% vested in all contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment Valuation

Investments are stated at the amounts certified to the Plan administrator by Fidelity Management Trust Company, the Plan's Trustee. The value of Mutual Funds is determined by quoted prices in an active market at the date of the statement of net assets available for plan benefits. The common/collective trust is reported at fair market value based on contractual terms of the underlying contract. See Note 10 for further explanation of investment valuations.

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis method of accounting.

Expenses of the Plan

All general expenses incurred in the administration of the Plan are absorbed by the Plan sponsor, while investment expenses are paid from plan assets.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through September 12, 2012, the date that the financial statements were available for issue.

NOTE 4 - TAX STATUS OF PLAN

Effective January 1, 2004, the Company adopted a nonstandardized form of a prototype plan sponsored by Fidelity Management Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the adoption date. The Company believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the Department of Labor or the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any open tax periods or any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

NOTE 7 - PARTICIPANT NOTES RECEIVABLE

Participant notes receivable consist of loans participants have taken from their accounts.

The loans bear interest from 3.25% to 8.25%. Participant loans totaled \$500,616 and \$418,139 as of December 31, 2011 and 2010, respectively.

**NOTES TO FINANCIAL STATEMENTS

NOTE 8 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$16,749 and \$16,030 for the years ended December 31, 2011 and 2010, respectively.

NOTE 9 - INVESTMENT CONTRACTS WITH INSURANCE COMPANY

In 2008, the Plan entered into a benefit-responsive investment contract with Fidelity Management Trust Company. Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan. Contract value represents contributions made under the contract, plus all accrued interest, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan represents contributions made under the contract, plus all accrued interest, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value is the best estimate of the fair market value of the investment.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$5,080 and \$4,753, respectively. The crediting interest rate is based on the formula agreed upon with the issuer, but may not be less than zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of the equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

NOTE 10 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the framework are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**KENALL MANUFACTURING CO., INC. 401(K) PLAN
AND PROFIT SHARING PLAN AND TRUST**

**NOTES TO FINANCIAL STATEMENTS
(CONTINUED)**

NOTE 10 - FAIR VALUE MEASUREMENTS, CONTINUED

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Interest-bearing cash: Based on value of cash in the plan at year end.

Mutual funds: Based on the net asset value (NAV) of shares held by the plan at year end.

Common/Collective trust: Based on the contractual terms of the underlying GICs; provides a daily mil-rate for income accretion.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:
