NOTE 1. PLAN DESCRIPTION

The following description of the Keyes Motors, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees who are employed by Keyes Motors, Inc. (the "Company" and the "Plan Sponsor"), and adopting employers, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan consists of participants' deferrals and Company matching and discretionary contributions in accordance with Section 401(k) of the Internal Revenue Code ("IRC").

Participation

For participant contributions, participants must have attained 21 years of age and have completed one year of service. For Company contributions, participants must also be employed on the last day of the Plan year.

Contributions

As defined in the Plan, participants are permitted to make pre-tax and Roth contributions of one percent to 15 percent of their compensation, subject to certain limitations under the IRC.

The Plan provides for discretionary Company matching contributions, qualified non-elective contributions ("QNEC"), qualified matching contributions ("QMAC"), and discretionary profit sharing contributions. For the year ended December 31, 2011, the Company matched 25 percent of salary deferrals to employees with less than three years of service, not to exceed $3,500, 50 percent to employees with three to seven years of service, not to exceed $7,000, and 100 percent to employees with over seven years of service, not to exceed $14,000. For the year ended December 31, 2011, the Company made discretionary matching contributions of $1,823,901, net of $915 in forfeitures. No other Company contributions were made for the year ended December 31, 2011.

Participant Accounts

Each participant's account is credited with the participant's contributions, and allocations of the Company's contributions and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. PLAN DESCRIPTION (Continued)

Vesting

Participants are vested immediately in their contributions, QNEC's and QMAC's plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts is based on years of service. Participants are vested in Company discretionary matching and profit sharing contributions at 10 percent after one year of service, 20 percent after two years of service and an additional 20 percent each year thereafter until 100 percent vested upon six years of service.

Forfeitures

Forfeitures not used to pay Plan administrative expenses will be used to reduce future Company contributions. During the year ended December 31, 2011, forfeitures of $3,636 were used to pay Plan administrative expenses and $915 were used to reduce Company contributions. As of December 31, 2011, forfeitures of $107,584 are available for future use.

Payment of Benefits

For termination of service due to any reason other than death, a participant will receive a lump-sum distribution for the value of the vested interest in their account. For termination of service due to death, a participant's beneficiary may elect to receive either a lump-sum distribution or installment payments over a specified period of time as defined in the Plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from data provided by Charles Schwab Trust Company (the "Trustee").

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. The investments and changes therein of the funds have been reported to the Plan by the Trustee using fair value.

Investments are valued daily. Interest income is recognized on the accrual basis. Dividend income is included in net depreciation of investments.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Concentration of Risk

The Plan's investments have exposure to risk to the extent that the investments are subject to market and interest rate fluctuations that may materially affect the value of the investment balances.

Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the Trustee and independent public accountants may be paid by the Plan. Expenses not paid by the Company are paid by the Plan.

Most investment options have fees that reduce the overall return on assets. The net depreciation of investments is inclusive of these fees.

Benefits Payable to Participants

Benefits are recorded when paid.

Fair Value

The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Money Market Fund – The money market fund is at par and valued at fair value and therefore classified as Level 1 within the valuation hierarchy.

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value of the mutual fund's shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the valuation hierarchy.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value (Continued)

Common Collective Trusts ("CCT") – The fair value of underlying assets, which included investments in trust funds, stable value funds, unitized accounts, collective trust and mutual funds, is determined using a combination of readily available most recent market bid prices in the principal markets where such funds and securities are traded and pricing services that use valuation matrices incorporating dealer supplied valuations and valuation models, valuation inputs such as structure of the issue, cash flow assumptions and the value of underlying assets and guarantees. The fair value of the CCT equals the total of the fair value of the underlying assets and is classified as Level 2 within the valuation hierarchy.

The CCT are designed to provide an investment solution that is adjusted over time to meet participants' changing risks and return objectives as they near retirement.

The CCT do not have any unfunded commitments relating to its investments, or any significant restrictions on redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

NOTE 4. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are held and some are managed by the Trustee and therefore these transactions qualify as party-in-interest transactions for which exemptions exist. The Trustee received $26,438 in administration fees, of which $22,802 were paid by the participants, primarily for participant loan administration fees through the Plan. The Trustee also receives indirect compensation from certain mutual funds based on a formula which is based on the average daily asset balances.

NOTE 5. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

NOTE 6. FEDERAL INCOME TAX STATUS

The Company adopted a prototype plan which is the subject of a favorable opinion letter dated May 23, 2008. The Plan Sponsor routinely self reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plans Compliance Resolution System. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and, accordingly, the plan administrator believes that the Plan is exempt from income taxes.

NOTE 6. FEDERAL INCOME TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 7. FINANCIAL DATA CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee and was not subjected to any auditing procedures performed by the independent public accountants:

b. Net depreciation of investments of $1,060,238 and interest income on investments and participant loans of $457 and $84,786, respectively, as shown in the accompanying Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2011.

c. Total assets as of December 31, 2011 as shown in the accompanying Schedule of Assets (Held at End of Year).

NOTE 8. PARTICIPANT LOANS

The loans are stated at the unpaid principal amount, secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 10.25 percent. Principal and interest is paid ratably through payroll deductions.

NOTE 9. SUBSEQUENT EVENTS

The Company has evaluated subsequent events that have occurred from December 31, 2011 through October 11, 2012, which is the date that the financial statements were available to be issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements.
