HAMCOR, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010 (See Independent Auditors' Report)

NOTE 1 – DESCRIPTION OF PLAN

General – The following description of the Hamcor, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan established in 1999 covering all eligible employees of Hamcor, Inc. dba Dublin Toyota ("the Company" or "Plan Administrator") who are age 21 and older and have completed three consecutive months of employment. Union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, and certain nonresident aliens who have no earned income from sources within the United States are excluded from Plan participation. The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – An Administrative Committee ("the Committee") manages the operation and administration of the Plan. The Company has contracted with Orchard Trust Company ("Orchard Trust") to act as custodian and trustee. A third-party administrator processes and maintains the records of participant data.

Contributions – Each year, participants may contribute up to 100% of eligible compensation, as defined in the Plan agreement, not to exceed the maximum statutory amount. Participants who are 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make a discretionary matching contribution and/or a discretionary profit sharing contribution to the Plan. For 2011, the Company's matching contribution was equal to 10% of a participant's salary deferral up to a maximum of $2,200 per participant. No profit-sharing contribution was made for 2011.

Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of the Company's profit-sharing contribution (if any), Plan earnings or losses, and administrative expenses as allowed by the Plan. Allocations of the Company's profit-sharing contribution are based on participant compensation. Allocations of

Plan earnings and losses are based on individual participant investment choices. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. All contributions/investments are participant directed.

Certain investment and fund fees are charged to the funds and participant accounts and are offset against plan investment income and losses. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting – Participants are 100% vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contribution portion of their accounts is based on years of service. Participants vest at the rate of 25% after the first year of credited service and are fully vested after four years of service. Participants fully vest upon death, permanent disability, normal retirement or Plan termination.

Notes Receivable from Participants – Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their account balance, whichever is less. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Outstanding notes at December 31, 2011 and 2010 carry interest rates which range from 5.25% to 9%. Principal and interest is paid ratably through payroll deductions. Notes must be repaid within a five-year period, unless it is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such notes are established by the Plan Administrator.

Payment of Benefits – Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, disability, or Plan termination and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions up to their salary deferral account balance in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age $59^{1/2}$.

Forfeited Accounts – Forfeitures of employer matching contributions can be used to pay Plan administrative expenses or reduce employer contributions. The forfeiture employer matching account balance was $10,304 and $9,462, as of December 31, 2011 and 2010, respectively. Forfeitures of employer profit-sharing contributions can be used to pay Plan administrative expenses or

reallocated to participants. The forfeiture employer profit-sharing account balance was $0 as of December 31, 2011 and 2010.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments of the Plan are reported at fair value as determined by Orchard Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants in the financial statements are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses – Most Plan expenses are paid by the Company. Participant note and distribution fees are paid by the participant.

Payment of Benefits – Benefits are recorded when paid.

Accounting pronouncement – In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS")." ASU 2011-04 amended Accounting Standards Codification ("ASC")

820, "Fair Value Measurement," to converge the fair value measurement guidance in U.S. GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events – The Plan has evaluated subsequent events through October 9, 2012, the date the financial statements were available to be issued.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified below by Orchard Trust as of December 31, 2011 and 2010, and transactions entered into for the year ended December 31, 2011, were used in the preparation of the accompanying financial statements and supplemental schedule. NOTE 5 – FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the closing price reported on the active market in which the individual securities are traded.

Fixed annuity: Valued at the amount the Plan Sponsor would receive if they terminated the contract, which is book value less any early withdrawal charge.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

NOTE 6 – GUARANTEED ACCOUNT

The Key Guaranteed Portfolio Fund ("KGP Fund) is a fixed annuity valued at contract value as reported by Orchard Trust. Guaranteed funds by a defined-contribution plan are required to be reported at fair value. The KGP Fund is not fully benefit-responsive and is reported at contract value which approximates fair value. The average yield to the Plan was approximately 2.03% and 2.49% for 2011 and 2010, respectively. The average yield to Plan participants was approximately 2.03% and 2.40% for 2011 and 2010, respectively. The minimum crediting rate under the contract is 0%. The crediting interest rate is reset quarterly and is based on the Plan's contract with Orchard Trust and was approximately 2% for 2011.

NOTE 7 – RELATED PARTY TRANSACTIONS

Plan investments managed by the custodian of the Plan are considered party-in-interest transactions under ERISA regulations. Such transactions are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 8 – TAX STATUS

The Plan has received a determination letter dated September 17, 2010 from the Internal Revenue Service. The Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the Internal

Revenue Code and state statutes and is exempt from federal income and state franchise taxes.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years for which the applicable statutes of limitations have expired.

NOTE 9 – PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA.
