INDEPENDENT AUDITOR'S REPORT

To the Trustees
SET Environmental, Inc. 401(k) Savings Plan
Wheeling, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of SET ENVIRONMENTAL, INC. 401(K) SAVINGS PLAN (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SET ENVIRONMENTAL, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the SET Environmental, Inc. 401(k) Savings Plan (the Plan) provides only general information. Users of these financial statements should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by SET Environmental, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation. All employees, except for employees covered by a collective bargaining agreement, are eligible to participate in the Plan upon hire date. Effective December 15, 2010, eligible employees are automatically enrolled into the Plan at a contribution rate of 4% of pre-tax compensation. Unless eligible employees opt out of the automatic enrollment contribution, the deferral percentage will be increased annually by 1%, not to exceed 10%.

Contributions - Each year, participants may contribute up to 90% of pretax annual compensation (salary reduction contributions), as defined in the plan document. Beginning in 2010, participants shall be permitted to designate a portion or all of the deferral contributions made as Roth 401(k) contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Company, at its discretion, may match contributions made by participants on an annual basis. Additional Company contributions may be contributed at the discretion of the Company's Board of Directors. No match or discretionary contributions were made for the years ended December 31, 2011 or 2010. Contributions are subject to certain limitations.

Participants direct the investment of all contributions to various investment options offered by the Plan. The Plan currently offers various registered investment companies, common/collective trusts, and a cash management fund as investment options for participants. The default investment for automatic enrollment is a target date fund.

Participant Accounts - Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their salary reduction contributions, rollover contributions, and company discretionary contributions plus earnings thereon.

Payment of Benefits - Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The Plan provides for normal retirement at age 65 and early retirement on or after attaining age 55 and completing seven years of vesting service. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan. Participants may make withdrawals at age 59½ or for hardship, subject to $500 minimum, prior to termination of employment.

Termination of Plan - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA.

1. Description of Plan (Cont.)

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Effective December 15, 2010, the trustee of the Plan will establish the loan interest rates on the first business day of the next month following any change in the prime rate. Principal and interest is paid ratably through bi-weekly payroll deductions.

Administrative Expenses - The Company employs certain personnel who administer the Plan, and the Company pays substantially all of the Plan's administrative expenses without reimbursement from the Plan. Administrative expenses paid by the Plan are expensed as incurred. Additionally, certain investment management fees are netted in the net appreciation (depreciation) in fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Presentation - The accompanying financial statements of the Plan have been prepared on the accrual method of accounting.

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Fully Benefit-Responsive Investment Contract - Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on the contract basis. The fair value of the Plan's interest in the funds is based on information reported by the issuer of the common/collective trust at year end. The contract value of the funds represents contributions plus earnings, less participant withdrawals and administrative expenses. The average yield of the underlying investment contracts was 1.74% and 2.37% in 2011 and 2010, respectively. The average yield credited to participants in 2011 and 2010 was 1.26% and 1.48%, respectively.

Investment Valuation and Income Recognition - Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan. Money market funds are valued at cost which approximates fair value. The common/collective trust stable value fund is valued based on fair value and contract value information reported by Fidelity Management Trust Company.

2. Summary of Significant Accounting Policies (Cont.)

Investment Valuation and Income Recognition (cont.) -

The Plan provides for investments that, in general, are exposed to various risks such as changes in interest rates and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Fair Value Measurements - In January 2010, the Financial Accounting Standards Board (FASB) issued guidance in Accounting Standards Update No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* (ASU No. 2010-06). ASU No. 2010-06 amended disclosure requirements related to recurring and nonrecurring fair value measurements. For fiscal years beginning after December 15, 2010, ASU No. 2010-06 requires separate presentation of purchases, sales, issuances and settlements in the Level 3 reconciliation table. The Plan has adopted these disclosure requirements in 2011.

In May 2011, the FASB issued guidance in Accounting Standards Update No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU No. 2011-04). ASU No. 2011-04 was issued to improve comparability of fair value application, measurements and disclosures between U.S. GAAP reporting and IFRS reporting. ASU No. 2011-04 clarifies fair value definitions and enhances fair value measurement guidance with respect to highest and best use measurements, equity instrument measurements, and measurement of financial instruments that are managed within a portfolio. Additionally, ASU No. 2011-04 expands disclosures for unobservable inputs used in Level 3 fair value measurements. ASU No. 2011-04 is effective for annual periods beginning after December 15, 2011. The Plan is currently evaluating the impact of ASU No. 2011-04 on its fair value measurements and disclosures and intends to adopt the guidance in 2012.

Notes Receivable from Participants - Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

3. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to completeness and accuracy of all investments, at fair value, the adjustment from fair value to contract value for interest in common/collective trust relating to fully benefit-responsive investment contracts,

3. Information Certified by the Plan's Trustee (Cont.)

and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, the schedule of assets (held at end of year) as of December 31, 2011, and the investment income (loss) components, interest income from participant notes receivable, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011.

4. Investments at Fair Value

The following investments represent 5% or more of the Plan's net assets at December 31, 2011 and 2010:

	2011	2010
Fidelity Advisor Dynamic Capital Appreciation Fund	$ 522,577	$ 634,706
Fidelity Advisor Freedom 2015 Fund	1,125,542	1,123,318
Fidelity Advisor Freedom 2040 Fund	851,006	808,847
Fidelity Advisor Strategic Income Fund	*	673,587
Oppenheimer Global Fund	476,289	432,975
Fidelity Cash Management Prime Fund	692,898	*

*Denotes investment does not represent 5% or more of Plan's net assets.

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by:

	2011
Registered investment companies	$ (472,983)
Common/collective trust	3,777
	$ (469,206)

5. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

5. Fair Value Measurements (Cont.)

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Money market funds are valued at cost which approximates fair value (Level 2 inputs).

The fair value of participation units held by the Plan in common/collective trusts is based on their net asset values, as reported by Fidelity Management Trust Company and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. Therefore, the investment fund is classified within Level 2 of the fair value hierarchy. The fund invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds with an investment strategy seeking to preserve principal while generating interest income.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Cont.)

(a) This is a collective investment trust (CIT) for which the net asset value (NAV) is based on the market value of its underlying investments which contain synthetic investment contracts. Participants are able to redeem their investment in the fund at any time, as funds are readily available within one to three business days.

6. Parties-in-Interest

Certain plan investments are shares of mutual funds managed by the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $1,576 for the year ended December 31, 2011.

7. Tax Status

The Plan adopted a prototype defined contribution plan and trust sponsored by Fidelity Management Trust Company (Fidelity). The Internal Revenue Service has determined and informed Fidelity, on March 31, 2008 that the Plan is qualified and tax exempt under the appropriate sections of the Internal Revenue Code (IRC). The Plan has been amended since Fidelity received the determination letter. The plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC; therefore no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared with the investments in common/collective trusts reported at contract value while the Plan's Form 5500 has been prepared reporting investments in common/collective trusts at fair value.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Form 5500:

	2011	2010
Net assets available for benefits per the Form 5500	$ 7,381,094	$ 7,392,842
Difference in common/collective trusts	(10,988)	(5,666)
Net assets available for benefits per the financial statements	$ 7,370,106	$ 7,387,176

8. Reconciliation of Financial Statements to Schedule H Form 5500 (Cont.)

The following is a reconciliation of net appreciation in fair value of investments for common/collective trusts per the financial statements for the year ended December 31, 2011 to Form 5500:

	2011
Net appreciation in common/collective trusts per the Form 5500	$ 9,099
Net adjustment from fair value to contract value for interest in common/collective trust relating to fully benefit-responsive investment contracts	(5,322)
Net appreciation in common/collective trusts per the financial statements	$ 3,777

9. Subsequent Events

Subsequent events have been evaluated through August 30, 2012, the date these financial statements were available for issuance.

INDEPENDENT AUDITOR'S REPORT

To the Trustees
SET Environmental, Inc. 401(k) Savings Plan
Wheeling, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of SET ENVIRONMENTAL, INC. 401(K) SAVINGS PLAN (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SET ENVIRONMENTAL, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the SET Environmental, Inc. 401(k) Savings Plan (the Plan) provides only general information. Users of these financial statements should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by SET Environmental, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation. All employees, except for employees covered by a collective bargaining agreement, are eligible to participate in the Plan upon hire date. Effective December 15, 2010, eligible employees are automatically enrolled into the Plan at a contribution rate of 4% of pre-tax compensation. Unless eligible employees opt out of the automatic enrollment contribution, the deferral percentage will be increased annually by 1%, not to exceed 10%.

Contributions - Each year, participants may contribute up to 90% of pretax annual compensation (salary reduction contributions), as defined in the plan document. Beginning in 2010, participants shall be permitted to designate a portion or all of the deferral contributions made as Roth 401(k) contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Company, at its discretion, may match contributions made by participants on an annual basis. Additional Company contributions may be contributed at the discretion of the Company's Board of Directors. No match or discretionary contributions were made for the years ended December 31, 2011 or 2010. Contributions are subject to certain limitations.

Participants direct the investment of all contributions to various investment options offered by the Plan. The Plan currently offers various registered investment companies, common/collective trusts, and a cash management fund as investment options for participants. The default investment for automatic enrollment is a target date fund.

Participant Accounts - Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their salary reduction contributions, rollover contributions, and company discretionary contributions plus earnings thereon.

Payment of Benefits - Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The Plan provides for normal retirement at age 65 and early retirement on or after attaining age 55 and completing seven years of vesting service. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan. Participants may make withdrawals at age 59½ or for hardship, subject to $500 minimum, prior to termination of employment.

Termination of Plan - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA.

1. Description of Plan (Cont.)

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Effective December 15, 2010, the trustee of the Plan will establish the loan interest rates on the first business day of the next month following any change in the prime rate. Principal and interest is paid ratably through bi-weekly payroll deductions.

Administrative Expenses - The Company employs certain personnel who administer the Plan, and the Company pays substantially all of the Plan's administrative expenses without reimbursement from the Plan. Administrative expenses paid by the Plan are expensed as incurred. Additionally, certain investment management fees are netted in the net appreciation (depreciation) in fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Presentation - The accompanying financial statements of the Plan have been prepared on the accrual method of accounting.

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Fully Benefit-Responsive Investment Contract - Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on the contract basis. The fair value of the Plan's interest in the funds is based on information reported by the issuer of the common/collective trust at year end. The contract value of the funds represents contributions plus earnings, less participant withdrawals and administrative expenses. The average yield of the underlying investment contracts was 1.74% and 2.37% in 2011 and 2010, respectively. The average yield credited to participants in 2011 and 2010 was 1.26% and 1.48%, respectively.

Investment Valuation and Income Recognition - Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan. Money market funds are valued at cost which approximates fair value. The common/collective trust stable value fund is valued based on fair value and contract value information reported by Fidelity Management Trust Company.

2. Summary of Significant Accounting Policies (Cont.)

Investment Valuation and Income Recognition (cont.) -

The Plan provides for investments that, in general, are exposed to various risks such as changes in interest rates and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Fair Value Measurements - In January 2010, the Financial Accounting Standards Board (FASB) issued guidance in Accounting Standards Update No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* (ASU No. 2010-06). ASU No. 2010-06 amended disclosure requirements related to recurring and nonrecurring fair value measurements. For fiscal years beginning after December 15, 2010, ASU No. 2010-06 requires separate presentation of purchases, sales, issuances and settlements in the Level 3 reconciliation table. The Plan has adopted these disclosure requirements in 2011.

In May 2011, the FASB issued guidance in Accounting Standards Update No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU No. 2011-04). ASU No. 2011-04 was issued to improve comparability of fair value application, measurements and disclosures between U.S. GAAP reporting and IFRS reporting. ASU No. 2011-04 clarifies fair value definitions and enhances fair value measurement guidance with respect to highest and best use measurements, equity instrument measurements, and measurement of financial instruments that are managed within a portfolio. Additionally, ASU No. 2011-04 expands disclosures for unobservable inputs used in Level 3 fair value measurements. ASU No. 2011-04 is effective for annual periods beginning after December 15, 2011. The Plan is currently evaluating the impact of ASU No. 2011-04 on its fair value measurements and disclosures and intends to adopt the guidance in 2012.

Notes Receivable from Participants - Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

3. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to completeness and accuracy of all investments, at fair value, the adjustment from fair value to contract value for interest in common/collective trust relating to fully benefit-responsive investment contracts,

3. Information Certified by the Plan's Trustee (Cont.)

and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, the schedule of assets (held at end of year) as of December 31, 2011, and the investment income (loss) components, interest income from participant notes receivable, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011.

4. Investments at Fair Value

The following investments represent 5% or more of the Plan's net assets at December 31, 2011 and 2010:

	2011	2010
Fidelity Advisor Dynamic Capital Appreciation Fund	$ 522,577	$ 634,706
Fidelity Advisor Freedom 2015 Fund	1,125,542	1,123,318
Fidelity Advisor Freedom 2040 Fund	851,006	808,847
Fidelity Advisor Strategic Income Fund	*	673,587
Oppenheimer Global Fund	476,289	432,975
Fidelity Cash Management Prime Fund	692,898	*

*Denotes investment does not represent 5% or more of Plan's net assets.

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by:

	2011
Registered investment companies	$ (472,983)
Common/collective trust	3,777
	$ (469,206)

5. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

5. Fair Value Measurements (Cont.)

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Money market funds are valued at cost which approximates fair value (Level 2 inputs).

The fair value of participation units held by the Plan in common/collective trusts is based on their net asset values, as reported by Fidelity Management Trust Company and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. Therefore, the investment fund is classified within Level 2 of the fair value hierarchy. The fund invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds with an investment strategy seeking to preserve principal while generating interest income.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Cont.)

(a) This is a collective investment trust (CIT) for which the net asset value (NAV) is based on the market value of its underlying investments which contain synthetic investment contracts. Participants are able to redeem their investment in the fund at any time, as funds are readily available within one to three business days.

6. Parties-in-Interest

Certain plan investments are shares of mutual funds managed by the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $1,576 for the year ended December 31, 2011.

7. Tax Status

The Plan adopted a prototype defined contribution plan and trust sponsored by Fidelity Management Trust Company (Fidelity). The Internal Revenue Service has determined and informed Fidelity, on March 31, 2008 that the Plan is qualified and tax exempt under the appropriate sections of the Internal Revenue Code (IRC). The Plan has been amended since Fidelity received the determination letter. The plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC; therefore no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared with the investments in common/collective trusts reported at contract value while the Plan's Form 5500 has been prepared reporting investments in common/collective trusts at fair value.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Form 5500:

	2011	2010
Net assets available for benefits per the Form 5500	$ 7,381,094	$ 7,392,842
Difference in common/collective trusts	(10,988)	(5,666)
Net assets available for benefits per the financial statements	$ 7,370,106	$ 7,387,176

8. Reconciliation of Financial Statements to Schedule H Form 5500 (Cont.)

The following is a reconciliation of net appreciation in fair value of investments for common/collective trusts per the financial statements for the year ended December 31, 2011 to Form 5500:

	2011
Net appreciation in common/collective trusts per the Form 5500	$ 9,099
Net adjustment from fair value to contract value for interest in common/collective trust relating to fully benefit-responsive investment contracts	(5,322)
Net appreciation in common/collective trusts per the financial statements	$ 3,777

9. Subsequent Events

Subsequent events have been evaluated through August 30, 2012, the date these financial statements were available for issuance.
