To the Plan Administrator
Ryan Herco Flow Solutions Profit Sharing/401(k) Plan
Burbank, CA

We were engaged to audit the accompanying statement of net assets available for benefits of Ryan Herco Flow Solutions Profit Sharing/401(k) Plan (the Plan) as of December 31, 2011, the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010 were audited by other auditors whose report, dated July 15, 2011, did not express an opinion on the 2010 financial statements for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained a certification from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2011.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the 2011 accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements, but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Plan Description

The following description of the Ryan Herco Flow Solutions Profit Sharing/401(k) Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General: The Plan is a defined-contribution plan covering all employees of Ryan Herco Flow Solutions (the Company) who have six consecutive months of service and are at least 20 years of age. Employees may enter the Plan immediately upon meeting the eligibility requirements.

The Plan is sponsored and administered by Ryan Herco Products Corporation, dba Ryan Herco Flow Solutions. The Plan's assets are held by Fidelity Management Trust Company (the Trustee). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). Additionally, the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant accounts and contributions: Participants may contribute up to 60 percent of pretax annual compensation, as defined in the Plan, and up to 100 percent of any cash bonuses, upon proper notice and approval. Total participant contributions are subject to annual limits established by the Internal Revenue Service (IRS). The maximum participant deferral limit was $16,500 for the year ended December 31, 2011. Catch-up contributions of an additional $5,500 were available to participants who had attained age 50 or older by December 31, 2011.

Each participant's account is credited or charged with the participant's contribution and allocations of the Company's matching 401(k) contributions, discretionary profit sharing contributions, investment income (losses) and administrative expenses.

The Company is required to make matching contributions on participants' 401(k) salary deferrals. The Company matches 50 percent of participants' salary deferrals up to 4 percent of eligible compensation per payroll. The Company's matching contribution for the year ended December 31, 2011 was $188,915, of which $9,909 was funded through forfeitures.

The Company may make annual discretionary profit sharing contributions to the Plan for participants who are employed on the last day of the Plan year. The Company did not make a profit sharing contribution for the year ended December 31, 2011.

Vesting: Participants are immediately vested in their voluntary contributions and related investment earnings. Vesting in Company matching and profit sharing contributions is based on years of continuous service. A participant is 20 percent vested after two years, and continues to vest 20 percent per year thereafter. A participant becomes fully vested after six years of service.

Notwithstanding the above, if a participant (1) attains the age of 65, (2) dies or (3) terminates employment by reason of permanent disability, the Company's matching and discretionary profit sharing contribution amounts become 100 percent vested without regard to years of service.

Benefit payments: Distributions of a participant's account are made upon termination of service, death, disability or retirement. Distributions are made in either a lump-sum payment or in annual installments at the election of a participant or beneficiary paid over a period not to exceed the participants' estimated life expectancy at the time of distribution. If the value of the vested portion is less than $1,000, the participant will automatically receive a lump-sum payment. An in-service distribution can also be made to participants who have attained the age of 59-1/2, upon disability or when experiencing financial hardship.

Note 1. Plan Description (Continued)

Administrative expenses: The Company incurs certain expenses in administering the Plan and the Plan pays certain expenses from the Plan assets. Administrative expenses charged to the Plan consist of charges associated with investment transactions, benefit payments and loan processing.

Plan termination: Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Notes receivable from participants: Participants may borrow from their vested accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their vested balance. The minimum loan amount is $1,000. A participant may have up to two loans outstanding at any given time. The loans are secured by the vested balance in the participant's account and bear interest at the prevailing market rate as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions or participants' own personal funds over a term not to exceed five years or extend beyond the participant's normal retirement, except notes receivable used to purchase or improve the participant's primary residence, which have a repayment term not to exceed 10 years.

Forfeitures: Forfeitures of terminated participants' unvested Company contributions may be used to reduce future Company contributions. During the year ended December 31, 2011, a total of $9,909 of forfeitures were applied to reduce Company matching contributions. At December 31, 2011 and 2010, the amount of forfeitures available for future use was approximately $3,000 and $3,600, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts of assets, liabilities and changes therein, the fair value of investments, and disclosure of contingent assets and liabilities reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Investments valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are reflected on a trade date basis. The basis for all securities sold is determined by average cost. Interest income is recorded on the accrual basis. The Plan presents in the statement of changes in net assets available for benefits the net depreciation in the fair value of its investments, which consists of the realized gains or losses on the sale of investments during the period and unrealized appreciation or depreciation of investments held at year-end.

Notes receivable from participants: Notes receivable from participants are reported at their unpaid principal balances plus accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Fair value measurements: Financial Accounting Standards Board (FASB) accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 2. Significant Accounting Policies (Continued)

The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2011 and 2010.

Money market funds: Stated at their carrying value approximates fair value.

Investments in shares of registered investment companies (mutual funds): Valued using quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit payments: Benefits are recorded when paid.

Recent accounting pronouncement: In May 2011, the FASB issued an amendment, *Fair Value Measurements and Disclosures: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, which improves comparability between U.S. GAAP and International Financial Reporting Standards (IFRS) with respect to fair value measurement and disclosure requirements. Some of the amendments clarify the FASB's intent about the application of existing fair value measurement requirements. Other amendments change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. This amendment is prospectively effective for financial statements issued for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect the provisions will have on the Plan's financial statements.

Note 2. Significant Accounting Policies (Continued)

Subsequent events: The Plan's management has evaluated subsequent events for recognition and disclosure through October 9, 2012, which is the date the financial statements were available to be issued.

Note 3. Assets Certified or Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. The Trustee certified information as of December 31, 2011 and 2010 and for the year ended December 31, 2011. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 3 and the supplemental schedule related to the following investments.

The Plan's investments that individually represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 are separately identified.

	2011	2010
Money Market Fund:		
Fidelity Retirement Government Money Market Fund	$ 3,129,761	$ 2,881,298

Other investments *	3,279,163	3,635,078
	$ 13,400,602	$ 14,743,446
Notes Receivable from Participants	$ 602,829	$ 582,305

* Balance represents less than 5 percent but is included for comparative purposes.

The Trustee certified the completeness and accuracy of the (depreciation) in fair value of investments of ($578,424) and investment interest and dividends income of $253,203 for the year ended December 31, 2011.

The Trustee also certified interest income on notes receivable from participants of $39,251 for the year ended December 31, 2011.

Note 3. Assets Certified or Provided by the Trustee (Continued)

There have been no changes in the valuation methodologies used at December 31, 2011 and 2010 to value the Plan's assets at fair value. There were no transfers in or out of Levels 1, 2 or 3 during the years ended December 31, 2011 and 2010.

Note 4. Income Tax Status

The Company adopted a nonstandardized prototype plan sponsored by the Trustee. The Plan prototype received an opinion letter dated March 31, 2008 from the IRS, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes the Plan is currently being operated in compliance with the applicable provisions of the IRC.

Note 5. Party-In-Interest Transactions

Certain Plan investments are invested in shares of mutual funds managed by Fidelity Management and Research Company, an affiliate of the Trustee. Therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to the Trustee by the Plan amounted to $12,048 for the year ended December 31, 2011.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades.

To the Plan Administrator
Ryan Herco Flow Solutions Profit Sharing/401(k) Plan
Burbank, CA

We were engaged to audit the accompanying statement of net assets available for benefits of Ryan Herco Flow Solutions Profit Sharing/401(k) Plan (the Plan) as of December 31, 2011, the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010 were audited by other auditors whose report, dated July 15, 2011, did not express an opinion on the 2010 financial statements for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained a certification from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2011.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the 2011 accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements, but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Plan Description

The following description of the Ryan Herco Flow Solutions Profit Sharing/401(k) Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General: The Plan is a defined-contribution plan covering all employees of Ryan Herco Flow Solutions (the Company) who have six consecutive months of service and are at least 20 years of age. Employees may enter the Plan immediately upon meeting the eligibility requirements.

The Plan is sponsored and administered by Ryan Herco Products Corporation, dba Ryan Herco Flow Solutions. The Plan's assets are held by Fidelity Management Trust Company (the Trustee). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). Additionally, the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant accounts and contributions: Participants may contribute up to 60 percent of pretax annual compensation, as defined in the Plan, and up to 100 percent of any cash bonuses, upon proper notice and approval. Total participant contributions are subject to annual limits established by the Internal Revenue Service (IRS). The maximum participant deferral limit was $16,500 for the year ended December 31, 2011. Catch-up contributions of an additional $5,500 were available to participants who had attained age 50 or older by December 31, 2011.

Each participant's account is credited or charged with the participant's contribution and allocations of the Company's matching 401(k) contributions, discretionary profit sharing contributions, investment income (losses) and administrative expenses.

The Company is required to make matching contributions on participants' 401(k) salary deferrals. The Company matches 50 percent of participants' salary deferrals up to 4 percent of eligible compensation per payroll. The Company's matching contribution for the year ended December 31, 2011 was $188,915, of which $9,909 was funded through forfeitures.

The Company may make annual discretionary profit sharing contributions to the Plan for participants who are employed on the last day of the Plan year. The Company did not make a profit sharing contribution for the year ended December 31, 2011.

Vesting: Participants are immediately vested in their voluntary contributions and related investment earnings. Vesting in Company matching and profit sharing contributions is based on years of continuous service. A participant is 20 percent vested after two years, and continues to vest 20 percent per year thereafter. A participant becomes fully vested after six years of service.

Notwithstanding the above, if a participant (1) attains the age of 65, (2) dies or (3) terminates employment by reason of permanent disability, the Company's matching and discretionary profit sharing contribution amounts become 100 percent vested without regard to years of service.

Benefit payments: Distributions of a participant's account are made upon termination of service, death, disability or retirement. Distributions are made in either a lump-sum payment or in annual installments at the election of a participant or beneficiary paid over a period not to exceed the participants' estimated life expectancy at the time of distribution. If the value of the vested portion is less than $1,000, the participant will automatically receive a lump-sum payment. An in-service distribution can also be made to participants who have attained the age of 59-1/2, upon disability or when experiencing financial hardship.

Note 1. Plan Description (Continued)

Administrative expenses: The Company incurs certain expenses in administering the Plan and the Plan pays certain expenses from the Plan assets. Administrative expenses charged to the Plan consist of charges associated with investment transactions, benefit payments and loan processing.

Plan termination: Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Notes receivable from participants: Participants may borrow from their vested accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their vested balance. The minimum loan amount is $1,000. A participant may have up to two loans outstanding at any given time. The loans are secured by the vested balance in the participant's account and bear interest at the prevailing market rate as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions or participants' own personal funds over a term not to exceed five years or extend beyond the participant's normal retirement, except notes receivable used to purchase or improve the participant's primary residence, which have a repayment term not to exceed 10 years.

Forfeitures: Forfeitures of terminated participants' unvested Company contributions may be used to reduce future Company contributions. During the year ended December 31, 2011, a total of $9,909 of forfeitures were applied to reduce Company matching contributions. At December 31, 2011 and 2010, the amount of forfeitures available for future use was approximately $3,000 and $3,600, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts of assets, liabilities and changes therein, the fair value of investments, and disclosure of contingent assets and liabilities reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Investments valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are reflected on a trade date basis. The basis for all securities sold is determined by average cost. Interest income is recorded on the accrual basis. The Plan presents in the statement of changes in net assets available for benefits the net depreciation in the fair value of its investments, which consists of the realized gains or losses on the sale of investments during the period and unrealized appreciation or depreciation of investments held at year-end.

Notes receivable from participants: Notes receivable from participants are reported at their unpaid principal balances plus accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Fair value measurements: Financial Accounting Standards Board (FASB) accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 2. Significant Accounting Policies (Continued)

The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2011 and 2010.

Money market funds: Stated at their carrying value approximates fair value.

Investments in shares of registered investment companies (mutual funds): Valued using quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit payments: Benefits are recorded when paid.

Recent accounting pronouncement: In May 2011, the FASB issued an amendment, *Fair Value Measurements and Disclosures: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, which improves comparability between U.S. GAAP and International Financial Reporting Standards (IFRS) with respect to fair value measurement and disclosure requirements. Some of the amendments clarify the FASB's intent about the application of existing fair value measurement requirements. Other amendments change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. This amendment is prospectively effective for financial statements issued for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect the provisions will have on the Plan's financial statements.

Note 2. Significant Accounting Policies (Continued)

Subsequent events: The Plan's management has evaluated subsequent events for recognition and disclosure through October 9, 2012, which is the date the financial statements were available to be issued.

Note 3. Assets Certified or Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. The Trustee certified information as of December 31, 2011 and 2010 and for the year ended December 31, 2011. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 3 and the supplemental schedule related to the following investments.

The Plan's investments that individually represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 are separately identified.

There have been no changes in the valuation methodologies used at December 31, 2011 and 2010 to value the Plan's assets at fair value. There were no transfers in or out of Levels 1, 2 or 3 during the years ended December 31, 2011 and 2010.

Note 4. Income Tax Status

The Company adopted a nonstandardized prototype plan sponsored by the Trustee. The Plan prototype received an opinion letter dated March 31, 2008 from the IRS, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes the Plan is currently being operated in compliance with the applicable provisions of the IRC.

Note 5. Party-In-Interest Transactions

Certain Plan investments are invested in shares of mutual funds managed by Fidelity Management and Research Company, an affiliate of the Trustee. Therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to the Trustee by the Plan amounted to $12,048 for the year ended December 31, 2011.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades.
