Generational Equity, LLC 401(K) Profit Sharing Plan

Notes to Financial Statements

December 31, 2011 and June 30, 2011

Note 1: Description of the Plan

The following description of the Generational Equity, LLC 401(K) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description*, which are available from the plan administrator, for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Generational Equity, LLC (the Company or Employer) for the benefit of its employees who have at least 90 days of service and are age 21 or older. The Plan is subject to the provisions of *Employee Retirement Income Security Act of 1974* (ERISA) as well as the requirements of Sections 401(a) and 401(k) of the Internal Revenue Code (IRC). State Street Bank and Trust Company (State Street) serves as custodian. T. Rowe Price serves as third-party administrator (TPA). Effective July 1, 2011, the plan custodian changed from Principal Life Insurance Company (Principal) to State Street (see *Note 8*).

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 100% of eligible compensation. Participants over 50 years of age are allowed catch-up contributions subject to allowable amounts under IRC regulations. Employee rollover contributions are also permitted. Effective July 1, 2011, the Company made discretionary matching contributions of 50% of employees' salary deferral amounts on the first 4% of employees' compensation. The Company's profit-sharing contributions are discretionary as determined by the Company's Board of Directors. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Participants have the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary contributions and plan earnings and losses. Each participant's earnings are invested separately according to the participant's investment direction so that each participant's account realizes appreciation or depreciation based on related investment performance. Plan earnings are calculated and credited to each participant's account on a daily basis. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes to Financial Statements

December 31, 2011 and June 30, 2011

Vesting

Participants are immediately vested in their contributions and related earnings thereon. Vesting in the Company's discretionary contributions and related earnings thereon is based on years of continuous service which occurs at a rate of 20% per year of employment. A participant is 100% vested after five years of continuous service.

Notes Receivable from Participants

Effective July 1, 2011, the plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. A participant may only have two loans outstanding at any time. Participant loans are included in the accompanying statements of net assets available for benefits as notes receivable from participants.

Payment of Benefits

Benefits may be paid under the Plan, subject to limitations and conditions imposed by the IRC, upon a participant's termination of employment, retirement, disability, death or hardship due to an immediate and heavy financial need. The Plan specifies lump-sum distributions. At December 31, 2011 and June 30, 2011, there were no requested unpaid benefits.

Forfeited Accounts

When an employee termination occurs, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures of Employer discretionary contributions may first be used to pay for plan expenses and then to supplement the Company's discretionary contributions. At December 31, 2011 and June 30, 2011, there were no forfeited nonvested accounts.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contract through a collective trust. The accompanying statements of net assets available for benefits presents the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The accompanying statements of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at period end.

The interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at period end based upon the investment rate credited to the balance on a daily basis.

The investment in the pooled separate accounts was valued at estimated fair value as reported to the Plan by the custodian based upon the investment rate credited to the balance on a daily basis.

The Plan held guaranteed interest accounts with Principal. The accounts were credited with earnings on the underlying investments based upon the investment rate credited to the balances on a daily basis and charged for participant withdrawals and administrative expenses. Withdrawals were not permitted at any time without a penalty and the accounts have been determined to be nonbenefit-responsive. The accounts were estimated at the fair value as reported to the Plan by Principal.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

Plan Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored document by Boston Financial Data Services. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax-exempt as of the financial statement date.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Transfers between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons. Certain Plan investments include funds managed by the TPA and custodian. These transactions qualify as party-in-interest transactions. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets and Liabilities

Accounting Standards Codification Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also establishes a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 investments include mutual funds and common collective trust. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include common collective trust and pooled separate accounts which are valued as described in *Note 2*. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include common collective trust, pooled separate accounts as well as guaranteed interest accounts which are valued as described in *Note 2*.

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2011 and June 30, 2011:

		December 31, 2011 Fair Value Measurements Using

Level 3 Gains and Losses

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Pooled Separate Accounts	Guaranteed Interest Accounts	Collective Trust Fund
Balance, July 1, 2010	$ 5,614	$ 62,516	$ -
Total realized and unrealized gains and losses included in net increase (decrease) in net assets available for benefits	1,562	(307)	-

Converted	(11,122)	(57,763)	-
Balance, December 31, 2011	$ -	$ -	$ 10,295

For the six-month period ended December 31, 2011 and year ended June 30, 2011, realized and unrealized gains and losses included in net increase in net assets available for benefits for the period from July 1, 2011 through December 31, 2011 and July 1, 2010 through June 30, 2011, are reported in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits.

Note 6: Risks and Uncertainties

The Plan provides for various variable investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 7: Current Economic Conditions

The current protracted economic environment continues to present employee benefit plans with difficult circumstances and challenges, which, in some cases, have resulted in large and unanticipated declines in the fair value of investments. The accompanying financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the accompanying financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8: Plan Amendment

Change in Plan Custodian

Effective July 1, 2011, the Plan was amended and restated (Plan Amendment) and a new custodian (New Custodian) and third-party administrator of the Plan were appointed. Plan assets transferred to the New Custodian were transferred into funds comparable to those offered by the previous custodian. The conversion initiated a "Black Out" period beginning August 5, 2011, and continued through September 12, 2011. During this period, funds could not be applied to the employee-selected funds with the New Custodian or withdrawn from the Plan until the New Custodian had time to accurately complete the conversion. During this period, employee contributions continued to be made through payroll deductions and the contributions were deposited and held in the T. Rowe Price Equity Index 500 Fund until the completion of the Black Out period. At the end of the Black Out period, these funds were transferred and invested in funds as requested by each participant. In addition, the Plan was amended to provide six additional investment funds in which participant contributions to the Plan may be invested. The Plan was also amended to provide a discretionary Company match of 25% of a participant's contributions. In addition, the Plan was amended to allow participant loans.

Change in Plan Year

Effective January 1, 2012, the Plan amended its plan year to a calendar year ending December 31. As a result, the Plan has a short year for the period July 1, 2011 to December 31, 2011.
