A Description of Plan.

The following description of the American Furniture Warehouse 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1 **General.** The Plan is a defined contribution plan consisting of a 401(k) Plan and a Profit Sharing Plan. The Plan covers all full time employees of the Company who have six months of service, and are age twenty-one or older. An employee must be employed on the last day of the Plan year in order to be eligible to receive the Company's discretionary annual profit sharing contribution. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2 **Contributions.** Each year, participants may contribute up to 18% of pretax annual compensation as defined in the Plan, or up to the maximum annual limit as set forth by the Internal Revenue Service. For the years ended December 31, 2011 and 2010, the amount was $16,500 for both years. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may, at its discretion, make a contribution in an amount to be determined each Plan year, and allocated according to the Plan. Contributions are subject to certain limitations.

3 **Participant Accounts.** Each participant's account is credited with the allocation of (a) the participant's contributions, (b) the Company's contribution, (c) Plan earnings, (d) participant rollovers, and (e) forfeitures of terminated participants non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

4 **Vesting.** Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

5 **Investment Options.** Upon enrollment in the Plan, contributions will be allocated between accounts as directed by the participant in accordance with the investment allocation form provided by the employer. Participants may change their investment options at any time.

A Description of Plan. (Continued)

6 **Forfeited Accounts.** At December 31, 2011 and 2010, the balance of the forfeited accounts totaled $435,454 and $363,276, respectively. The forfeiture account balance may first be used to pay Plan expenses and any remaining balance can be used to offset future employer contributions. During the years ended December 31, 2011 and 2010, the Company did not utilize any forfeitures to offset the employer match. Subsequent to the year ended December 31, 2011, the Company utilized $435,454 of forfeitures for employer contributions.

7 **Participant Notes Receivable.** Participants may borrow from their fund accounts a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms generally range from 1-5 years, but may be extended at the discretion of the plan administrator in the case of the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%, determined at the time the loan is granted. Principal and interest is paid ratably through monthly payroll deductions.

8 **Payment of Benefits.** Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

9 **Administrative Expenses.** Certain expenses of maintaining the Plan are paid directly by the Company. Loan administration fees are charged directly to the participant's account and are included in administrative expenses. Administrative expenses paid out of Plan assets for the years ended December 31, 2011 and 2010, were $33,744 and $30,363, respectively.

B Summary of Accounting Policies.

1 **Investment Valuation and Income Recognition.** The investments of all of the funds are presented at fair value based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

B Summary of Accounting Policies. (Continued)

1 Investment Valuation and Income Recognition. (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2 Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

3 Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

4 Payment of Benefits. Benefits are recorded when paid.

5 Subsequent Events. In preparing its financial statements, the Company has evaluated subsequent events through July 9, 2012, which is the date the financial statements were available to be issued. The Company has not identified any material subsequent events that require reporting or disclosure.

C Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

D Fair Value Measurements.

The Plan's investments are reported at fair value in the accompanying Statement of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

D Fair Value Measurements. (Continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels, and all of the Plan's investments are valued using inputs considered Level 1.

Level 1 Fair Value Measurements.

The fair value measurements are based on quoted net asset values of the shares held by the Plan at year end. The fair values of mutual funds are based on the closing price reported on the active market where the individual securities are traded.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010:

E Tax Status.

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter dated March 31, 2008 from the Internal Revenue Service and the plan sponsor believes that the Plan continues to qualify and to operate as designed. As of October 1, 2009, a restated 401(k) Profit Sharing Plan was put into place by the Company to be in compliance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. As of July 9, 2012, the periods from January 1, 2008 through August 23, 2011 were under audit by the U.S. Department of Labor. The ultimate outcome of this audit is not yet determinable. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

F Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
