WADDINGTON NORTH AMERICA, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 1 DESCRIPTION OF PLAN

The following description of the Waddington North America, Inc. (Company) 401(K) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL - The Plan is a defined contribution plan covering all full-time employees of the Company who have 90 days of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS - Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions and the employer contributions into various investment options offered by the Plan. The Plan currently offers under a Group Annuity Contract one general investment account and nineteen pooled separate accounts as investment options for participants. The Company may make matching contributions equal to a discretionary percentage to be determined by the Company each year. During 2011 and 2010, the Company contributed 50% of the first 6% of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

PARTICIPANT ACCOUNTS - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after four years of credited service.

PAYMENT OF BENEFITS - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, substantially equal installments, partial withdrawals, or joint & 100% survivor annuity. If the account is greater than \$1,000 the distribution may be deferred.

FORFEITED ACCOUNTS - At December 31, 2011 and 2010 forfeited nonvested accounts totaled \$26,931 and \$27,770, respectively. These accounts will be used first to reduce expenses related to the administration of the Plan and then to reduce company contributions to the Plan.

AMENDMENT - Effective August 1, 2011, the Plan was amended to reduce the minimum service requirement from one year to 90 days for both deferral and match contributions.

WADDINGTON NORTH AMERICA, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING - The financial statements of the plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

USE OF ESTIMATES - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

PAYMENT OF BENEFITS - Benefits are recorded when paid.

OPERATING EXPENSES - Expenses of maintaining the Plan are paid by the use of forfeitures and then by the Company.

DATE OF MANAGEMENT'S REVIEW- The plan has evaluated subsequent events through October 5, 2012, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS AND INFORMATION CERTIFIED TO BY THE CUSTODIAN

The following unaudited information provided by MassMutual, the custodian of the Plan, as of and for the years ended December 31, 2011 and 2010, was certified by them to be accurate and complete. Investments that represent 5% or more of the Plan's net assets are separately identified.

NOTE 4 FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Accounts (Mutual Funds): Valued at the market quotations of the underlying securities. The underlying securities are mutual funds valued at the quoted net asset value of shares held by the plan at year end.

General Investment Account: Valued at the estimated liquidation value determined within contract specifications. Mass Mutual uses Barclay's Capital Index to determine liquidation value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010:

\$ 169,040

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2011, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2011, there were no significant transfers into or out of Level 3.

NOTE 5 INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2007, the plan entered into a benefit-responsive investment contract with MassMutual Retirement Services (MassMutual). MassMutual maintains the contributions in pooled separate accounts and a general investment account. The general investment account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. MassMutual is contractually obligated to repay the principal and the fixed interest account at a specified interest rate that is guaranteed to the Plan.

Because the general investment account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the general investment account. The general investment account is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$22,606,494 and \$21,843,790 respectively. The crediting interest rate for the general investment account is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

Average yields on the general investment account:	<u>2011</u>	<u>2010</u>
Based on actual earnings	2.65%	2.83%
Based on interest rate credited to participants	2.65%	2.83%

NOTE 6 RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of a contract managed by MassMutual. MassMutual is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Employees of the plan sponsor provide administrative service to the plan. These services include plan oversight and day-to-day plan administration. The plan is not charged by the company sponsor for the services of the employees to the plan.

The plan sponsor paid plan administration expenses of \$8,000 and \$8,000 for the year ended December 31, 2011 and 2010, respectively.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 8 TAX STATUS

The Plan is an adoption of a non-standardized prototype 401(k) profit sharing plan. The Internal Revenue Service has determined and informed the prototype plan sponsor by a letter dated May 11, 2009, that an employer who adopts the plan may rely on the letter with respect to the qualification of its plan under code section 401(a).

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for and tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
