Communication with Those Charged with Governance

October 1, 2012

To the Management of the Hospital Housekeeping Systems Ltd. 401(k) Benefit Plan

We have completed a DOL limited-scope audit of the financial statements of Hospital Housekeeping Systems Ltd. 401(k) Benefit Plan (the "Plan") for the year ended December 31, 2011 and have issued our report thereon dated October 1, 2012. As permitted by 29 CR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated January 31, 2012. Professional standards also require that we communicate to you the following information related to our audit:

Our Responsibility under U.S. Generally Accepted Auditing Standards,

Our responsibility, as described by professional standards and except as discussed in the first paragraph, is to express an opinion about whether the financial statements prepared by management with your oversight are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to management through email.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Notes 1 and 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed but certain disclosures were expanded during 2011. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The disclosures in the financial statements are neutral, consistent, and clear. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no corrected or uncorrected misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 1, 2012.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Information in Documents Containing Audited Financial Statements

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of management of Hospital Housekeeping Systems Ltd. 401(k) Benefit Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Communicating Internal Control Related Matters Identified in an Audit

To the Management of the Hospital Housekeeping Systems Ltd. 401(k) Benefit Plan,

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Hospital Housekeeping Systems Ltd. 401(k) Benefit Plan (the "Plan") as of and for the year ended December 31, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the Plan's internal control to be significant deficiencies:

Plan Oversight Meetings and Minutes

During our audit procedures, we noted that the Plan does not have an oversight board or committee that meets on a regular basis to discuss issues of the plan and review fund

performance. Additionally, it is our understanding that documentation of the Plan Sponsor's activities surrounding fiduciary compliance and meetings held to fulfill the fiduciary duties of the Plan is not currently maintained. As a result of increasing fiduciary risk, we recommend those charged with governance of the Plan should meet at least annually to review the investment returns, review soundness of investments and determine investment strategies, monitor tax and qualification compliance, and approve Plan amendments. Additionally, we recommend that those charged with governance formalize and document their process of reviewing and monitoring the plan through regular committee meetings.

Investment Policy Statement

During our audit, we noted that the Plan Committee has not adopted a formal investment policy. We recommend that those charged with governance adopt a formal investment policy in order that there will be a guideline against which to measure investment performance and fiduciary responsibilities.

This communication is intended solely for the information and use of plan management, and others within the plan, and is not intended to be, and should not be, used by anyone other than these specified parties.

Report of Independent Auditors

To the Participants and Administrator of
Hospital Housekeeping Systems, Ltd. 401(k) Benefit Plan

We were engaged to audit the financial statements and supplemental schedule of Hospital Housekeeping Systems, Ltd. 401(k) Benefit Plan as of December 31, 2011 and 2010 and for the year ending December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustees as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Hospital Housekeeping Systems, Ltd. 401(k) Benefit Plan

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The following description of the Hospital Housekeeping Systems, Ltd. 401(k) Benefit Plan (the "Plan"), is provided for general purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering eligible employees (other than union employees, nonresident employees and those considered highly compensated as that term is defined by the Internal Revenue Code) of the Hospital Housekeeping Systems employer ("Sponsor"). The plan became effective July 1, 1997 and was most recently restated effective September 30, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective June 25, 2010, the Plan's trustee changed from JP Morgan Chase Bank to State Street Bank and Trust Company.

Eligibility

An employee becomes eligible to make salary deferral contributions in the Plan on the first day of the calendar quarter after he/she has completed one month of service and is eligible for employer contributions on the first day of the calendar quarter after completion of six consecutive months of service. Non-exempt hourly-paid employees who are not employed at the Sponsor's headquarters and employees who are not HHS Salaried Personnel are excluded from the matching contribution. To be eligible to receive the discretionary matching contributions, the participant must be employed on the last day of the plan year and must be credited with at least 1,000 hours, unless the employee dies, becomes disabled or reaches normal retirement age.

1. Description of Plan (continued)

Contributions

Each active participant in the Plan may elect to defer an amount up to 75% of the participant's compensation (excluding bonuses, commissions and overtime) subject to annual limitations established by the Internal Revenue Service. Participants who have attained age 50 are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers common collective trust funds and registered investment company funds as investment options for participants.

In addition, the Sponsor may make a matching contribution up to the maximum amounts permitted by the Internal Revenue Service ("IRS"). The Company's matching contribution is discretionary. For 2011, the amount of the match was equal to 50% of the employee's deferral up to a maximum deferral of 7% of plan year compensation. The Company matching contributions are invested directly in the investment option accounts as directed by the participant. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings. Plan earnings are allocated to participant accounts based on account balances.

Vesting

Participants are immediately vested in their contributions and rollovers plus actual earnings thereon. Vesting in the discretionary matching and non-elective contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service (defined as 1,000 hours of service per year). A participant terminating prior to three years of service is 0% vested. Service for years prior to 1997, the year the Plan was established, is not counted for vesting purposes.

1. Description of Plan (continued)

Forfeitures

Non-vested balances of participants' accounts may be subject to forfeiture upon termination of their employment with the Sponsor. A forfeiture occurs in the Plan year in which the participant receives a distribution of their vested account, as defined by the Plan. Forfeited balances of terminated participants' non-vested matching contribution accounts are used to pay plan administrative expenses or to reduce sponsor contributions. During the 2011 plan year, forfeitures totaling $7,628 were used to reduce sponsor contributions. Forfeitures available at December 31, 2011 and 2010 were $5,525 and $6,824, respectively.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to 50% of their vested account balances. Loan transactions are treated as a transfer to (from) the Investment Fund from (to) the Participant Loans Fund. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan's Advisory Committee.

Payment of Benefits

The Plan provides for a lump-sum payment of benefits equal to the vested value of the participant's account upon retirement, death, disability, termination of employment, or for hardship distributions in accordance with Internal Revenue Service allowed provisions. Benefits to participants are recorded by the Plan when actual payment is made.

2. Significant Accounting Policies

Accounting Basis

The financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

2. Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash and cash equivalents may include cash and funds received prior to year end awaiting allocation to the appropriate investment option, if any.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes and supplemental schedule. Actual results could differ from those estimates.

As described in Financial Accounting Standards Board ("FASB") ASC 962-325-35, *Defined Contribution Pension Plans* (formerly FASB Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully-Benefit Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net assets Available for Benefits is prepared on a contract value basis.

2. Summary of Significant Accounting Policies (continued)

Fair Value Measurements

In January 2010, the FASB issued Accounting Standards Update ("ASU") No. 2011-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. This ASU requires that reporting entities should disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers, and in the reconciliation for fair value measurements using significant unobservable inputs, a reporting entity should present separately information about purchases, sales, issuances, and settlements. In addition, for purposes of reporting fair value measurement for each class of assets and liabilities, a reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities; and should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. ASU 2011-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Early application is permitted. The Company's adoption on December 31, 2010 did not have a material impact on the Plan's financial statements and supplemental schedule.

In May 2011, the FASB issued amendments to ASC Topic 820 under ASU 2011-04. The amendments represent the converged guidance of the FASB and the International Accounting Standards Board (the Boards) on fair value measurement and resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term "fair value." The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. The amendments are to be applied prospectively and are effective for nonpublic entities for fiscal years beginning after December 15, 2011 and for public entities for annual reporting periods beginning after December 15, 2011.

Subsequent Events

The Plan evaluated events occurring between the end of the most recent fiscal year and October 1, 2012, the date the financial statements and supplemental schedule were available to be issued.

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments

Investments in registered investment company funds of the Plan are reported at fair value based on quoted prices in active markets. The common/collective trust funds are stated at fair value as determined by the issuer based on the fair value of the underlying investments. Purchase and sale of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- *Level 1*: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- *Level 2*: Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- *Level 3*: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

2. Significant Accounting Policies (continued)

Valuation of Investments (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

- *Registered investment companies (e.g., mutual funds)*: Based on quoted prices in active markets based on number of shares held by the plan at year end, less asset charges.
- *Common collective trust (SSGA International Index, SSGA S&P 500 Index Fund, SSGA Stable Value Fund, SSGA S&P Midcap Index Fund, Invesco Stable Value Fund*): The Stable Value Fund and Index Funds are common/collective trust funds for which State Street Bank and Trust Company acts as custodian. The net asset value (NAV) is based on the market value of its underlying investments. The NAV is not a publicly-quoted price in an active market. ASC 820 information on the State Street Bank and Trust Company's Stable Value, Invesco Stable Value and Index Funds' underlying assets and their assigned fair value hierarchy was obtained from the audited financial statements that are made available to applicable plan sponsors.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Expenses

The Plan is responsible for payment of the trustee expenses and fees; however, the Company may pay the Plan expenses directly. Transaction charges for loan and benefit payment transactions are paid by the Plan by reducing the balances of those participants initiating the transactions.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010, and net depreciation in fair value of investments and investment income for the year then ended was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust, the trustee of the Plan.

The fair value of individual investments that represent 5% or more of the Plan's net assets at either December 31, 2011 or 2010, are as follows:

	2011	2010
SSgA Stable Value Fund	**$ –**	$ 210,098
Invesco Stable Asset Fund	**331,223**	–
American Century Strategic Allocation Fund-Aggressive Fund	**408,488**	462,663
American Century Strategic Allocation Fund-Moderate Fund	**164,822**	653,103
Janus Balanced Fund	**348,685**	290,739

4. Investments in Stable Value Fund

During the year ended December 31, 2011, the Plan replaced its investment in the SSGA Stable Value Fund with an investment in the Invesco Stable Value Fund. The information provided below is applicable to both investment options, except as noted below.

Both Stable Value Funds invest in a representation of guaranteed investment contracts, bank investment contracts and/or a wrapped portfolio of fixed income instruments ("synthetic investment contracts" or "Synthetic GICs"). Collectively, these contracts are referred to as investment contracts. As described in FASB ASC 962-325-35, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of an investment company attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying deemed contribution plans. The contract value represents principal contributions made by participants, plus interest accrued at a crediting rate established under the contract, less participant withdrawals and administrative expenses. The Plan's management has determined that the contract value of the Plan's fully benefit-responsive investment contracts as of December 31, 2011 approximates fair value.

The Crediting Rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The Crediting Rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the covered investments. Depending on the change in duration from each reset period, the magnitude of the impact to the Crediting Rate of the contract to market difference is heightened or lessened. The Crediting Rate can be adjusted periodically and is usually adjusted either monthly or quarterly, but in no event is the Crediting Rate less than zero.

4. Investments in Stable Value Fund (continued)

The Crediting Rate may be impacted amongst other things, by volatility and illiquidity in the fixed-income securities market. If the market value of the underlying investments is lower than their contract value, the Crediting Rate may be lower than the return on the underlying investments. Contributions from participants may increase market value attributed to the underlying investments and increase the Crediting Rate and the Fund's return. Redemptions may have an opposite effect, where if the Fund experiences significant redemptions when the market value is below the contract value, the Fund's return may be reduced to zero.

The average yield based on actual income was approximately 1.29% for the Invesco Stable Value Fund on December 31, 2011. The average yield based on interest rates credited to participants was approximately 1.72% for the Invesco Stable Value Fund on December 31, 2011. The average yield based on actual income was approximately 1.99% for the SSGA Stable Value Fund on December 31, 2010. The average yield based on interest rates credited to participants was approximately 2.18% for the SSGA Stable Value Fund on December 31, 2010.

Investment contracts are valued at contract value principally because participants are able to transact at contract value when initiating benefit-responsive withdrawals, taking loans or making investment option transfers permitted by the participating plan. A benefit-responsive withdrawal includes a payment to a participant arising from retirement, termination of employment, disability or death. In the normal course, participant events are predictable (for participants as a group) such that the economic integrity of investment contracts is largely unaffected by participant withdrawals. Employer initiated events, if material, may affect the underlying economics of investment contracts. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust or other events. The occurrence of one or more employer initiated events could limit the Fund's ability to transact at contract value with plan participants.

Investment contracts generally impose conditions on both the Fund and the issuer (also referred to as the "wrap provider"). Assuming conditions are met and neither the Fund nor the issuer is in default, the Fund can buy and sell covered investments and process withdrawals through the sale of covered investments in accordance with the Fund's liquidity hierarchy.

4. Investments in Stable Value Fund (continued)

If an event of default, within the meaning of an investment contract, occurs and is not cured, the non-defaulting party may terminate the contract. The following (among other events) may cause the Fund to be in default: a breach of material obligation under the contract; a material misrepresentation; a material amendment to the trust agreement, in the administration of the trust or in the investment of fund assets without consent from the issuer; and an uncured violation of the Fund's investment guidelines.

5. Transactions with Party-in-Interest

Fees paid during 2011 for investment management fees, professional fees and third-party administrative services are based on customary and reasonable rates for such services, and were paid in part by the Plan Sponsor.

The Plan assets include investments in funds managed by State Street Bank and Trust, trustee. Transactions with the trustee qualify as party-in-interest transactions under ERISA. Participant loans also qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of the termination of the Plan, the individual accounts of all members shall become fully vested. After deducting all charges and expenses, the balances of all individual accounts will be adjusted and the remaining assets distributed.

7. Income Taxes

Effective March 1, 2009, the Plan adopted the Automatic Data Processing Nonstandardized 401(k) Plan, which has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is tax-exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype opinion letter. The Plan has also adopted required and discretionary amendments. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirement of the Code and, therefore, believes that the Plan is qualified and the related trust is exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2011 and 2010:

	December 31, 2011	2010
Net assets available for benefits per the financial statements	**$ 2,950,729**	$ 3,263,819
Amounts allocated to employer contributions	**(138,555)**	(133,221)
Net assets available for benefits per the Form 5500	**$ 2,812,174**	$ 3,130,598

The following is a reconciliation of contributions per the financial statements to the Form 5500 for the year ended December 31, 2011:

Contributions per the financial statements	**$ 532,719**
Add: Prior year employer contributions	**133,221**
Less: Current year employer contributions	**(138,555)**
Contributions per the Form 5500	**$ 527,385**

Employer matching contributions receivable are accrued on the financial statements, but not included on the Form 5500 until received.
