Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in employee contributions, rollovers, and any income and loss thereon. Vesting in the Company's contribution portion of participants' accounts, plus actual earnings thereon, is based on years of continuous service, as defined by the plan document. A participant is 20 percent vested after one year of credited service and vests an additional 20 percent each year thereafter until 100 percent vested after five years of credited service.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures may be used to reduce the Company contributions or administrative expenses of the Plan. At December 31, 2011 and 2010, forfeited accounts totaled \$17,901 and \$16,770, respectively. During 2011, forfeitures of \$20,155 were used to reduce Company contributions.

Participant Notes Receivable - Participants may borrow between \$1,000 and \$50,000 (but not in excess of 50 percent of the participant's current vested account balance, less outstanding loans) from the Plan at interest rates determined in accordance with the Plan. Repayment terms in general may not exceed five years, except for the purchase of a principal residence. Principal and interest are paid ratably through payroll deductions.

Party-in-interest Transactions - The Plan invests in certain investments managed by Great-West Life & Annuity Insurance Company of First Great-West Life & Annuity Insurance Company (Great-West) and Orchard Trust Company, LLC or its affiliates. Additionally, certain plan expenses are paid by the Company. These transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The unallocated insurance contract is a group annuity contract with Great-West Life & Annuity Insurance Company of First Great-West Life & Annuity Insurance Company that invests in the general assets of Great-West. Great-West considers this contract to be benefit-responsive; however, since there are no specific securities in Great-West's general account related to this contract, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. All other investments are valued based on quoted market prices. See Note 5 for additional information.

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are either paid by the Plan or by the Company at the Company's discretion.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 3, 2012, which is the date the financial statements were available to be issued.

Note 2 - Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncement - In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The standard clarifies existing fair value measurement and disclosure requirements and changes existing principles and disclosure guidance. Clarifications were made to the relevancy of the highest and best use valuation concept and measurement of an instrument classified in an entity's stockholder's equity. Changes to existing principles and disclosures included measurement of financial instruments managed within a portfolio, the application of premiums and discounts in fair value measurement, and additional disclosures related to fair value measurements. The updated guidance and requirements are effective for financial statements issued for the first annual period beginning after December 15, 2011. The adoption of this standard is not expected to have a material effect on the Plan's financial statements.

Note 3 - Unaudited Information

Great-West Life & Annuity Insurance Company of First Great-West Life & Annuity Insurance Company and Orchard Trust Company, LLC (the "Custodians") hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodians.

Significant investments held at the end of the year are as follows:

	2011	2010
Mutual funds:		
American Funds Growth Fund R4	\$ 1,836,068	\$ 2,086,491
American Funds EuroPacific Growth Fund R4	460,964	601,551
Vanguard 500 Index Fund	623,113	803,043
American Beacon Large Capital Value Plan Fund	490,837	621,151
Harbor Bond Fund Institutional	576,536	611,780
Unallocated insurance contract - Key Guaranteed Portfolio Fund	5,703,241	4,993,973

Note 4 - Unallocated Insurance Contract

The Plan has a benefit-responsive investment contract with Great-West's general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

Note 4 - Unallocated Insurance Contract (Continued)

Interest is credited on contract balances using a single portfolio rate approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a quarterly basis for resetting. When establishing interest credit rates for this product, Great-West considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Events that would limit the ability of the Plan to transact at contract value with the issuer or the participant include, but are not limited to, premature termination of the contracts by the Plan, plant closings, layoffs, Plan termination, bankruptcy, mergers, and early retirement incentives. The merger of the Plan as described in Note 7 has not affected the Plan's ability to transact at contract value.

The average yield earned by the Plan and the average credited to participants was 2.61 percent and 3.21 percent for the years ended December 31, 2011 and 2010, respectively. The average credited to participants was 2.61 percent and 3.21 percent for the years ended December 31, 2011 and 2010, respectively. The minimum interest rate allowed under the contract is 0 percent.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Notes to Financial Statements December 31, 2011 and 2010

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include original transaction price, quoted prices for similar securities or assets in active markets, completed or pending third-party transactions in the underlying investment or comparable issuers, credit risk of issuer, and changes in financial ratios or cash flows.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Tax Status

The Plan has received a determination letter dated March 11, 2011 from the Internal Revenue Service, indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2008.

Note 7 - Subsequent Events

Subsequent to year end, the Plan was merged into two plans. Union employees were merged into the Marmon Consolidated Retirement Plan and nonunion employees were merged into the Marmon Employees' Retirement Plan. Accordingly, all assets of the Plan were liquidated and transferred to the custodian of the Marmon Consolidated Retirement Plan and Marmon Employees' Retirement Plan. Subject to the liquidation of the assets, the Plan terminated and the final Form 5500 will be filed as of May 31, 2012.
