H.H. BROWN SHOE COMPANY, INC. 401(k) PLAN FOR WHOLESALE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2011 AND 2010

NOTE 1 – DESCRIPTION OF THE PLAN

GENERAL INFORMATION

The H. H. Brown Shoe Company, Inc. 401(K) Plan for Wholesale Employees (Plan), established January 1, 1989 and amended as of January 1, 2010 is a defined contribution plan covering all full time non-union and non-retail employees of H. H. Brown Shoe Company, Inc. and affiliated companies (Company) who have at least one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

CONTRIBUTIONS

All eligible employees who do not affirmatively elect not to contribute or have a specific amount contributed to the Plan, will automatically have their compensation reduced by three percent as a contribution to the Plan invested in a predetermined account.

Participants may make contributions to the Plan by means of a salary deferral agreement. Participants may elect to defer up to 50 percent of their compensation. The Company makes matching contributions of 50 percent on the first 6 percent of a participant's salary deferral. Additionally, participants may elect one of several available options of investing in a group annuity contract or separate pooled accounts. Contributions are subject to certain limitations.

PARTICIPANTS' ACCOUNTS

Each participant's account is credited with the participant's contribution, the Company's matching contribution and actual earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Participants are allowed self-directed investment options, in which case the directed investment account is charged with or credited with the net earnings, gains or losses, as well as any appreciation or depreciation in market value attributable to such account.

VESTING

Participants are immediately vested in their elective contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of credited service. A participant is 100 percent vested after six years of credited service.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTES RECEIVABLE FROM PARTICIPANTS

The Company may, at its discretion, make loans to participants on a reasonably equivalent basis that shall bear a reasonable rate of interest and shall provide for repayment over a reasonable period of time. Loans shall be limited to the lesser of $50,000 or one-half of the vested interest of the participant. Each participant is limited to two loans outstanding at one time.

FORFEITED ACCOUNTS

At December 31, 2011 and 2010 forfeited non-vested accounts totaled $201,621 and $218,772 respectively. These accounts will be used to reduce plan expenses and future employer contributions. Also, in 2011 plan expenses were reduced by $33,984 from non-vested accounts.

PAYMENT OF BENEFITS AND WITHDRAWALS

On termination of service due to death, disability, retirement or other reasons, a participant (or a participant's beneficiary, in event of death) may elect to receive the balance in his or her account either in the form of a lump sum equal to the value of the participant's vested interest in his or her account, or installments over a designated period not to exceed the life expectancy of the participant or the participant and his or her designated beneficiary.

The Plan also allows for hardship withdrawals of part or all of a participant's vested balance limited to the participant's accounts of elective deferral and rollover.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

BASIS OF ACCOUNTING (CONTINUED)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for plan benefits, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains or losses and unrealized gains or losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan documents.

ADMINISTRATIVE EXPENSES

Certain administrative functions are performed by officers or employees of the Plan's sponsor. No such officer or employee receives compensation from the Plan. Certain administrative costs related to advisory, audit and accounting services provided to the Plan are absorbed directly by the Plan's sponsor. Transaction based fees associated with optional services offered under the Plan, such as a plan loan, are paid for by the participants.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities and funds. These securities and funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities and funds, it is at least reasonably possible that changes in values of the investment securities and funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts included in the Statement of Changes in Net Assets Available for Plan Benefits during the reporting period. Actual results could differ from those estimates.

NOTE 3 – FAIR VALUE MEASUREMENTS ON INVESTMENTS

FASB ASC 802 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 – FAIR VALUE MEASUREMENTS ON INVESTMENTS (CONTINUED)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Pooled Separate Accounts

The fair value of the participation units owned by the Plan in the pooled separate accounts is based on the net assets of the underlying of securities on the last business day of the Plan year as determined by Massachusetts Mutual Life Insurance Company (MassMutual).

Guaranteed Investment Contract

Investment contracts are presented at fair value. The fair value of the Plan's interest in a guaranteed investment contract is based upon the fair value of the fund's underlying managed group annuity contract, as reported by the insurance company issuer of the contract. Contract value represents contributions and reinvested income, less any withdrawals, plus accrued interest, because these investments have fully benefit-responsive features. Under certain conditions, participants may receive less than the contract value of their accounts invested in the investment contracts, as determined by MassMutual. As of December 31, 2011, there were no reserves against contract values for credit risk of contract issuers or otherwise. The guaranteed interest rate was 3.25% and 3.45% as of December 31, 2011 and 2010, respectively.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 – FAIR VALUE MEASUREMENTS ON INVESTMENTS (CONTINUED)

NOTE 4 – SUMMARY OF INFORMATION CERTIFIED BY CUSTODIAN

The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by MassMutual as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

The fair value of investments held by MassMutual at December 31, 2011 and 2010 was $31,001,166 and $29,810,306, respectively.

Adjustment from fair value to contract value for fully benefit-responsive investment contract within the general investment account at December 31, 2011 and 2010 was ($1,504,239) and ($1,112,224), respectively.

Notes receivable from participants at December 31, 2011 and 2010, including unpaid principal balances plus accrued but unpaid interest, were $642,240 and $552,268, respectively.

During 2011, the Plan's investments pooled separate accounts including those acquired, disposed of, as well as held during the year depreciated in value by $192,916.

Interest income from the general investment account for the year ended December 31, 2011 was $365,424. Interest income from the notes receivables from participants for the year ended December 31, 2011 was $26,769.

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits, certified by MassMutual, at December 31, 2011 and 2010:

NOTE 5 – CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive group annuity contract with MassMutual which is maintained in the general investment account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. The group annuity contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the contract at December 31, 2011 and 2010 was $13,012,300 and $11,497,130, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but such interest rates are reviewed on a semi-annual basis for resetting. The guaranteed interest rate under the contract was 3.25% and 3.45% at December 31, 2011 and 2010, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Average Yields	2011	2010
Based on actual earnings	2.98%	3.16%
Based on interest rate credited to participants	2.98%	3.16%

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of funds managed by MassMutual. MassMutual is the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net depreciation in fair value of investments.

NOTE 7 – REPORTABLE TRANSACTIONS

There were no material lease or other commitments, no contingent liabilities and no prohibited transactions. There were no reportable party-in-interest transactions that were not covered by an exemption under Section 408 of ERISA.

NOTE 8 – INCOME TAX STATUS

The plan is a prototype plan designed to be qualified under applicable provision of the Internal Revenue Code and is not subject to federal and state taxes. Participants are not subject to federal and state income taxes on their elective deferrals, matching contributions or other contributions, or on income accruing to their accounts, until they receive distributions from the Plan.

The prototype plan obtained an opinion letter on May 11, 2009, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

The plan administrator and the Plan's tax counsel believe that the Plan, as it is currently designed and being operated, is in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan administrator and Custodian intend to amend the Plan on a timely basis to comply with all applicable, recently adopted tax laws and regulations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to December 31, 2008.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Schedule H of Form 5500:
