SOUTHERN EAGLE DISTRIBUTING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2011 and 2010

(1) Description of Plan

The following description of the Southern Eagle Distributing, Inc. 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, which commenced on January 1, 1989, is a defined contribution retirement plan covering substantially all employees of Southern Eagle Distributing, Inc. (Sponsor) who have attained the age of 18, have completed one year of service, and who have completed one thousand hours of service within a year. Employees are eligible to enter the Plan on the first day of the plan year or the first day of the seventh month of the plan year coinciding with or the next date following completion of these requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Sponsor's Plan is based on a prototype plan developed by ING Life Insurance and Annuity Company. Participants may contribute up to the maximum percentage allowed by the Internal Revenue Code, currently at 100% of eligible compensation.

(b) Contributions

Participants may contribute up to 100% of their pretax compensation, as defined in the Plan Agreement, subject to certain IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Sponsor may make matching contributions equal to a discretionary percentage, to be determined by the Sponsor's Board of Directors, of the participant's elective deferrals. In 2011 and 2010, the Sponsor contributed 50% of the first 5% of compensation that a participant contributed to the Plan.

(c) Participant Accounts

Each participant's account is credited with the participant's pretax, voluntary and rollover contributions, the participant's pro rata share of the Sponsor's contribution, and an allocation of the Plan's earnings and expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately 100% vested in their voluntary and rollover contributions plus or minus actual earnings or losses thereon. Vesting in the Sponsor's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested at the normal retirement age of 65, death, disability, and after five years of credited service as follows:

Years of Service	Vesting Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the maximum, when aggregated with all outstanding loans of the participant from the Plan, of equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's vested interest in the assets of the Plan and bear a reasonable rate of interest at prime plus 1% unless the Administrator determines otherwise. Loans are to be repaid in level installments of principal and interest over a term not to exceed 5 years unless the loan is to acquire a principal residence for the Participant where the repayment schedule is not to exceed 10 years.

(f) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or in substantially equal installments over a period of time as specified by the Plan. Participants may withdraw certain amounts from the Plan under hardship withdrawal provisions or upon reaching the age of 59 ½ years while employed with the Sponsor.

(g) Forfeitures

Forfeited non-vested accounts, inclusive of investment earnings, may be used to pay administrative expenses or reduce future Sponsor contributions. As of December 31, 2011 and 2010, the Plan had forfeited non-vested accounts of $23,070 and $18,670, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting.

(Continued)

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for its benefit-responsive investment contract, which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. The net appreciation in fair value of investments, which reflects the net unrealized appreciation, interest, dividends, and realized gain on investments, is reflected within the statements of changes in net assets available for plan benefits.

The Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market, and credit risks.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported changes in net assets during the reporting period. Actual results could differ from those estimates.

(f) Administrative Fees and Expenses

Administrative fees and expenses may be paid from either Plan forfeitures or by the Sponsor. Loan administrative expenses are paid from the individual borrowing participant's Plan account.

(g) Risks and uncertainties

The Plan invests in various investment funds that are subject to various risks that determine the value of the fund. Due to the level of risk associated with certain financial instruments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in market conditions in the near term could materially affect participant's account balances and the value of investments reported in the financial statements.

(Continued)

SOUTHERN EAGLE DISTRIBUTING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements

(3) Investments (Unaudited)

The Plan's Sponsor has received certifications from ING Life Insurance and Annuity Company (ING) as to the accuracy, completeness, and valuation of investments as of and for the years ended December 31, 2011 and 2010, respectively.

As of December 31, 2011 and 2010, investments are participant directed and consist of the following (investments representing 5% or more of the Plan's net assets as of December 31, 2011 are separately identified):

		2011	2010
ING Fixed Account	$	1,417,347	1,074,295
Templeton Funds Franklin Small Cap Value Securities Fund		407,289	410,409
Wanger Select		400,882	631,082
American Funds The Growth Fund of America		283,378	264,081
ING Intermediate Bond Portfolio		280,776	243,369
Other funds		1,574,250	1,610,485
Total	$	4,363,922	4,233,721

The ING Fixed Account is a fully benefit-responsive investment contract. The adjustment to reflect their investment in the accompanying financial statements at contract value was $(74,479) and $(10,122) as of December 31, 2011 and 2010, respectively. The average yield earned by the fund and credited to participants was 3% for both 2011 and 2010.

The Plan earned interest and dividend income of $38,534 and $24,846 during the years ended December 31, 2011 and 2010, respectively. The net appreciation (depreciation) of the Plan's investments, including gains and losses on investments purchased and sold, during the years ended December 31, 2011 and 2010, amounted to $(150,444) and $501,292, respectively.

(4) Fair Value of Investments

The Plan follows the provisions of the Fair Value Measurements and Disclosures Topic of the FASB ASC, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

(Continued)

The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds – Valued indirectly at quoted market prices and as adjusted for an accumulation of fund earnings, which collectively represent the accumulated asset value of shares held by the Plan at year end.

Unallocated investment contracts – Valued indirectly by considering a seven year Treasury Bond rate, the fixed account interest rate, and the date of contract issuance.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
