NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Wabash Technologies ("the Company") 401(K) Plan ("Plan"), participants previously participating in the KNI Group 401(K) and Profit Sharing Plan, provides only general information. Participants should refer to the Plan agreement and Summary Plan Description for a more complete description of the Plan's provisions.

1. General – Effective October 1, 2007, Wabash Technologies separated from participating in the KNI Group 401(K) and Profit Sharing Plan and all eligibility service, vesting service, accrual service, participation accounts, vested interest in accounts, rights and obligations, and all other assets and liabilities of the prior Plan (KNI Group 401(K) and Profit Sharing Plan) with respect to the employees of Wabash Technologies were transferred to Wabash Technologies 401(K) Savings Plan.

   The Plan benefits are available to all employees who have completed 90 days of employment. The Plan is subject to the provisions of the Employee Retirement Income Act of 1974 (ERISA).

2. Contributions – Participants may authorize a tax-deferred deduction of 1% to 50% of their compensation each pay period, subject to Internal Revenue Code limitations. The Company and its participating subsidiaries may contribute matching contributions at a rate of 100% of the first 1% of the participant contribution, plus 50% of the next 5% of the participant contribution, not to exceed 3.5% of the participants compensation. For the year ended December 31, 2011, the Company did not contribute to the Plan.

3. Participant Accounts - Participant accounts are credited with the participant's contribution, actual earnings and allocation of the Company's contribution. Allocations are based on participant earnings or account balances, as defined. All amounts in participant's accounts are participant-directed.

4. Vesting – Participants are fully vested in employer contributions after the completion of two years of service, or if death or disability (approved by social security) ends your employment, or if the participant satisfy the conditions for retirement. Participant contributions and catch-up and rollover contributions are always 100% vested.

5. Investment Options - Upon enrollment in the Plan, a participant may direct participant and employer contributions in any of the Plan's investment options.

NOTE A - DESCRIPTION OF THE PLAN - CONTINUED

6. Participant Loans – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50% of the participant's entire vested balance. Loan transactions are treated as a transfer from the respective investment funds to the loan fund. Loan maturities must be no more than 60 months unless used to acquire the borrower's principal residence. Principal and interest payments are paid ratably through payroll deductions. At December 31, 2011 and 2010 participant loans totaled $372,412 and $390,283 respectively.

7. Benefit Payments – The vested value of a participant's account is payable in a lump sum following termination of employment, retirement on or after early, normal or deferred retirement date or upon disability. Withdrawals by active participants are subject to hardship restrictions.

8. Forfeited Accounts – Employer contributions that have not vested are forfeited upon termination of employment. Forfeited amounts are to be applied to reduce employer matching contributions in the succeeding plan year. During 2010, there were no forfeitures used to reduce employer matching contributions.

9. Administrative Expenses – The Company pays for all administrative expense directly related to administrating the plan and the plan pays all investment and record keeping fees out of the plan assets.

10. Plan Termination – Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, the net assets are to be allocated to the participants on the basis of their individual interests.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because

NOTE B - SUMMARY OF ACCOUNTING POLICIES – CONTINUED

contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note C for a discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded as earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Certain separate accounts (primarily Transamerica-managed funds and certain wrap accounts) are subject to investment management fees and/or administration fees. Both of these fees are netted in calculating the unit values of the separate accounts. Accordingly, the fees are reflected as part of the separate account fund performances rather than as contract withdrawals.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE B - SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All administrative and non-settlor expenses of maintaining the Plan are the responsibility of the Plan.

NOTE C - FAIR VALUE MEASUREMENTS

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (ASC 820), formerly SFAS 157, which establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are defined as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The Plan's investment assets at fair value, within the fair value hierarchy, as of December 31, 2011 and 2010 are as follows:

NOTE C - FAIR VALUE MEASUREMENTS - CONTINUED

Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets (Level 1). Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities (Level 2).

The investment contracts with insurance companies represent investments in the Transamerica Stable Value and Transamerica Stable Value Advantage Options (collectively "Stable Value Options"). The Stable Value Options investment choices are invested in the general account of the insurance companies issuing the contract and are not separate account investment choices. The Stable Value Option investment choices are backed by the general account of Transamerica Life Insurance Company ("TLIC") or Transamerica Financial Life Insurance Company ("TFLIC"). While TLIC and TFLIC declare rates periodically and back the principal and interest of these investment choices, any guarantees are subject to the claims paying ability of the insurance company. This investment choice is not guaranteed by the FDIC or any other governmental agency. These investments have no stated maturity and are non-tradable obligations of Transamerica. The Stable Value Options investment choices allow participants reasonable access to their assets. The terms of Transamerica's Group Annuity Contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions; however, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable-for example, a significant decline in creditworthiness of Transamerica, the Stable Value Option investment choice may no longer be considered fully benefit-responsive. Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable. Interest rates are reset monthly as of the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. The average credited interest rates, which approximated the yields, for the years ended December 31, 2011 and 2010 ranged from 2.9% to 3.42%, respectively. The credit ratings for the insurance companies issuing contracts containing the Stable Value Option investment choices are as follows:

Insurance Company	A.M. Best	Moody's	Fitch	S&P
TLIC	A+	A1	AA-	AA-
TFLIC	A+	A1	AA-	AA-

NOTE C - FAIR VALUE MEASUREMENTS - CONTINUED

Assets held in the Stable Value Options investment choices are commingled with assets in the general account. There is no specific portfolio of assets in which the Stable Value Options investment choices invest, so no financial statements are available. The credited interest rate is backed by the income received from assets held in the general account. In accordance with the Financial Accounting Standards Board's guidance, this type of investment is considered fairly valued at contract value; accordingly, the contract value is the fair value reported in these financial statements. Interest income earned on the Stable Value Options investment choices for the year ended December 31, 2011 totaled approximately $140,959.

NOTE D – INVESTMENTS

The December 31, 2011 and 2010 Statements of Net Assets Available for Benefits, the activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010, and the accompanying notes and supplemental information were prepared in part or entirely from information certified by the Trustee (Transamerica Life Insurance Company) in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $9,930,059 and $10,304,390 at December 31, 2011 and 2010, respectively, and related investment loss and interest income of ($9,756) for the year ended December 31, 2011.

The following table represents investments that represent 5 percent or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010:

	2011	2010
Transamerica Stable Value	$ 5,288,896	$ 5,016,896
Transamerica Partners Total Return	$ 766,577	$ 718,929
Transamerica AA Conservative	$ 888,669	$ 879,826
Transamerica Equity Fund	$ 389,567	$ 534,102

NOTE E – INCOME TAX STATUS

The Plan is relying on a determination letter from the IRS received on April 17, 2002, when it was part of KNI Group 401(K) Plan to be in compliance with all applicable requirements of the Internal Revenue Code (IRC). On July 29, 2010 Wabash Technologies 401(K) Plan received a favorable determination from the IRS. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

NOTE F – RISK AND UNCERTAINTIES

The Plan provides for various investment options including mutual funds and fully-benefit responsive investment contracts (the Stable Value Option). Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits. Mutual funds may invest in securities obligations and mortgage-backed securities, including securities backed by subprime mortgage loans.

The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. The values of investments reported in these financial statements were based on market values as of the year-ends presented.

NOTE G – RELATED PARTY TRANSACTIONS

Certain investments are invested in registered investment companies managed by Transamerica Trust Company. Transamerica Trust Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest. Total expenses paid to Transamerica was $28,718 for the year ended December 31, 2011.

NOTE H – SUBSEQUENT EVENT

The Plan trustees have evaluated events and transactions for potential recognition or disclosures through October 8, 2012 which is the same date these financial statements were available to be issued.
