NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Accra Manufacturing, Inc. 401(k) Plan ("the Plan") provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of eligible employees of Accra Manufacturing, Inc. ("the Company"). Management of the Company manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility and Vesting

All employees who are not covered under a collective bargaining agreement who have attained age 18 and completed six months of service are eligible to participate in the Plan. Employee contributions and related net earnings are 100% vested at all times. Employer contributions and related net earnings become vested to the participant based on the following schedule of years of service:

<u>Completed Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20
3	40
4	60
5	80
6 or more	100

Additionally, a participant becomes 100% vested when the participant reaches normal retirement age (65), dies, or becomes disabled while in the service of the Company.

Contributions

In general, participants may voluntarily elect to defer up to 100% of eligible annual compensation to the Plan, subject to the applicable limits of the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans ("rollovers from other qualified plans").

Through December 1, 2010, the Company made matching contributions to the Plan equal to 50% of the participant's contribution up to 5% of their compensation. Effective December 1, 2010, the Plan was amended to change the Company's matching contribution to the Plan to be equal to 50% of the participant's contribution up to 10% of their compensation. In 2010, highly compensated employees, as defined by the Plan, are not eligible to receive matching contributions. On January 1, 2011, the Plan was amended so that highly compensated employees are eligible to receive matching contributions. The Company has the option to make additional discretionary contributions. All contributions by the Company in 2011 and 2010 were matching contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, Plan earnings and losses, and administrative expenses. Allocations of earnings and losses are based on a participant's account balance. A participant is entitled to the benefit that can be provided from the participant's vested account.

Participants direct their proportionate share (vested and non-vested) of Plan assets to a variety of investment funds.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates determined by the Plan administrator on the date of the loan (resulting in rates that range from 4.25% to 7.00% at December 31, 2011). Loan terms cannot exceed five years unless the loan is for the purchase of a primary residence. Loan repayments are generally required through payroll deductions each pay period. In the event of default, loans can be considered deemed distributions. As of December 31, 2011, loans outstanding to three participants comprised 48% of total loans to participants. As of December 31, 2010, loans outstanding to three participants comprised 61% of total loans to participants.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant or the participant's beneficiary is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Distributions can also be made during a participant's employment upon attainment of age 59 1/2 or under certain hardship provisions as defined within the Plan document.

Forfeitures

Provisions of the Plan provide that upon termination of employment, participants are entitled to receive their vested portion of the net assets of the Plan. Any amounts not vested at the time of termination are forfeited and available to reduce future employer contributions or to pay administrative expenses of the Plan. Forfeitures were \$6,091 and \$1,555 in 2011 and 2010, respectively. In 2011, forfeitures of \$2,700 were used to reduce employer contributions. In 2010, forfeitures of \$1,427 were used to pay administrative expenses and \$1,023 were used to reduce employer contributions. At December 31, 2011 and 2010, unused forfeitures available totaled \$4,322 and \$931, respectively.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Contributions

Contributions from participants are recorded in the period in which they are withheld from the participant's compensation. Matching contributions from the Company are recorded in the period in which the related participant contributions are recorded.

Notes Receivable from Participants

Notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses relate to Plan administration and custodianship of investments. The majority of administrative expenses are paid by the Company as allowed by the provisions of the Plan.

Excess Contributions

Certain contributions are considered to be excess contributions based on year-end compliance test results performed by the Plan's third party administrator and are required to be refunded to the participants. At December 31, 2010, the Plan had excess contributions payable of \$15,352. There were no excess contributions payable at December 31, 2011. Excess contributions are refunded to the participants in the following year.

Investment Valuation and Income Recognition

Investments are stated at fair value. Pooled separate accounts consist of a wide variety of underlying investments (primarily mutual funds). They are valued using the Net Asset Value ("NAV") provided by administrators of the pooled separate accounts. The NAV is based on the fair value of the underlying assets, less any liabilities, then divided by the number of shares outstanding. The underlying investments of the pooled separate accounts are determined based on quoted prices in an active market. Investments in insurance company general accounts are valued by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. There are three levels which prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Observable market inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

An asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables represent information about the Plan's assets that have been measured at fair value on a recurring basis as of December 31, 2011 and 2010, and indicate the classification by level of input within the fair value hierarchy described above:

Subsequent Events

The Plan has evaluated subsequent events through the date the financial statements were available to be issued, which was the same date as the independent auditors' report.

Effective July 2, 2012, the Plan was merged into another defined contribution retirement plan, the Precision Castparts Corp. 401(k) Retirement Savings Plan, which is sponsored by Precision Castparts Corp ("PCC"). PCC acquired the Company in 2011 and the Company's plan trustees approved the merger into PCC's plan. Assets related to accounts of participants that had been included in the Plan were fully transferred in to the Precision Castparts Corp. 401(k) Retirement Savings Plan on July 2, 2012, which effectively terminated the Plan.

Note 3. Plan Tax Status

The Plan has adopted a non-standardized prototype sponsored by its third party administrator. The prototype has received a favorable determination from the Internal Revenue Service on January 15, 2010. The Company has not received a determination letter as to the qualified status of the Plan's adoption agreement. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Service.

The Plan's federal tax returns are open to examination for the years ended December 31, 2008 to 2011.

Note 4. Investments
