Notes to Financial Statements
December 31, 2011 and 2010

1. DESCRIPTION OF PLAN

The United Pumping Service, Inc. Profit Sharing and 401(k) Plan (the Plan) was formed on June 30, 1977. The following description of the Plan is for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of United Pumping Service, Inc. (the Company) who have completed one year of service and attained age 18 or older. The Plan entered into a custodial arrangement with Great-West Life & Annuity Insurance Company (the Custodian). The plan administrator controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee and Employer Contributions - Each year, participants may contribute from 0% to 100% of their pre-tax annual compensation up to the amount that is limited by the Internal Revenue Service. The IRS limit for 2011 is $16,500 and the catch up contribution limit for age 50 or older is $5,500. The Company may make matching and discretionary contributions on behalf of each eligible participant at a certain percentage or a dollar amount determined by the Company's board of directors each year. During 2011, the Company did not make any matching contributions

Participant Accounts - Each participant account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions and actual earnings thereon. Vesting in the employer's contribution portion of the participants' accounts plus actual earnings in the Plan is based on the following schedule:

Years of service completed	Vesting Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Participants become fully vested, regardless of the vesting table, upon reaching normal retirement age of 65, and also upon permanent disability, death or deferred retirement. Participants who have 20 years of service may also withdraw from the Plan.

Withdrawals - Participants may receive a distribution from the Plan prior to their termination of employment and they can withdraw from the Plan in the event of financial hardship if they satisfy certain conditions. Generally, participants may request a pre-retirement withdrawal or a hardship distribution from their fully vested accounts in the Plan. The amount of hardship distribution cannot exceed the amount needed to meet the immediate financial hardship. In addition, the distribution will be limited to the amount of a participant's contributions. Participants may be entitled to receive a pre-retirement distribution if he or she has reached age 59½. There were two hardship distributions during the year.

Notes Receivable from Participants - The Plan has adopted a loan program to provide loans to plan participants. Loans are available to all participants, except owner-employees or shareholder-employees, on a reasonable, equivalent basis. They also bear reasonable rates of interest and are adequately secured. The maximum amount of which a loan may be made is the lesser of $50,000 or 50% of vested interest of the participant in the Plan. The maximum amount of $50,000 will be reduced by a participant's highest outstanding loan balance in the previous twelve months even if amounts have been repaid. The minimum amount of any loan is $1,000. All loans are required to be repaid within 5 years of the date of the loan. However, if a loan is for the purchase of a principal residence, a longer repayment period may be permitted.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a ten-year period.

If the value of a participant's vested account balance, determined as of a date following the participant's date of termination of employment, is $5,000 or less, the participant will receive an immediate distribution of the vested account balance as soon as administratively feasible and no further benefits will be payable from the Plan.

Tax Status -The Internal Revenue Service has determined and informed the Company by a letter dated November 27, 2001, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and therefore the Plan is qualified and the related trust is tax-exempt.
Accounting principles generally accepted in the United States of America require plan management to evaluate tax position taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Forfeited Accounts – Forfeited non-vested amounts are used to reduce Company's matching contributions. As of December 31, 2011 and 2010 the ending balances of forfeited accounts were $29,634 and $25,938 respectively. For the year ended December 31, 2011, no forfeitures were used since there were no employer matching contributions during the year.

Administrative Expenses – The Custodian also has a division, which provides compliance services. The Company has a service agreement with the Custodian for both custodial services and compliance services. The Custodian charges commissions to the Plan on a percentage basis based on the participant account balance each month. Core compliance service fees are part of the commissions. Non-core compliance services are performed as requested by the Company and charged separately. During the year, commissions for $7,909 were paid by the Plan. The commissions were netted against the investment earnings. Participant loan origination fees and withdrawal fees are charged to the participant accounts. The loan origination fees for $400 were netted against the loan payments to participants and withdrawal charges for $707 were netted against the distribution payments to the participant. There were no administrative expenses paid outside the Plan during the year.

Investment Options – The assets of the Plan, both employee and employer, are allocated to the various funds at the direction of the participants. The following investment options are available for the investment of participants' elective and employer matching and discretionary contributions: Mutual funds and insurance contracts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan does not hold any fully benefit responsive investment contracts as of December 31, 2011 and so the statement of net assets available for benefits presents the fair value of the investment contracts.

Purchases and sales of securities are recorded on a trade-date-basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan documents.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits – Benefits are recorded when paid.

3. RELATED-PARTY TRANSACTIONS

Certain plan investments are guaranteed portfolio funds managed by Great West Life & Annuity Insurance Company. Great West is the custodian as defined by the Plan. These transactions qualify as exempt party-in-interest transactions.

4. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN (UNAUDITED)

At December 31, 2011 and 2010, the Plan's investments were held by the Custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

6. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.
Participant loans: Valued at amortized cost, which approximates fair value.

Insurance contracts (guaranteed portfolio fund): Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

Realized gains (losses)	40,500
Purchases, sales, issuances, and settlements (net)	(333,400)
Balance, end of year	$ 1,744,115

7. INVESTMENT IN INSURANCE CONTRACTS

The Plan has insurance contracts with Great-West Life & Annuity Insurance Company, the Custodian, and they are not fully benefit-responsive investment contracts. The Custodian maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Custodian is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but not less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. SUBSEQUENT EVENTS

For the year-ended December 31, 2011, the Plan has evaluated subsequent events for potential recognition and disclosure through October 11, 2012, the date the financial statements were available to be issued.
