SAAMA TECHNOLOGIES, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2010

NOTE A - DESCRIPTION OF PLAN

The following description of the Saama Tehnologies, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) Plan (i.e. a defined contribution plan) covering all full-time employees of the Company who have completed one month of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions

Each year, participants may contribute a specific dollar amount or percentage of pretax annual compensation, as defined in the Plan. The total deferrals in any tax year may not exceed a dollar limit set by law. Participants who have attained age 50 before the end of the Plan year are eligible to defer additional amounts to make catch-up contributions as permitted by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions

The Plan is a "safe harbor 401(k) plan" and in order to maintain the status, the employer may make a discretionary matching safe harbor contribution equal to 100% of salary deferrals that do not exceed 3% of compensation plus 50% of salary deferrals that exceed 3% but that do not exceed 5% of compensation. However, certain highly compensated employees may be excluded and not be eligible for these safe harbor contributions.

The employer may make a discretionary matching contribution equal to a uniform percentage of participant's salary deferrals. Each year, Employer will determine the amount of the discretionary percentage.

Each year the employer may make a discretionary profit sharing contribution to the Plan. Profit sharing contribution will be allocated based on the ratio that the eligible participant's compensation bears to the total compensation of all participants eligible to share.

Participant Accounts

Each participant's account is credited with the participant's contribution, employer contributions and allocations of the Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and employer safe harbor contributions plus actual earnings thereon. Eligible participants are vested in the profit sharing and matching contributions based on years of service over a three-year period. A participant is 100% vested after three years of service credit.

Investment Options

Upon enrollment in the Plan, the participants direct the investment of 100% of their vested balance in accordance with Plan custodian's investment contract. Participants may change their investment options periodically.

Plan Benefits

Participants are entitled to a lump sum distribution of their account balance at normal retirement age (59 ½). A participant whose employment with the Company terminates for reasons other than retirement, death or disability shall be entitled to receive the vested value of their account in a lump sum distribution.

Participant Loans

Participants may borrow from their fund accounts a maximum equal to the lesser of $50,000 or 50% of their non-forfeitable amount of the account balance. The loans are secured by the balance in the participant's account and bear a reasonable interest which is commensurate with local prevailing rates as determined by the Plan administrator at the time the loan is made. Principal and interest is paid ratably through monthly payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value in accordance with the guidance of FASB Accounting Standard Codification Topic 820, *Fair Value Measurements and Disclosures* which defines fair value, establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurement and enhances disclosures about fair value measurements.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Payment of Benefits

Benefits are recorded when paid.

NOTE C - INVESTMENTS

All investments are participant directed. The Plans investments are reported at fair value in the accompanying statement of net assets available for benefit.

Input levels by investment category are as follows:

	Fair Value Measurements Using: Quoted Prices (Level 1)	
	December 31, 2011	**December 31, 2010**
Interest-bearing cash (incl. Money Market Accounts)	$ 271,411	3,394,403
Registered Investment Companies	3,623,962	
Corporate stocks	21,270	
	$ 3,916,643	$ 3,394,403

Level 1 Assets

Fair value measurements establish a fair value hierarchy that prioritizes the inputs used to measure fair value. Level 1 assets include actively-traded exchange-listed equity securities and some short-term money market mutual funds. Unadjusted quoted prices for these securities are provided to the plan custodian by independent pricing services. Registered investment company assets in Level 1 primarily include actively-traded institutional and retail mutual fund investments valued by the respective mutual fund companies.

The above and information included in the accompanying financial statements and supplemental schedule was obtained from financial information that has been prepared and certified as complete and accurate by the Plan custodian. The Plan custodian's certification included the summary of plan transactions, the employer fund statement and the schedule of assets held for investment purposes at end of year.

NOTE D – PARTICIPANT LOANS

During the year ended December 31, 2011, Plan participants had borrowed $10,000 against their account balances. Loan repayments totaled $2,563 in principal and $773 in interest in 2011. Repayments of principal and interest were reallocated to the Plan participant's investment accounts as established by the Plan.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE F – FEDERAL INCOME TAX STATUS

The Plan has adopted a prototype "standardized" plan and the prototype sponsor has received a determination letter from the Internal Revenue Service indicating that the Plan is a qualified plan meeting the requirements of applicable sections of the Internal Revenue Code. Accordingly, Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE G – PLAN ADMINISTRATION

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Generally, administrative expenses, other than those expenses charged directly to the Plan by the custodian, are paid directly by the Company.

NOTE H – RISKS AND UNCERTAINTIES

The participants through the Plan invest in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – SUBSEQUENT EVENTS

The Plan management evaluated subsequent events through October 12, 2011, which is the date the financial statements were available to be issued.

NOTE J - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500
