BEVERLY HILLS HOTEL 401(k) PLAN FOR NON-UNION EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

1. Description of the Plan

The following description of the Beverly Hills Hotel 401(k) Plan For Non-Union Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Beverly Hills Hotel 401(k) Plan For Non-Union Employees was established January 1, 1988 and restated as of August 28, 2003, in accordance with Section 401(k) of the Internal Revenue Code. It is a defined contribution plan covering all employees of Sajahtera, Inc. dba The Beverly Hills Hotel (the ñCompanyò) not covered by a collective bargaining agreement who have completed one year of eligible service and are age twenty-one or older.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ñERISAò). Although it has not expressed the intention to do so, the Company has the right under terms of the Plan to discontinue its contributions at any time and to terminate the Plan subject to ERISA provisions. In the event of Plan termination, the participants would become 100% vested in their employer contributions.

Plan Administrator and Custodian

The Plan is administered by the Company. The custodian for the Plan is Fidelity Management Trust Company. The Company pays for administration and the annual audit.

Contributions

Employee contributions to the Plan (voluntary contributions) are deferrals of the employee's compensation made through a direct reduction of compensation in each payroll period of up to 60 percent of compensation. The maximum tax deferred contribution may not exceed the Internal Revenue Service (ñIRSò) limit. Upon reaching the age of 50, eligible employees may make additional catch-up contributions as limited by the IRS. Participants may change the percentage they contribute as of the beginning of each month and may stop deferring at any time.

1. Description of the Plan - (Continued)

Contributions ï (Continued)

The Company makes a matching contribution of 100 percent of each participantôs deferral, up to eight percent of eligible compensation each pay period. The amount of compensation that may be taken into account each plan year may not exceed the IRS limit. Participants are eligible for Company contributions upon completion of two years of service.

Additionally, the Plan allows for discretionary contributions by the Company. Discretionary contributions are allocated to participants based on a formula using total participantsô compensation for the Plan year. There were no discretionary contributions for the year ended December 31, 2011.

Rollover contributions meeting certain guidelines detailed in the Plan document may be made to the Plan.

Participant Accounts

Each participantôs account is credited with the participantôs contributions and the Companyôs matching and discretionary contributions and an allocation of Plan earnings and losses, net of investment management fees and administrative expenses. Allocations are based on participant account balances, as defined, and the specified investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participantôs vested account.

Vesting

Each participant's interest in all contributions are vested immediately.

1. Description of the Plan - (Continued)

Payment of Benefits

Upon termination, death, disability, or retirement, participants or their beneficiaries are entitled to payment of the total vested value of their account balances. Account balances less than $1,000 are distributed in a single lump-sum cash payment to the participant or beneficiary. Hardship distributions are available only for the purpose of meeting immediate and heavy financial needs. Participants are required to cease making elective deferrals for a period of 6 months after receiving a hardship distribution.

Forfeited Accounts

Amounts of nonvested matching contributions revert to the Company and may be used to pay plan administrative expenses or to reduce future matching contributions. For the years ended December 31, 2011 and 2010, terminating employees forfeited zero and $807, respectively. The forfeited nonvested account balances totaled $57,209 and $57,198 as of December 31, 2011 and 2010, respectively.

Investment Options

A participant may direct contributions in various investment options, which are managed by Fidelity Management Trust Company.

Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to a maximum of $50,000 or 50% of their total vested account balance. Loan transactions are treated as a transfer to (from) the respective investment fund from (to) the participantôs loan fund. A participant must repay the loan within five years, unless he or she is terminated, retires, or becomes disabled, in which case the loan becomes immediately due and payable. Loans taken for the purpose of buying a primary residence must be repaid within 10 years. Loans bear a reasonable rate of interest as determined by the plan sponsor. Principal and interest are paid ratably through payroll deductions and credited to the participantôs fund balance.

2. Summary of Significant Accounting Policies

Date of Management's Review

The Company has evaluated subsequent events through October 10, 2012, the date which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

2. Summary of Significant Accounting Policies ï (Continued)

Administrative Expenses

Certain administrative expenses are paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur and that such changes in the near term could materially affect participantsô account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

3. Benefits Owed to Terminated Participants

For financial reporting purposes, disbursements to participants are reported when the check is written. There were approximately $3,248,000 and $1,591,000 owed to terminated participants at December 31, 2011 and 2010, respectively.

4. Tax Status

The Plan adopted the Prototype Defined Contribution Plan sponsored by Fidelity Management & Research Co. (ñFMRCò). The Internal Revenue Service has determined and informed FMRC by a letter dated March 31, 2008, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (ñIRCò). Although the prototype plan has been amended since receiving the determination letter, the plan administrator believes that the prototype plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

5. Investments and Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 – defined as observable inputs such as quoted prices in active markets;

Level 2 – defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3 – defined as unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted net asset values of the shares held by the Plan at year-end. The fair value of interest-bearing cash is based on quoted prices for similar assets on active markets.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments carried at fair value as of December 31, 2011 and 2010, as described above:

BEVERLY HILLS HOTEL 401(k) PLAN FOR NON-UNION EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

1. Description of the Plan

The following description of the Beverly Hills Hotel 401(k) Plan For Non-Union Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Beverly Hills Hotel 401(k) Plan For Non-Union Employees was established January 1, 1988 and restated as of August 28, 2003, in accordance with Section 401(k) of the Internal Revenue Code. It is a defined contribution plan covering all employees of Sajahtera, Inc. dba The Beverly Hills Hotel (the ñCompanyò) not covered by a collective bargaining agreement who have completed one year of eligible service and are age twenty-one or older.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ñERISAò). Although it has not expressed the intention to do so, the Company has the right under terms of the Plan to discontinue its contributions at any time and to terminate the Plan subject to ERISA provisions. In the event of Plan termination, the participants would become 100% vested in their employer contributions.

Plan Administrator and Custodian

The Plan is administered by the Company. The custodian for the Plan is Fidelity Management Trust Company. The Company pays for administration and the annual audit.

Contributions

Employee contributions to the Plan (voluntary contributions) are deferrals of the employee's compensation made through a direct reduction of compensation in each payroll period of up to 60 percent of compensation. The maximum tax deferred contribution may not exceed the Internal Revenue Service (ñIRSò) limit. Upon reaching the age of 50, eligible employees may make additional catch-up contributions as limited by the IRS. Participants may change the percentage they contribute as of the beginning of each month and may stop deferring at any time.

1. Description of the Plan - (Continued)

Contributions ï (Continued)

The Company makes a matching contribution of 100 percent of each participantôs deferral, up to eight percent of eligible compensation each pay period. The amount of compensation that may be taken into account each plan year may not exceed the IRS limit. Participants are eligible for Company contributions upon completion of two years of service.

Additionally, the Plan allows for discretionary contributions by the Company. Discretionary contributions are allocated to participants based on a formula using total participantsô compensation for the Plan year. There were no discretionary contributions for the year ended December 31, 2011.

Rollover contributions meeting certain guidelines detailed in the Plan document may be made to the Plan.

Participant Accounts

Each participantôs account is credited with the participantôs contributions and the Companyôs matching and discretionary contributions and an allocation of Plan earnings and losses, net of investment management fees and administrative expenses. Allocations are based on participant account balances, as defined, and the specified investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participantôs vested account.

Vesting

Each participant's interest in all contributions are vested immediately.

1. Description of the Plan - (Continued)

Payment of Benefits

Upon termination, death, disability, or retirement, participants or their beneficiaries are entitled to payment of the total vested value of their account balances. Account balances less than $1,000 are distributed in a single lump-sum cash payment to the participant or beneficiary. Hardship distributions are available only for the purpose of meeting immediate and heavy financial needs. Participants are required to cease making elective deferrals for a period of 6 months after receiving a hardship distribution.

Forfeited Accounts

Amounts of nonvested matching contributions revert to the Company and may be used to pay plan administrative expenses or to reduce future matching contributions. For the years ended December 31, 2011 and 2010, terminating employees forfeited zero and $807, respectively. The forfeited nonvested account balances totaled $57,209 and $57,198 as of December 31, 2011 and 2010, respectively.

Investment Options

A participant may direct contributions in various investment options, which are managed by Fidelity Management Trust Company.

Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to a maximum of $50,000 or 50% of their total vested account balance. Loan transactions are treated as a transfer to (from) the respective investment fund from (to) the participantôs loan fund. A participant must repay the loan within five years, unless he or she is terminated, retires, or becomes disabled, in which case the loan becomes immediately due and payable. Loans taken for the purpose of buying a primary residence must be repaid within 10 years. Loans bear a reasonable rate of interest as determined by the plan sponsor. Principal and interest are paid ratably through payroll deductions and credited to the participantôs fund balance.

2. Summary of Significant Accounting Policies

Date of Management's Review

The Company has evaluated subsequent events through October 10, 2012, the date which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

2. Summary of Significant Accounting Policies ï (Continued)

Administrative Expenses

Certain administrative expenses are paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur and that such changes in the near term could materially affect participantsô account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

3. Benefits Owed to Terminated Participants

For financial reporting purposes, disbursements to participants are reported when the check is written. There were approximately $3,248,000 and $1,591,000 owed to terminated participants at December 31, 2011 and 2010, respectively.

4. Tax Status

The Plan adopted the Prototype Defined Contribution Plan sponsored by Fidelity Management & Research Co. (ñFMRCò). The Internal Revenue Service has determined and informed FMRC by a letter dated March 31, 2008, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (ñIRCò). Although the prototype plan has been amended since receiving the determination letter, the plan administrator believes that the prototype plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

5. Investments and Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 – defined as observable inputs such as quoted prices in active markets;

Level 2 – defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3 – defined as unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted net asset values of the shares held by the Plan at year-end. The fair value of interest-bearing cash is based on quoted prices for similar assets on active markets.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments carried at fair value as of December 31, 2011 and 2010, as described above:
