REPORT OF INDEPENDENT AUDITORS

To the Benefits Committee of the
Esselte Group U.S. Retirement Income Plan
Melville, New York

We were engaged to audit the financial statements and supplemental schedules of the Esselte Group U.S. Retirement Income Plan as of December 31, 2011 and 2010 and for the years then ended, as listed in the accompanying contents page. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by New York Life Trust Company, the trustee of the Plan, and JPMorgan Chase Bank, N.A., the custodian of the Plan except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and custodian as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee and custodian are complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the financial statements and supplemental schedules as a whole. The information included in the supplemental schedules are presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - PLAN DESCRIPTION

The Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees came into existence on April 1, 1980, as a result of the merger of the Oxford Pendaflex Non-Bargaining Employees Retirement Income Plan of Esselte Pendaflex Corporation ("the Company") with the Dymo Employee Pension Plan. Effective March 31, 2002, the Esselte Pendaflex Corporation Retirement Income Plan for Bargaining Unit Employees was merged with the Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees. Effective April 1, 2005, the Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees became known as Esselte Group U.S. Retirement Income Plan ("the Plan"). The Plan is a noncontributory defined benefit plan administered by a committee appointed by the Board of Directors of the Company ("the Plan Administrators").

Eligibility: Most non-bargaining employees are eligible to become participants under the Plan after one year of service and attainment of the age of 21. Vesting can occur only after five years of eligible service. Effective September 1, 2004, the Plan was frozen to prohibit the participation of any otherwise newly eligible employees. All eligible employees who were participants as of September 1, 2004 remain participants of the Plan.

Benefit Payments: Normal retirement benefits are paid upon attainment of the age of 65 and completion of 5 years of participation. Early retirement benefits are available at the age of 55 and completion of 5 years of participation. Disability retirement benefits are payable to participants who have completed ten years of service. Deferred vested retirement benefits, preretirement surviving spouse annuity benefits, and optional benefits are available to plan participants under certain conditions. The monthly normal retirement benefit is determined based on the following formula:

1.55% of limited monthly compensation for the plan year, plus
2.00% of excess monthly compensation for the plan year

Limited monthly compensation, for any plan year through September 30, 2005, is monthly compensation that does not exceed one-twelfth of the lesser of (1) employees compensation for the year or (2) for benefits accrued prior to April 1, 2005, \$10,000 and, for benefits accrued after March 31, 2005, one half of the Social Security Taxable Wage Base for the year. Excess monthly compensation, for any plan year through September 30, 2005, is the excess of monthly compensation over limited monthly compensation. Effective September 30, 2005, the Plan was amended to freeze plan benefits after September 30, 2005.

The preceding description of the Plan in no way replaces or alters the full, official plan text, which is the controlling document and which in any dispute shall govern. Refer to the plan document for a more complete description.

Administrative Expenses: Expenses are required to be paid by the Plan unless voluntarily paid by the Company. All expenses relating to the 2011 and 2010 plan years were paid by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments and derivative instruments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Other Financial Instruments: The Plan's derivative instruments are reported at fair value. The carrying values of the Plan's cash and receivables as of December 31, 2011 and 2010 approximate fair value.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 price such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments and derivative instruments apply to investments and derivative instruments held directly by the Plan.

U.S. government securities: Fair values reflect the closing price reported in the active market in which the security is traded (level 1 inputs).

Short term investment funds: The fair values of the short-term investment funds are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (level 2 inputs).

Derivative Instruments: The fair values of derivatives that are not traded on an exchange are based upon valuation models using observable market data as of the measurement date (level 2 inputs).

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The investment objective of the U.S. Long Duration Credit Collective Fund is to seek to produce a total return consistent with the Barclays Capital U.S. Long Credit A or Better Index by investing in a variety of intermediate and long term investment grade fixed income securities. The investment objective of the UBS Diversified Return Collective Fund is to seek maximize total return, consisting of capital appreciation and current income, by investing in a globally diversified asset allocation portfolio

consisting of traditional asset classes and alternative asset classes. These funds provide for redemptions by the Plan at reported net asset value per share, at pre-designated mid-month and month-end dates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments and derivative instruments measured at fair value on a recurring basis are summarized below:

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimates of investment valuation and actuarial present value of accumulated plan benefits.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments including short term investments, U.S. government securities, mutual funds, collective trust and futures contracts. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Because of the level of risk associated with certain investment securities and sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 - CONTRIBUTION DETERMINATION AND FUNDING

Annual contributions from the Company are at least equal to the minimum amounts required to be funded in accordance with the provisions of ERISA. For the years ended December 31, 2011 and 2010, the Company's minimum funding requirement was \$0. There were no contributions for the years ended December 31, 2011 or 2010 remitted to the Plan by the Plan Sponsor.

NOTE 4 - ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits has been determined by the Plan's actuary. Such amount results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or retirement) between the valuation date and the expected date of payment. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

(Continued)

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 4 - ACCUMULATED PLAN BENEFITS (Continued)

The following accumulated plan benefits information is as of December 31, 2010, the date of the most recent valuation, and is determined by the Plan's actuary:

	<u>2010</u>
Actuarial present value of accumulated plan benefits:	
Participants currently receiving payments	\$ 69,897,116
Other participants	47,265,081
Nonvested benefits	<u>494,849</u>
Actuarial present value of accumulated plan benefits	<u>\$ 117,657,046</u>

The actuarial present value of accumulated plan benefits for the year ended December 31, 2010 increased (decreased) as follows:

Amount at beginning of year	\$ 116,648,892
Experience gains and losses	577,672
Benefits paid	(7,477,451)
Increase for interest accumulated	<u>7,907,933</u>
Amount at end of year	<u>\$ 117,657,046</u>

The actuary's computation of the actuarial present value of accumulated plan benefits assumes that (a) 7.0% interest will be earned per annum as of December 31, 2010, (b) mortality will occur as stated in the RP 2000 Combined Healthy Mortality Table, and (c) a specific percentage of employees will elect early retirement between the ages of 55 and 65 and all employees will have retired by the age of 65.

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be appropriate in determining the actuarial present value of accumulated plan benefits.

NOTE 5 - ALLOCATION OF ASSETS UPON TERMINATION OF THE PLAN

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depend on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("the PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

(Continued)

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 5 - ALLOCATION OF ASSETS UPON TERMINATION OF THE PLAN (Continued)

The PBGC will guarantee the payment of most vested normal retirement age benefits and early retirement age benefits that employees were receiving or were entitled to receive as of the date the Plan terminated. Such benefits, however, are only guaranteed to the extent of the actuarial value of the vested benefits as of the date the Plan terminated, payable in the form of a straight-life annuity commencing at the age of 65. Additionally, the total amount of such guaranteed benefits is subject to an overall ceiling, which is adjusted periodically by the PBGC.

The provisions of the Plan provide that, if the Plan is terminated, the Plan's members will be fully vested in their rights under the Plan to the extent then funded, in the order of priority specified in the Plan. Further information concerning the priority order of participants' claims to the assets of the Plan is contained in the plan document, which is available to all of the Plan's participants.

NOTE 6 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND DERIVATIVE INSTRUMENTS

New York Life Trust Company, the trustee of the Plan, and JPMorgan Chase Bank, N.A., a custodian of the Plan's investments and derivative instruments, hold investment assets and derivative instruments and execute transactions therein, and substantially all information pertaining to investments and derivative investments included in the financial statements was certified by them. This information has not been audited by independent accountants.

The following presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 are separately identified below:

York Life Trust Company were also considered party-in-interest as New York Life Trust Company is the trustee of the Plan.

Professional fees for the administration and audit of the Plan were expensed by the Plan, as were fees for actuary and investment services. Fees paid by the Plan amounted to \$1,073,464 and \$1,618,822 for the years ended December 31, 2011 and 2010, respectively.

NOTE 9 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated February 25, 2008 stating that the Plan and related trust are qualified under Section 401(a) of the Internal Revenue Code ("the Code"), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since applying for the determination letter, the plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and that the related trust is tax-exempt.

NOTE 10 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 12, 2012, which is the date the financial statements were available to be issued.

Actuarial Cost Method

Funding Target / Target Normal Cost

An Actuarial Cost Method is an allocation of the expected cost of a pension plan on a year-by-year basis. The primary objective of an Actuarial Cost Method is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) mandates the use of the Traditional Unit Credit Actuarial Cost Method. Under this method, the accrued benefit is estimated based upon service and, if applicable, earnings as of the valuation date. The Funding Target is equal to the actuarial present value of all accrued benefits as of the valuation date. The Target Normal Cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefit attributable to service expected to be completed during the plan year (i.e. if applicable, one year's salary growth is reflected in the determination of Target Normal Cost).

For tax deduction purposes, the Funding Target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA Discounting Method

The plan sponsor is responsible for making the following decisions with regard to the discounting method:

- Full yield-curve spot rates or a segmented yield-curve of 24-month average rates of corporate bond rates
- If the segmented yield curve is used, the rates as of the month of the valuation may be used or as of a lookback month up to 4 months prior to the valuation date (the full yield curve must use the rates as of the month of the valuation starting in 2010)

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

- Rates for the month of December preceding the valuation date
- Segment Rates

Asset Valuation Method

The Plan Assets for purposes of this Actuarial Valuation are valued at their fair market value, including, if applicable, discounted receivable contributions.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT AUDITORS

To the Benefits Committee of the
Esselte Group U.S. Retirement Income Plan
Melville, New York

We were engaged to audit the financial statements and supplemental schedules of the Esselte Group U.S. Retirement Income Plan as of December 31, 2011 and 2010 and for the years then ended, as listed in the accompanying contents page. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by New York Life Trust Company, the trustee of the Plan, and JPMorgan Chase Bank, N.A., the custodian of the Plan except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and custodian as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee and custodian are complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the financial statements and supplemental schedules as a whole. The information included in the supplemental schedules are presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - PLAN DESCRIPTION

The Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees came into existence on April 1, 1980, as a result of the merger of the Oxford Pendaflex Non-Bargaining Employees Retirement Income Plan of Esselte Pendaflex Corporation ("the Company") with the Dymo Employee Pension Plan. Effective March 31, 2002, the Esselte Pendaflex Corporation Retirement Income Plan for Bargaining Unit Employees was merged with the Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees. Effective April 1, 2005, the Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees became known as Esselte Group U.S. Retirement Income Plan ("the Plan"). The Plan is a noncontributory defined benefit plan administered by a committee appointed by the Board of Directors of the Company ("the Plan Administrators").

Eligibility: Most non-bargaining employees are eligible to become participants under the Plan after one year of service and attainment of the age of 21. Vesting can occur only after five years of eligible service. Effective September 1, 2004, the Plan was frozen to prohibit the participation of any otherwise newly eligible employees. All eligible employees who were participants as of September 1, 2004 remain participants of the Plan.

Benefit Payments: Normal retirement benefits are paid upon attainment of the age of 65 and completion of 5 years of participation. Early retirement benefits are available at the age of 55 and completion of 5 years of participation. Disability retirement benefits are payable to participants who have completed ten years of service. Deferred vested retirement benefits, preretirement surviving spouse annuity benefits, and optional benefits are available to plan participants under certain conditions. The monthly normal retirement benefit is determined based on the following formula:

1.55% of limited monthly compensation for the plan year, plus
2.00% of excess monthly compensation for the plan year

Limited monthly compensation, for any plan year through September 30, 2005, is monthly compensation that does not exceed one-twelfth of the lesser of (1) employees compensation for the year or (2) for benefits accrued prior to April 1, 2005, \$10,000 and, for benefits accrued after March 31, 2005, one half of the Social Security Taxable Wage Base for the year. Excess monthly compensation, for any plan year through September 30, 2005, is the excess of monthly compensation over limited monthly compensation. Effective September 30, 2005, the Plan was amended to freeze plan benefits after September 30, 2005.

The preceding description of the Plan in no way replaces or alters the full, official plan text, which is the controlling document and which in any dispute shall govern. Refer to the plan document for a more complete description.

Administrative Expenses: Expenses are required to be paid by the Plan unless voluntarily paid by the Company. All expenses relating to the 2011 and 2010 plan years were paid by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments and derivative instruments bought and sold as well as held during the year.

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Other Financial Instruments: The Plan's derivative instruments are reported at fair value. The carrying values of the Plan's cash and receivables as of December 31, 2011 and 2010 approximate fair value.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 price such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments and derivative instruments apply to investments and derivative instruments held directly by the Plan.

U.S. government securities: Fair values reflect the closing price reported in the active market in which the security is traded (level 1 inputs).

Short term investment funds: The fair values of the short-term investment funds are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (level 2 inputs).

Derivative Instruments: The fair values of derivatives that are not traded on an exchange are based upon valuation models using observable market data as of the measurement date (level 2 inputs).

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The investment objective of the U.S. Long Duration Credit Collective Fund is to seek to produce a total return consistent with the Barclays Capital U.S. Long Credit A or Better Index by investing in a variety of intermediate and long term investment grade fixed income securities. The investment objective of the UBS Diversified Return Collective Fund is to seek maximize total return, consisting of capital appreciation and current income, by investing in a globally diversified asset allocation portfolio

consisting of traditional asset classes and alternative asset classes. These funds provide for redemptions by the Plan at reported net asset value per share, at pre-designated mid-month and month-end dates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments and derivative instruments measured at fair value on a recurring basis are summarized below:

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimates of investment valuation and actuarial present value of accumulated plan benefits.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments including short term investments, U.S. government securities, mutual funds, collective trust and futures contracts. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Because of the level of risk associated with certain investment securities and sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 - CONTRIBUTION DETERMINATION AND FUNDING

Annual contributions from the Company are at least equal to the minimum amounts required to be funded in accordance with the provisions of ERISA. For the years ended December 31, 2011 and 2010, the Company's minimum funding requirement was \$0. There were no contributions for the years ended December 31, 2011 or 2010 remitted to the Plan by the Plan Sponsor.

NOTE 4 - ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits has been determined by the Plan's actuary. Such amount results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or retirement) between the valuation date and the expected date of payment. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

(Continued)

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 4 - ACCUMULATED PLAN BENEFITS (Continued)

The following accumulated plan benefits information is as of December 31, 2010, the date of the most recent valuation, and is determined by the Plan's actuary:

	<u>2010</u>
Actuarial present value of accumulated plan benefits:	
Participants currently receiving payments	\$ 69,897,116
Other participants	47,265,081
Nonvested benefits	<u>494,849</u>
Actuarial present value of accumulated plan benefits	<u>\$ 117,657,046</u>

The actuarial present value of accumulated plan benefits for the year ended December 31, 2010 increased (decreased) as follows:

Amount at beginning of year	\$ 116,648,892
Experience gains and losses	577,672
Benefits paid	(7,477,451)
Increase for interest accumulated	<u>7,907,933</u>
Amount at end of year	<u>\$ 117,657,046</u>

The actuary's computation of the actuarial present value of accumulated plan benefits assumes that (a) 7.0% interest will be earned per annum as of December 31, 2010, (b) mortality will occur as stated in the RP 2000 Combined Healthy Mortality Table, and (c) a specific percentage of employees will elect early retirement between the ages of 55 and 65 and all employees will have retired by the age of 65.

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be appropriate in determining the actuarial present value of accumulated plan benefits.

NOTE 5 - ALLOCATION OF ASSETS UPON TERMINATION OF THE PLAN

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depend on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("the PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

(Continued)

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 5 - ALLOCATION OF ASSETS UPON TERMINATION OF THE PLAN (Continued)

The PBGC will guarantee the payment of most vested normal retirement age benefits and early retirement age benefits that employees were receiving or were entitled to receive as of the date the Plan terminated. Such benefits, however, are only guaranteed to the extent of the actuarial value of the vested benefits as of the date the Plan terminated, payable in the form of a straight-life annuity commencing at the age of 65. Additionally, the total amount of such guaranteed benefits is subject to an overall ceiling, which is adjusted periodically by the PBGC.

The provisions of the Plan provide that, if the Plan is terminated, the Plan's members will be fully vested in their rights under the Plan to the extent then funded, in the order of priority specified in the Plan. Further information concerning the priority order of participants' claims to the assets of the Plan is contained in the plan document, which is available to all of the Plan's participants.

NOTE 6 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND DERIVATIVE INSTRUMENTS

New York Life Trust Company, the trustee of the Plan, and JPMorgan Chase Bank, N.A., a custodian of the Plan's investments and derivative instruments, hold investment assets and derivative instruments and execute transactions therein, and substantially all information pertaining to investments and derivative investments included in the financial statements was certified by them. This information has not been audited by independent accountants.

The following presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 are separately identified below:

NOTE 7 - DERIVATIVES POLICY

During 2010 and 2011, the Plan invested in futures contracts. The variation margin on the futures contracts are recorded in the financial statements.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

The Plan's investments issued by JPMorgan Chase Bank, N.A., an affiliate of JPMorgan Chase Bank, N.A. or UBS Global Asset Management were considered party-in-interest investments as JPMorgan Chase Bank, N.A. is a custodian of the Plan's investments, and UBS Global Asset Management is the investment manager. The Plan's investments managed by New

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS (Continued)

York Life Trust Company were also considered party-in-interest as New York Life Trust Company is the trustee of the Plan.

Professional fees for the administration and audit of the Plan were expensed by the Plan, as were fees for actuary and investment services. Fees paid by the Plan amounted to \$1,073,464 and \$1,618,822 for the years ended December 31, 2011 and 2010, respectively.

NOTE 9 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated February 25, 2008 stating that the Plan and related trust are qualified under Section 401(a) of the Internal Revenue Code ("the Code"), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since applying for the determination letter, the plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and that the related trust is tax-exempt.

NOTE 10 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 12, 2012, which is the date the financial statements were available to be issued.

REPORT OF INDEPENDENT AUDITORS

To the Benefits Committee of the
Esselte Group U.S. Retirement Income Plan
Melville, New York

We were engaged to audit the financial statements and supplemental schedules of the Esselte Group U.S. Retirement Income Plan as of December 31, 2011 and 2010 and for the years then ended, as listed in the accompanying contents page. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by New York Life Trust Company, the trustee of the Plan, and JPMorgan Chase Bank, N.A., the custodian of the Plan except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and custodian as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee and custodian are complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the financial statements and supplemental schedules as a whole. The information included in the supplemental schedules are presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - PLAN DESCRIPTION

The Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees came into existence on April 1, 1980, as a result of the merger of the Oxford Pendaflex Non-Bargaining Employees Retirement Income Plan of Esselte Pendaflex Corporation ("the Company") with the Dymo Employee Pension Plan. Effective March 31, 2002, the Esselte Pendaflex Corporation Retirement Income Plan for Bargaining Unit Employees was merged with the Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees. Effective April 1, 2005, the Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees became known as Esselte Group U.S. Retirement Income Plan ("the Plan"). The Plan is a noncontributory defined benefit plan administered by a committee appointed by the Board of Directors of the Company ("the Plan Administrators").

Eligibility: Most non-bargaining employees are eligible to become participants under the Plan after one year of service and attainment of the age of 21. Vesting can occur only after five years of eligible service. Effective September 1, 2004, the Plan was frozen to prohibit the participation of any otherwise newly eligible employees. All eligible employees who were participants as of September 1, 2004 remain participants of the Plan.

Benefit Payments: Normal retirement benefits are paid upon attainment of the age of 65 and completion of 5 years of participation. Early retirement benefits are available at the age of 55 and completion of 5 years of participation. Disability retirement benefits are payable to participants who have completed ten years of service. Deferred vested retirement benefits, preretirement surviving spouse annuity benefits, and optional benefits are available to plan participants under certain conditions. The monthly normal retirement benefit is determined based on the following formula:

1.55% of limited monthly compensation for the plan year, plus
2.00% of excess monthly compensation for the plan year

Limited monthly compensation, for any plan year through September 30, 2005, is monthly compensation that does not exceed one-twelfth of the lesser of (1) employees compensation for the year or (2) for benefits accrued prior to April 1, 2005, \$10,000 and, for benefits accrued after March 31, 2005, one half of the Social Security Taxable Wage Base for the year. Excess monthly compensation, for any plan year through September 30, 2005, is the excess of monthly compensation over limited monthly compensation. Effective September 30, 2005, the Plan was amended to freeze plan benefits after September 30, 2005.

The preceding description of the Plan in no way replaces or alters the full, official plan text, which is the controlling document and which in any dispute shall govern. Refer to the plan document for a more complete description.

Administrative Expenses: Expenses are required to be paid by the Plan unless voluntarily paid by the Company. All expenses relating to the 2011 and 2010 plan years were paid by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments and derivative instruments bought and sold as well as held during the year.

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Other Financial Instruments: The Plan's derivative instruments are reported at fair value. The carrying values of the Plan's cash and receivables as of December 31, 2011 and 2010 approximate fair value.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 price such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments and derivative instruments apply to investments and derivative instruments held directly by the Plan.

U.S. government securities: Fair values reflect the closing price reported in the active market in which the security is traded (level 1 inputs).

Short term investment funds: The fair values of the short-term investment funds are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (level 2 inputs).

Derivative Instruments: The fair values of derivatives that are not traded on an exchange are based upon valuation models using observable market data as of the measurement date (level 2 inputs).

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The investment objective of the U.S. Long Duration Credit Collective Fund is to seek to produce a total return consistent with the Barclays Capital U.S. Long Credit A or Better Index by investing in a variety of intermediate and long term investment grade fixed income securities. The investment objective of the UBS Diversified Return Collective Fund is to seek maximize total return, consisting of capital appreciation and current income, by investing in a globally diversified asset allocation portfolio

consisting of traditional asset classes and alternative asset classes. These funds provide for redemptions by the Plan at reported net asset value per share, at pre-designated mid-month and month-end dates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments and derivative instruments measured at fair value on a recurring basis are summarized below:

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimates of investment valuation and actuarial present value of accumulated plan benefits.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments including short term investments, U.S. government securities, mutual funds, collective trust and futures contracts. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Because of the level of risk associated with certain investment securities and sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 - CONTRIBUTION DETERMINATION AND FUNDING

Annual contributions from the Company are at least equal to the minimum amounts required to be funded in accordance with the provisions of ERISA. For the years ended December 31, 2011 and 2010, the Company's minimum funding requirement was \$0. There were no contributions for the years ended December 31, 2011 or 2010 remitted to the Plan by the Plan Sponsor.

NOTE 4 - ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits has been determined by the Plan's actuary. Such amount results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or retirement) between the valuation date and the expected date of payment. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

NOTE 4 - ACCUMULATED PLAN BENEFITS (Continued)

The following accumulated plan benefits information is as of December 31, 2010, the date of the most recent valuation, and is determined by the Plan's actuary:

	<u>2010</u>
Actuarial present value of accumulated plan benefits:	
Participants currently receiving payments	\$ 69,897,116
Other participants	47,265,081
Nonvested benefits	<u>494,849</u>
Actuarial present value of accumulated plan benefits	<u>\$ 117,657,046</u>

The actuarial present value of accumulated plan benefits for the year ended December 31, 2010 increased (decreased) as follows:

Amount at beginning of year	\$ 116,648,892
Experience gains and losses	577,672
Benefits paid	(7,477,451)
Increase for interest accumulated	<u>7,907,933</u>
Amount at end of year	<u>\$ 117,657,046</u>

The actuary's computation of the actuarial present value of accumulated plan benefits assumes that (a) 7.0% interest will be earned per annum as of December 31, 2010, (b) mortality will occur as stated in the RP 2000 Combined Healthy Mortality Table, and (c) a specific percentage of employees will elect early retirement between the ages of 55 and 65 and all employees will have retired by the age of 65.

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be appropriate in determining the actuarial present value of accumulated plan benefits.

NOTE 5 - ALLOCATION OF ASSETS UPON TERMINATION OF THE PLAN

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depend on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("the PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

(Continued)

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 5 - ALLOCATION OF ASSETS UPON TERMINATION OF THE PLAN (Continued)

The PBGC will guarantee the payment of most vested normal retirement age benefits and early retirement age benefits that employees were receiving or were entitled to receive as of the date the Plan terminated. Such benefits, however, are only guaranteed to the extent of the actuarial value of the vested benefits as of the date the Plan terminated, payable in the form of a straight-life annuity commencing at the age of 65. Additionally, the total amount of such guaranteed benefits is subject to an overall ceiling, which is adjusted periodically by the PBGC.

The provisions of the Plan provide that, if the Plan is terminated, the Plan's members will be fully vested in their rights under the Plan to the extent then funded, in the order of priority specified in the Plan. Further information concerning the priority order of participants' claims to the assets of the Plan is contained in the plan document, which is available to all of the Plan's participants.

NOTE 6 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND DERIVATIVE INSTRUMENTS

New York Life Trust Company, the trustee of the Plan, and JPMorgan Chase Bank, N.A., a custodian of the Plan's investments and derivative instruments, hold investment assets and derivative instruments and execute transactions therein, and substantially all information pertaining to investments and derivative investments included in the financial statements was certified by them. This information has not been audited by independent accountants.

The following presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 are separately identified below:

NOTE 7 - DERIVATIVES POLICY

During 2010 and 2011, the Plan invested in futures contracts. The variation margin on the futures contracts are recorded in the financial statements.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

The Plan's investments issued by JPMorgan Chase Bank, N.A., an affiliate of JPMorgan Chase Bank, N.A. or UBS Global Asset Management were considered party-in-interest investments as JPMorgan Chase Bank, N.A. is a custodian of the Plan's investments, and UBS Global Asset Management is the investment manager. The Plan's investments managed by New

York Life Trust Company were also considered party-in-interest as New York Life Trust Company is the trustee of the Plan.

Professional fees for the administration and audit of the Plan were expensed by the Plan, as were fees for actuary and investment services. Fees paid by the Plan amounted to \$1,073,464 and \$1,618,822 for the years ended December 31, 2011 and 2010, respectively.

NOTE 9 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated February 25, 2008 stating that the Plan and related trust are qualified under Section 401(a) of the Internal Revenue Code ("the Code"), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since applying for the determination letter, the plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and that the related trust is tax-exempt.

NOTE 10 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 12, 2012, which is the date the financial statements were available to be issued.

REPORT OF INDEPENDENT AUDITORS

To the Benefits Committee of the
Esselte Group U.S. Retirement Income Plan
Melville, New York

We were engaged to audit the financial statements and supplemental schedules of the Esselte Group U.S. Retirement Income Plan as of December 31, 2011 and 2010 and for the years then ended, as listed in the accompanying contents page. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by New York Life Trust Company, the trustee of the Plan, and JPMorgan Chase Bank, N.A., the custodian of the Plan except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and custodian as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee and custodian are complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the financial statements and supplemental schedules as a whole. The information included in the supplemental schedules are presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - PLAN DESCRIPTION

The Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees came into existence on April 1, 1980, as a result of the merger of the Oxford Pendaflex Non-Bargaining Employees Retirement Income Plan of Esselte Pendaflex Corporation ("the Company") with the Dymo Employee Pension Plan. Effective March 31, 2002, the Esselte Pendaflex Corporation Retirement Income Plan for Bargaining Unit Employees was merged with the Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees. Effective April 1, 2005, the Esselte Group U.S. Retirement Income Plan for Non-Bargaining Employees became known as Esselte Group U.S. Retirement Income Plan ("the Plan"). The Plan is a noncontributory defined benefit plan administered by a committee appointed by the Board of Directors of the Company ("the Plan Administrators").

Eligibility: Most non-bargaining employees are eligible to become participants under the Plan after one year of service and attainment of the age of 21. Vesting can occur only after five years of eligible service. Effective September 1, 2004, the Plan was frozen to prohibit the participation of any otherwise newly eligible employees. All eligible employees who were participants as of September 1, 2004 remain participants of the Plan.

Benefit Payments: Normal retirement benefits are paid upon attainment of the age of 65 and completion of 5 years of participation. Early retirement benefits are available at the age of 55 and completion of 5 years of participation. Disability retirement benefits are payable to participants who have completed ten years of service. Deferred vested retirement benefits, preretirement surviving spouse annuity benefits, and optional benefits are available to plan participants under certain conditions. The monthly normal retirement benefit is determined based on the following formula:

1.55% of limited monthly compensation for the plan year, plus
2.00% of excess monthly compensation for the plan year

Limited monthly compensation, for any plan year through September 30, 2005, is monthly compensation that does not exceed one-twelfth of the lesser of (1) employees compensation for the year or (2) for benefits accrued prior to April 1, 2005, \$10,000 and, for benefits accrued after March 31, 2005, one half of the Social Security Taxable Wage Base for the year. Excess monthly compensation, for any plan year through September 30, 2005, is the excess of monthly compensation over limited monthly compensation. Effective September 30, 2005, the Plan was amended to freeze plan benefits after September 30, 2005.

The preceding description of the Plan in no way replaces or alters the full, official plan text, which is the controlling document and which in any dispute shall govern. Refer to the plan document for a more complete description.

Administrative Expenses: Expenses are required to be paid by the Plan unless voluntarily paid by the Company. All expenses relating to the 2011 and 2010 plan years were paid by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments and derivative instruments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Other Financial Instruments: The Plan's derivative instruments are reported at fair value. The carrying values of the Plan's cash and receivables as of December 31, 2011 and 2010 approximate fair value.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 price such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments and derivative instruments apply to investments and derivative instruments held directly by the Plan.

U.S. government securities: Fair values reflect the closing price reported in the active market in which the security is traded (level 1 inputs).

Short term investment funds: The fair values of the short-term investment funds are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (level 2 inputs).

Derivative Instruments: The fair values of derivatives that are not traded on an exchange are based upon valuation models using observable market data as of the measurement date (level 2 inputs).

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The investment objective of the U.S. Long Duration Credit Collective Fund is to seek to produce a total return consistent with the Barclays Capital U.S. Long Credit A or Better Index by investing in a variety of intermediate and long term investment grade fixed income securities. The investment objective of the UBS Diversified Return Collective Fund is to seek maximize total return, consisting of capital appreciation and current income, by investing in a globally diversified asset allocation portfolio

consisting of traditional asset classes and alternative asset classes. These funds provide for redemptions by the Plan at reported net asset value per share, at pre-designated mid-month and month-end dates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments and derivative instruments measured at fair value on a recurring basis are summarized below:

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimates of investment valuation and actuarial present value of accumulated plan benefits.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments including short term investments, U.S. government securities, mutual funds, collective trust and futures contracts. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Because of the level of risk associated with certain investment securities and sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 - CONTRIBUTION DETERMINATION AND FUNDING

Annual contributions from the Company are at least equal to the minimum amounts required to be funded in accordance with the provisions of ERISA. For the years ended December 31, 2011 and 2010, the Company's minimum funding requirement was \$0. There were no contributions for the years ended December 31, 2011 or 2010 remitted to the Plan by the Plan Sponsor.

NOTE 4 - ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits has been determined by the Plan's actuary. Such amount results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or retirement) between the valuation date and the expected date of payment. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

(Continued)

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 4 - ACCUMULATED PLAN BENEFITS (Continued)

The following accumulated plan benefits information is as of December 31, 2010, the date of the most recent valuation, and is determined by the Plan's actuary:

	<u>2010</u>
Actuarial present value of accumulated plan benefits:	
Participants currently receiving payments	\$ 69,897,116
Other participants	47,265,081
Nonvested benefits	<u>494,849</u>
Actuarial present value of accumulated plan benefits	<u>\$ 117,657,046</u>

The actuarial present value of accumulated plan benefits for the year ended December 31, 2010 increased (decreased) as follows:

Amount at beginning of year	\$ 116,648,892
Experience gains and losses	577,672
Benefits paid	(7,477,451)
Increase for interest accumulated	<u>7,907,933</u>
Amount at end of year	<u>\$ 117,657,046</u>

The actuary's computation of the actuarial present value of accumulated plan benefits assumes that (a) 7.0% interest will be earned per annum as of December 31, 2010, (b) mortality will occur as stated in the RP 2000 Combined Healthy Mortality Table, and (c) a specific percentage of employees will elect early retirement between the ages of 55 and 65 and all employees will have retired by the age of 65.

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be appropriate in determining the actuarial present value of accumulated plan benefits.

NOTE 5 - ALLOCATION OF ASSETS UPON TERMINATION OF THE PLAN

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depend on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("the PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

(Continued)

ESSELTE GROUP U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 5 - ALLOCATION OF ASSETS UPON TERMINATION OF THE PLAN (Continued)

The PBGC will guarantee the payment of most vested normal retirement age benefits and early retirement age benefits that employees were receiving or were entitled to receive as of the date the Plan terminated. Such benefits, however, are only guaranteed to the extent of the actuarial value of the vested benefits as of the date the Plan terminated, payable in the form of a straight-life annuity commencing at the age of 65. Additionally, the total amount of such guaranteed benefits is subject to an overall ceiling, which is adjusted periodically by the PBGC.

The provisions of the Plan provide that, if the Plan is terminated, the Plan's members will be fully vested in their rights under the Plan to the extent then funded, in the order of priority specified in the Plan. Further information concerning the priority order of participants' claims to the assets of the Plan is contained in the plan document, which is available to all of the Plan's participants.

NOTE 6 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND DERIVATIVE INSTRUMENTS

New York Life Trust Company, the trustee of the Plan, and JPMorgan Chase Bank, N.A., a custodian of the Plan's investments and derivative instruments, hold investment assets and derivative instruments and execute transactions therein, and substantially all information pertaining to investments and derivative investments included in the financial statements was certified by them. This information has not been audited by independent accountants.

The following presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 are separately identified below:

York Life Trust Company were also considered party-in-interest as New York Life Trust Company is the trustee of the Plan.

Professional fees for the administration and audit of the Plan were expensed by the Plan, as were fees for actuary and investment services. Fees paid by the Plan amounted to \$1,073,464 and \$1,618,822 for the years ended December 31, 2011 and 2010, respectively.

NOTE 9 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated February 25, 2008 stating that the Plan and related trust are qualified under Section 401(a) of the Internal Revenue Code ("the Code"), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since applying for the determination letter, the plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and that the related trust is tax-exempt.

NOTE 10 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 12, 2012, which is the date the financial statements were available to be issued.
