We were engaged to audit the accompanying statements of net assets available for benefits of **The Marlin Companies Incentive Savings Plan** (the Plan) as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by State Street Bank and Trust Company (State Street), the custodian and trustee of the Plan and Massachusetts Mutual Life Insurance Company (MassMutual), recordkeeper for the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that both State Street and MassMutual hold the certified Plan assets and the related transactions. The plan administrator has obtained certifications from State Street and MassMutual as of December 31, 2011 and 2010, and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by State Street and MassMutual is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by State Street and MassMutual, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As further discussed in Note 1 to the financial statements, the plan sponsor of the Marlin Companies Incentive Savings Plan approved termination of the Plan effective August 31, 2011. Therefore, in accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing plan basis used in 2010 to the liquidation basis of accounting used in 2011.

1 Description of Plan

The following description of The Marlin Companies Incentive Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of all of the employees of The Marlin Firearms Company and The Marlin Company (the Companies). In 2010, the Companies decided to cease operations at the Marlin facility by the end of June 2011. Membership in the Plan, which is voluntary, is available to all employees who have completed six months of service, as defined, and have attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan experienced a partial plan termination event in 2010 due to the closing of the Marlin facility. Although this would have resulted in participants who were not 100% vested in their benefits and whose employment involuntarily terminated during 2009 becoming entitled to be fully vested in their Company contributions, all affected participants were already 100% vested at the time of their termination.

On August 31, 2011, the Companies chose to cease contributions and terminate the Plan. At this time, participants became 100% vested in their accounts.

Contributions

Each year, participants may make salary deferral contributions to the Plan subject to the limitations imposed by the Internal Revenue Code (the IRC). Each year, the Companies contribute 100% of a participant's contribution for the first 3% of the participant's eligible compensation deferred and 50% of the next 2% of such compensation, as defined by the Plan document. The Companies may also make discretionary contributions. The Plan also allows individuals who will be at least age 50 by the end of the plan year to make an additional catch up contribution, which is limited based on Section 414(v) of the IRC.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contributions, if eligible, and allocations of the Company's discretionary contribution and plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary deferral plus actual earnings thereon. Vesting in the employer matching contribution is based on the number of years of continuous service. A participant is 100% vested after five years of credited service. Forfeitures of nonvested balances are used to reduce employer contributions as soon as administratively practical.

Effective January 1, 2011, the Plan was amended to apply the company matching 100% immediate vesting schedule under Section 8-2(b) of the Adoption Agreement to all participants who terminate on or after January 1, 2011.

Investment Options

Participants may direct the investment of contributions on their behalf in one or more of the investment funds. Participants may elect to change the percentage of their salary contributed, change the investment directive of future contributions or transfer all or a portion of an existing fund balance to another fund or funds at any time.

Notes Receivable from Participants

Participants may borrow from their fully vested accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are collateralized by the vested balance in the participant's account and bear interest, determined by the plan administrator, at a rate which is commensurate with local prevailing rates. Loan terms range up to five years, except in the case of a loan for a principal residence, which may allow a longer repayment term. Principal and interest are paid through payroll deductions. The notes bear interest rates that range from 5.00% to 5.25% and 5.00% to 9.25% for the plan years ended 2011 and 2010, respectively.

Payment of Benefits

Participants or their designated beneficiaries may make withdrawals from all the accounts in which they are fully vested in accordance with the provisions outlined in the Plan. All withdrawals by participants are subject to approval by the plan administrator, or the trustee if otherwise authorized by the plan administrator, agreed to by the trustee and will not be permitted if they would have the effect of disqualifying the Plan from exemption from taxation.

2 Summary of Significant Accounting Policies**Basis of Accounting**

As further discussed in Note 1 to the financial statements, the Plan sponsor approved termination of the Plan effective August 31, 2011. In accordance with accounting principles generally accepted in the United States of America, the financial statements of the Plan have been prepared on the liquidation basis of accounting for the plan year ended December 31, 2011, and the ongoing plan basis of accounting for the plan year ended December 31, 2010. The change to the liquidation basis for the year ended December 31, 2011, did not have a material impact on the financial statements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for plan benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for plan benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the reported changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Any notes considered in default are treated as deemed distributions based upon the terms of the plan document and included in benefits paid to participants on the statement of changes in net assets available for benefits. There were no notes considered in default as of December 31, 2011 or 2010.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

Administrative Expenses

The Plan Sponsor pays all administrative expenses related to legal, accounting and administrative costs. Expenses associated with account maintenance, transaction and investment fund management are charged to investment earnings by MassMutual before earnings are allocated to participant accounts.

3 Investments

Investments that were greater than 5% of the Plan's net assets available for benefits as of December 31, 2011 and 2010, are as follows:

	2011	2010
	\$	\$
MassMutual Stable Return II *	6,665,472	10,101,129
MassMutual Growth America	624,939	1,143,170
MassMutual Large-Cap Value	496,044	1,069,382
MassMutual Retirement 2020	**	1,109,354

* Represents estimated fair value. During the plan year ended December 31, 2011 and 2010, the contract value of this investment was \$6,496,561 and \$9,884,113, respectively.

** Does not exceed the 5% threshold in the current year.

During the plan years ended December 31, 2011 and 2010, the Plan's net appreciation in fair value of investments was attributable to the Plan's appreciation (depreciation) of investments in pooled separate accounts in the amount of approximately \$142,000 and \$1,052,000, respectively, and to mutual funds of approximately \$(24,000) and \$58,000, respectively.

4 Fair Value Measurements

Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1** Fair value is based on quoted prices in active markets for identical assets and liabilities that the Plan has the ability to access at the measurement date (for example, prices derived from NYSE, NASDAQ and the Chicago Board of Trade).
- Level 2** Fair value for assets and liabilities is based on inputs (other than quoted prices included within Level 1) that are observable for the asset, either directly or indirectly. Such inputs include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.
- Level 3** Fair value is based on inputs that are unobservable for the asset or liability. Value is derived from other valuation methodologies, such as discounted cash flow models and similar techniques, and is not based on market exchange, dealer or broker-traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

The fair value measurement level of assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Accounts

Valued at the fair value based on the fair market value of the underlying mutual fund investments at year-end.

Mutual Funds

Valued at the fair value based on quoted market prices at year-end.

The Plan's investments in pooled separate accounts and mutual funds seek to maximize investor return based on a diversified portfolio of investments such as domestic equity funds, international equity funds, fixed income funds, and cash and cash equivalents. There are no redemption restrictions in place for the pooled separate accounts or mutual funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Stable Value Fund

The Plan's stable value fund records purchases and sales of fund interest by buying and selling units in the respective separate account. The value of those units is recalculated daily based on fair market value of the stable value fund's underlying investment at the valuation dates. The interest rate for the stable value fund is set at the beginning of each calendar year based on a variety of market factors, including yields generally available in fixed income markets.

The actual interest rate credited at December 31, 2011 and 2010, was 2.33% and 2.9%, respectively. The average yield earned by the fund at December 31, 2011 and 2010, was 1.56% and 2.38%, respectively.

As of December 31, 2011, there are no events or circumstances which would limit the fund's ability to transact at contract value with participants.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2011, management evaluated the inputs for the pooled separate accounts and based on revised assumptions about the inputs, moved those previously reported at Level 3 at December 31, 2010, to Level 2 as of the beginning of the 2011 plan year. There were no other transfers in or out of Levels 1, 2 or 3.

The following table set forth by level, within the fair value hierarchy, the Plan's assets available for benefits at fair value as of December 31, 2011:

5 Information Certified by MassMutual and State Street

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street, as custodian and trustee of the Plan and MassMutual, as recordkeeper for the Plan, have certified the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for plan benefits as of December 31, 2011 and 2010;
- Total investment income and interest income, as shown in the statements of changes in net assets available for plan benefits for the years ended December 31, 2011 and 2010;
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2011

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6 Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Companies by letter dated March 2, 2011, that the Plan and related Trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2008.

7 Plan Termination

As of July 1, 2011, the Companies chose to discontinue their contributions and to terminate the Plan subject to the provisions of ERISA. At this time, participants became 100% vested in their accounts

8 Party-in-interest Transactions

Certain plan investments were shares of mutual funds managed by State Street or MassMutual. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

9 Forfeited Accounts

Any forfeited amounts will be applied in satisfaction of administrative expenses and future contributions and by the Company. The forfeited amounts used during the years ended December 31, 2011 and 2010 totaled, \$0 and \$50, respectively. At December 31, 2011 and 2010, forfeited amounts totaled \$20,000 and \$7,500, respectively.

10 Subsequent Events

In accordance with an amendment effective August 2011, plan management approved a standard termination of the Plan. The Company will manage the termination process, including notifying participants and preparing and submitting the required IRS filings. The termination process is expected to begin no later than December 2012.

The Plan evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through October 9, 2012, the date the financial statements were available to be issued.

11 Reconciliation to Form 5500

The following table reconciles the information provided in the Form 5500 to the statement of net assets available for benefits as of December 31, 2011 and 2010, and the statement of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, provided in the financial statements.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on the soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
