NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

A. Description of Plan

The following description of the Scott Robinson Honda (company) 401(k) Profit Sharing Plan (the Plan) provides only general information. The Plan was restated effective January 10, 2011. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the company who have at least one year of service (1,000 hours) and are at least 21 years old. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The company exercises a negative deferral election where it automatically withholds 3% of an employee's compensation for purposes of being contributed into the Plan as a salary deferral, unless an election for an alternative deferral amount (not less than 1 percent) or an election not to participate in the Plan is made. Total contributions may not exceed the limits of Internal Revenue Code Sections 401(k), 404 and 415, which for both 2011 and 2010 the dollar limit is $16,500. Participants who are at least 50 years of age by December 31, 2011 may contribute catch-up contributions up to an additional $5,500. The company may make a matching contribution to the Plan at the discretion of the company. The discretionary matching contribution for the Plan year, if any, shall be 20 percent of the participant's elective deferral contributions paid for the Plan year which do not exceed 5 percent of the participant's compensation. For the year ended December 31, 2011, total employer contributions were $37,481. In addition to the matching contribution, the company may also make a discretionary profit sharing or qualified nonelective contribution that is determined by the company each year. All contributions under the Plan are to be invested in shares of investment companies for which Great-West Life & Annuity Insurance Co. acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self direct their account balance among available investments in the Plan. As of December 31, 2011, all funds invested in the Plan were self directed by the participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the company's contribution and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are first used to defray the reasonable costs and expenses of administration of the Plan. Any remaining amounts will be used to reduce the company's matching contributions for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of Plan (Continued)

Vesting

Participants are immediately vested in their 401(k) contributions plus actual earnings thereon. Vesting in the company's matching contribution portion, if any, of their accounts plus actual earnings thereon is based on years of continuous service. A participant becomes 20 percent vested after two years of service. Beginning with the third year, participants' vesting will increase 20 percent per year until they are fully vested at the end of their sixth year of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Note terms range from one to five years or up to fifteen years for the purchase of a primary residence. The notes are secured by the participant's vested account balance equal to the amount of the loan. Each note bears an interest rate equal to the prime rate plus 1 percent. The current interest rates range from 4.25 percent to 9.25 percent. Principal and interest are paid ratably through payroll deductions on a level amortization basis.

Payment of Benefits

Upon termination of employment, a participant will receive benefits equal to the value of the participant's contributions to the Plan, all vested company contributions, and all related earnings. Participants with a balance less than $1,000 will receive a mandatory distribution. Participants with balances in excess of $1,000 have the option to receive the benefits in the form of a cash payment or installment payments. Upon retirement, a participant will receive 100 percent of the value of the participant's account balance. The participant has the option to receive the benefits in the form of a cash payment or installment payments. Upon death prior to retirement, the full value of a participant's account will be paid to a spouse or another beneficiary. The account balance will be paid in installments or a lump sum cash payment.

Forfeited Accounts

Amounts forfeited from terminating participants' non-vested portions of their company contributions and earnings may be used to reduce future employer contributions. At December 31, 2011, the forfeiture account totaled $166.

Plan Administrator Fees

To the extent the company does not choose to pay for them, all routine Plan administrative expenses for such services as account record keeping, required audits, governmental filings and selection of investment contracts performed by third-party service providers shall be charged against plan investment earnings before such earnings are allocated to participant accounts. For the plan year ended December 31, 2011, administrative fees totaled $6,607.

B. Summary of Accounting Policies

Date of Management's Review

For the year ended December 31, 2011, the Plan has evaluated subsequent events for potential recognition and disclosure through October 2, 2012, the date on which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments, except notes receivable from participants, are presented at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Great-West Life & Annuity Insurance Co., based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred.

Notes receivable from participants are valued at the outstanding balance which approximates fair value.

Purchases and sales of these investments are reflected on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investments

The following presents investments at December 31, 2011 and 2010 that represent 5 percent or more of the Plan's net assets:

	December 31, 2011		December 31, 2010	
Description	Units	Fair Value	Units	Fair Value
Russell Lifepoints Bal Strategy	n/a	n/a	872,852.16	$1,200,825
AUL Fixed Account	n/a	n/a	n/a	$1,537,873
Maxim Lifetime 2035 Portfolio	83,221.096226	$1,086,868	n/a	n/a
Key Guaranteed Portfolio Fund	n/a	$1,553,608	n/a	n/a

During the plan year, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $54,389 as follows:

Mutual funds	$ (207,337)
Interest	118,609
Dividends	137,635
Other income	5,482
	$ 54,389

D. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of their future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lower priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

D. Fair Value Measurements (Continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on net asset values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of guaranteed portfolio fund is based on the underlying assets of the contracts. The fair value is expressed in units.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010.

Total assets at fair value	$ 2,596,676	$ 1,537,873	$ 4,134,549

E. Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Co. Great-West maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals. The contract is included in the financial statements at fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. Great-West may not terminate the contract at any amount less than contract value.

Great-West is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The methodology for calculating the interest rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

	2011
Average yields	
Based on actual earnings	2.03%
Based on interest rate credited to participants	2.03%

F. Information Prepared and Certified by Custodians (Unaudited)

At December 31, 2011 and 2010, the Plan's investments were held by the Custodians. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodians as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2011 and 2010, as reported by the Custodians is summarized as follows:

	2011	2010
Investments, at fair value:		
Shares of registered investment companies	$2,717,293	$2,596,676
Insurance company general account	$1,553,608	$1,537,873
Investment income:		
Interest	$ 106,292	
Dividends	$ 137,635	
Net depreciation in fair value of investments	$ (207,337)	
Other income	$ 5,482	

G. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

H. Tax Status

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that the Plan and related trust are qualified under applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to2009.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Great-West Life & Annuity Insurance Co. Great-West Life & Annuity Insurance Co. is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services amounted to $6,607 for the year ended December 31, 2011.
