Maxum Petroleum 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

NOTE A - PLAN DESCRIPTION

The following description of the Maxum Petroleum 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan prototype document and adoption agreement for a more complete description of the Plan's provisions.

1. *General*

The Plan, established September 1, 2008, is a defined contribution plan covering eligible employees of Maxum Petroleum, Inc. and its subsidiaries (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

2. *Eligibility*

Employees who have completed one month of service and are age eighteen years or older are eligible to participate in the Plan except for employees covered by a collective bargaining agreement, nonresident alien employees, leased employees, or independent contractors. Eligible employees become participants in the Plan on the first day of the month coincident with or following the date the eligibility requirements are met.

3. *Contributions*

Participants may elect to make pre-tax and after-tax contributions to the Plan, as defined by the Plan document and subject to the maximum amount allowable by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company may make discretionary matching contributions. In 2011, the Company made discretionary matching contributions equal to 50% of the first 4% of the participant's compensation. Effective January 1, 2012, the Plan was amended to add Company safe harbor matching contributions equal to 100% of the first 3% of the participant's compensation and 50% of the next 2% of the participant's compensation.

4. *Vesting*

Participants are immediately vested in their elective deferral contributions and the Company contributions plus actual earnings or losses thereon.

5. *Participant accounts*

Each participant's account is credited with the participant's contribution, the Company's contribution, an allocation of Plan earnings (losses) and administrative expenses. Allocations are based on account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

6. *Investment options*

Participants may direct their account to be invested in any of the investment options offered by the Plan. Participants may change their investment options daily. The Plan does not have any non-participant directed investments.

NOTE A - PLAN DESCRIPTION - Continued

7. *Payment of benefits*

Plan benefits are available to participants upon retirement, death, disability, termination of employment or in-service withdrawals, including financial hardship and after attaining age 59½, as defined in the Plan provisions. Benefits may be paid in a lump-sum amount equal to the value of the participant's vested account.

8. *Forfeitures*

Forfeitures may be used to reduce Company matching contributions. Unallocated forfeitures totaled $16,304 and $109,088 as of December 31, 2011 and 2010, respectively. Forfeitures of $118,459 were used to reduce Company matching contributions during 2011.

9. *Notes receivable from participants*

Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50 percent of their vested account balances. The loans are secured by the balance in the participant's account and bear interest at one percentage point higher than the Wall Street Journal prime rate on the date the loan is issued. The loans that transferred from the predecessor plans in 2008 bear interest at the rate that was effective under the respective predecessor plans. Interest rates ranged from 4.25% to 10.25% at December 31, 2011 and from 4.25% to 10.5% at December 31, 2010. Principal and interest are paid through payroll deductions. The repayment term is no more than five years unless it is for the purchase of a principal residence for which the repayment period is fifteen years. Participants may have two loans outstanding at any time.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

1. *Basis of accounting and presentation*

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the T. Rowe Price Stable Value Fund (SVF), which is a fully benefit-responsive investment contract. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

2. *Use of estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. *Administrative expenses*

The Company pays certain administrative expenses on behalf of the Plan, which are not included in these financial statements.

4. *Investment valuation and income recognition*

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date (see Note E for discussion of fair value measurements.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

5. *Notes receivable from participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

6. *Payment of benefits*

Benefits are recorded when paid.

7. *Subsequent events*

The Plan has evaluated and disclosed subsequent events through October 11, 2012, which is the date the financial statements were available to be issued.

NOTE C - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are invested in funds provided by T. Rowe Price Trust Company (TRP). The Plan also paid $19,275 of administrative fees to TRP during 2011. TRP is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE D - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2011	2010
T. Rowe Price Retirement 2015 Fund*	$ 2,163,163	$ 2,505,941
T. Rowe Price Retirement 2020 Fund*	5,408,053	5,920,601
T. Rowe Price Retirement 2025 Fund*	5,226,063	5,633,580
T. Rowe Price Retirement 2030 Fund*	5,254,067	5,306,527
T. Rowe Price Retirement 2035 Fund*	3,108,763	3,276,569
T. Rowe Price Stable Value Fund*	3,082,901	2,057,248

* Party in interest transactions

NOTE E - FAIR VALUE MEASUREMENTS

The fair value hierarchy categorizes and prioritizes the inputs used to estimate fair value into three levels based upon their observability. Level 1 has the highest priority and Level 3 has the lowest. If an input is based on bid and ask prices, the use of a mid-market pricing convention is permitted. The three levels of the fair value hierarchy are defined as follows:

- Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices (in non-active markets or in active markets for similar assets or liabilities), inputs other than quoted prices that are observable, and inputs that are not directly observable, but that are corroborated by observable market data.
- Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to the extent that observable inputs are not available, allowing for situations in which there is little, if any, market activity for an asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds are classified under Level 1 because they are valued at quoted market prices in active markets at the Plan year-end.

NOTE E - FAIR VALUE MEASUREMENTS - Continued

The SVF is classified under Level 3 and is valued at the net asset value (NAV) of the shares held by the Plan at year-end. The FASB issued guidance on estimating the fair value when the investment calculates NAV per share, but does not have a readily determinable fair value. It permits the use of the investment's NAV as a practical expedient to determine fair value. The SVF's investment objective is to seek a competitive level of income over time that is consistent with the preservation of capital. Participants' ownership of the SVF is represented as units. It is the policy of the SVF to use its best efforts to maintain a stable NAV of $1 per unit, although there is no guarantee that the SVF will be able to maintain this value. See the table below and Note F for further discussion of the SVF.

			Notice for liquidity	
	Fair value at December 31, 2011	Redemption frequency	Participant-initiated	Plan-initiated
T. Rowe Price Stable Value Fund	$ 3,082,901	Daily at $1 per unit	Daily with no written notice	12 or 30 day written notice

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010:

NOTE F - STABLE VALUE FUND

The SVF is a common collective trust that invests in guaranteed investment contracts (GICs) issued by insurance companies, investment contracts issued by banks, structured or synthetic investment contracts (SICs), separate account contracts, wrapper contracts, and other similar instruments that are intended to maintain a constant net asset value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in the SVF at contract value. Contract value represents original cost plus accrued income and contributions, less participant withdrawals and administrative expenses. The SVF imposes certain restrictions on the Plan, and the SVF itself may be subject to circumstances that impact its ability to transact at contract value. Examples include, but are not limited to, partial or complete legal termination of the Plan or SVF, tax disqualification of the Plan or SVF, and certain SVF amendments if issuers' consent is not obtained. Plan management believes the occurrence of events that would cause the SVF to transact at less than contract value is not probable.

NOTE F - STABLE VALUE FUND - Continued

There are no reserves against contract value for the credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon by the issuer, but may not be less than zero percent. The SICs are designed to reset the respective crediting rate at least quarterly. The traditional GICs do not reset their crediting rates as they provide for a fixed rate of interest over the term to maturity of the contracts.

Dividends and interest on the SVF were $79,591 for the year ended December 31, 2011.

Information on the SVF is as follows:

	2011	2010
Average yield	3.55%	4.34%
Crediting interest rate at December 31	2.93%	4.02%

NOTE G - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE H - TAX STATUS

The prototype plan, utilized by the Company to adopt their plan, received its latest opinion letter dated March 31, 2008, in which the Internal Revenue Service (IRS) stated that the prototype plan, as then designed, qualifies under Section 401(a) of the IRC. The Plan has been amended since receiving the determination letter, however, the Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Company has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status. Therefore, no provision for income taxes has been included in the Plan financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2008. The IRS examined and closed the year ended December 31, 2009 with no changes required.

NOTE I - INFORMATION CERTIFIED BY TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010.

- Schedule H, Line 4i - schedule of assets (held at end of year), December 31, 2011.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE K - RISKS AND UNCERTAINTIES

In general, the investments held by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE L - SUBSEQUENT EVENT

On August 31, 2012, Pilot Travel Centers LLC (Pilot) acquired a controlling interest in the Company and assumed administration of the Plan. Effective January 1, 2013, Wells Fargo Bank, N.A. will become the directed trustee and recordkeeper of the Plan.
