SOFTWARE GUIDANCE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 (AUDITED) AND DECEMBER 31, 2010 (COMPILED)

1. DESCRIPTION OF PLAN

The following description of the Software Guidance 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was established on January 1, 1995, by Software Guidance & Assistance, Inc. (the "Company" or "Plan Sponsor"). The Plan covers all employees who have six months of service and are not covered by a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Participants are permitted to make contributions of up to 15% of their annual base salary. The amount deferred in any calendar year may not exceed the limits specified under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

A participant may, with the consent of the Plan administrator, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from a qualified savings plan in which an employee participated prior to their employment by the Company.

Employer's Contributions

Matching contributions are not permitted under the Plan. However, non-elective contributions are permitted to the Plan at the discretion of the Company. The non-elective contributions will be allocated to all employees eligible to participate in the Plan. No non-elective contributions were made for the year ended December 31, 2011.

Investment Options

The Plan's assets are held by Reliance Trust Company ("Reliance" or the "Trustee"). Contributions by or on behalf of a participant have been invested at the election of the participant in the mutual funds and collective trusts administered by Reliance.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any) and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate on the 14th of each month, plus 2% points. The maximum term for loans is generally five years unless the loan is used for the purchase of participant's primary residence. Loans used to purchase a primary residence may be repaid within a period of no more than 30 years. Principal and interest are paid ratably through payroll deductions.

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled from the Plan.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. All participants entering the Plan will have a nonforfeitable right to 100% of the non-elective contributions.

Participant Distributions

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments over a period of not more than their assumed life expectancy as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis.

Recently Adopted Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, *Improving Disclosures about Fair Value Measurements.* This update amends FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* to require new disclosures for significant transfers in and out of Level 1 and Level 2 fair value measurements, disaggregation regarding classes of assets and liabilities, valuation techniques, and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for Level 2 or Level 3. These disclosures are effective for reporting periods beginning after December 15, 2009. Additional new disclosures regarding the purchases, sales, issuances, and settlements in the rollforward of activity in Level 3 fair value measurements are effective for fiscal years beginning after December 15, 2010. The Plan adopted certain of the relevant disclosure provisions of ASU 2010-06 on January 1, 2010, and certain other provisions on January 1, 2011. The adoption of this standard did not have a material effect on the Plan's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the exdividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the net appreciation or depreciation in fair value of such investments.

Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The administrative expenses of the Plan, other than recordkeeping fees, are paid by the Plan Sponsor.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated subsequent events through October 8, 2012, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. EXCESS CONTRIBUTIONS PAYABLE

Excess contributions payable represent payments due to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their employer contributions.

6. TAX STATUS

The Plan uses a prototype plan document sponsored by Automatic Data Processing, Inc. Retirement Services ("ADP"). ADP received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, which states that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since the third party administrator received its opinion letter from the IRS for the prototype plan adopted by the Plan, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. RELATED-PARTY TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. All administrative expenses other than certain record keeping fees are paid directly by the Sponsor.

Certain assets of the Plan are held by a co-advisor of the trustee; as such, these transactions qualify as party-in-interest transactions.

11. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

11. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2011 and 2010:

During the years ended December 31, 2011 and 2010, there were no transfers between levels of the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common/Collective Trust: is valued using a net asset value ("NAV"). The NAV of a common/collective trust is based on the market values of the underlying securities in an active market. The beneficial interest of each participant is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

Mutual Funds: are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

12. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported NAV per share at December 31, 2010:

	Fair Value Estimated Using NAV per Share December 31, 2010				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Common/collective trust: Retirement Preservation Trust (a)	$ 544,714	$ -	Daily	None	None
Total	$ 544,714	$ -			

The fair value of the investment have been estimated using the NAV of the investments:

(a) The Retirement Preservation Trust seeks to preserve principal, maintain high liquidity and earn an appropriate market return.

13. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The common/collective trust (investment contract) held by the Plan in 2010 (and through February 28, 2011) is fully benefit-responsive, and contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fully benefit-responsive investment contract. The fully benefit-responsive investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Custodian represents contributions made under the contract, plus earnings, less participants withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Prior to October 6, 2010, the Plan's investment in the Merrill Lynch Retirement Preservation Trust (the "Trust") represented a common/collective trust sponsored by Bank of America, N.A. ("BOA"), which fully invests its funds in fully benefit-responsive traditional guaranteed investment contracts ("GICs") and synthetic GICs. On October 6, 2010, BOA approved a resolution to terminate the Trust and commence liquidation of its assets. Effective with BOA's approval of the resolution, the Trust's wrap contracts were eliminated and its accounting method changed from contract value to fair value accounting for the Trust. Upon termination of the Trust, on February 28, 2011, the remaining funds in the Trust were transferred into the Retirement Reserves Money Fund.

13. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (CONTINUED)

The existence of certain conditions can limit the Trust's ability to transact at contract value with the issuers of its investment contracts, including, but not limited to, partial or complete legal termination of the trust or a unit holder, tax disqualification, withdrawal of a Plan sponsor, and certain trust amendments if the issuer's consent is not obtained. Further, the guaranteed investment contracts generally did not permit the issuer to terminate the agreement prior to the scheduled maturity date.

The interest crediting rate was calculated based upon many factors, including current economic and market conditions, the general interest rate environment, the amount and timing of participant contributions, and transfers and withdrawals. For the year ended December 31, 2010, the average yield earned for the Trust fund was 1.73%.
