We were engaged to audit the accompanying statements of net assets available for benefits of the PetroLiance, L.L.C. 401(k) Plan as of December 31, 2011 and 2010, the related statement of changes in net assets available for benefits for the years then ended and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held at End of Year) for the year ended December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Global Services, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee or custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PETROLIANCE, L.L.C. 401(k) Plan

Notes to the Financial Statements
December 31, 2011

NOTE 1 - DESCRIPTION OF PLAN

The following description of the PetroLiance, L.L.C. 401(k) Plan ("Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Any subsequent references to "Company" shall mean PetroLiance, L.L.C.

General: The Plan is a defined contribution plan covering all regular full-time employees and employees whose regularly scheduled service is 1,000 or more hours of service, who have completed 2 months of service by the next plan entry date, and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year participants may contribute up to 50% of pretax compensation and 100% of bonuses, as defined in the Plan. Contributions are subject to annual deductibility limits specified under the Internal Revenue Code. The annual limitation was $16,500 for 2011. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-five mutual funds as investment options for participants. The Company made and funded a matching contribution to the Plan for each contribution period in an amount equal to 50% of the employee's deferral to eligible employees. The Company, at its discretion, can amend the plan and change the required Company contribution percentage.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a)the company's contribution and (b)plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Loans: Participants may borrow from their fund accounts a minimum of $500 and up to a maximum of $50,000, or 50% of their account balance, whichever is less. The Plan allows up to two outstanding loans at one time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.50 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service due to death, disability, or retirement a participant may elect to receive either (a)a lump-sum amount equal to the value of the participant's vested interest in their account or (b)installment payments. This distribution, or rollover, must be made in accordance with IRS regulations regarding the automatic rollover of mandatory distribution rules issued in Notice 2005-5. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If the participant's account balance is $5,000 or less a lump-sum distribution is required. Employees with five or more years of service are entitled to retirement benefits beginning at normal retirement age (65 years). Benefit payments can be in the form of a life annuity, a joint and survivor annuity, one lump sum payment, partial withdrawals, or payments over a period certain in monthly, quarterly, semi-annual, or annual cash installments. No early retirement provision is provided. In-service distributions may be made to a Participant who has not separated from service provided the Participant has attained age 59 ½. Hardship withdrawals are permitted if certain criteria are met.

Forfeitures: Upon termination of employment participants forfeit their nonvested balances. Forfeited balances of terminated participants' nonvested accounts are used to reduce future company contributions. At December 31, 2011 and 2010 forfeited non-vested accounts totaled $6,085 and $2,977 respectively. These accounts will be used to reduce future employer contributions. Forfeitures used to reduce Company contributions for 2011 were $9,302.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value and are measured by quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements*: The Company adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("SFAS 157"), effective January 1, 2010. In accordance with SFAS 157, "fair value" is defined as the price that a Company would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. Various inputs are used in determining the value of a Company's investments. SFAS 157 established a three-tier hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The Plan values investments based on quoted prices in active markets for identical securities.

Participant Loans Receivable: Participant loans receivable are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Operating Expenses: All expenses of maintaining the plan are paid by the company.

During the years ended December 31, 2011 and 2010 the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated/(depreciated) in fair value as follows:

	2011	2010
Common/Collective Trusts	$ (161,502)	$ 509,783
Registered Investment Companies	72,571	860,195
	$ (88,931)	$ 1,369,978

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair market value hierarchy under SFAS 157 are described below:

NOTE 4 – FAIR VALUE MEASUREMENTS (cont'd)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: ▪ Quoted prices for similar assets or liabilities in active markets; ▪ Quoted prices for identical or similar assets or liabilities in inactive markets; ▪ Inputs other than quoted prices that are observable for the asset or liability; ▪ Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair market value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011.

Shares of registered investment companies: Investments in shares of registered investment companies are reported at fair value based on the quoted market prices of the funds, which represent the asset value of shares held by the Plan at year-end.

Shares of common/collective trusts: Investments in shares of common/collective trusts are reported at fair value based on the quoted market prices of the funds, which represent the asset value of shares held by the Plan at year-end.

Participant Loans: Participant loans are reported at their unpaid principal balance.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – FAIR VALUE MEASUREMENTS (cont'd)

All investments in the statement of net assets available for benefits are reported at fair value. The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2011.

	Assets Meaured at Fair Value			
	Total	Level 1	Level 2	Level 3
Common/Collective Trusts	$ 2,063,529	$ 2,063,529	$ -	$ -
Registered Investment Companies	$ 5,744,393	$ 5,744,393	-	-
Participant Loans	$ 459,238	$ 459,238	-	-
	$ 8,267,160	$ 8,267,160	$ -	$ -

NOTE 5 - PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 – DOL LIMITED SCOPE AUDIT

The DOL's Rules and Regulations for Reporting and Disclosure under ERISA allow for a limited scope audit with respect to investment information prepared and certified by a certified institution. The limited scope exemption applies only to the investment information and does not extend to participant data, contributions, benefit payments, and other information.

NOTE 7 - TAX STATUS

The plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 8 - RELATED PARTY TRANSACTIONS

All plan investments are held and managed by State Street Global Advisors. These investments qualify as party-in-interest. Additionally, PetroLiance, LLC provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged.

NOTE 9 – RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
