Note 1. Plan Description

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering substantially all employees of O'Brien Steel Service Co., GTT, Inc., Certified Heat Treating Company, and Rohn Products, LLC who are twenty-one years of age or older and have completed one year of service as defined by the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 70% of their wages in the form of a payroll deduction subject to the annual Section 415 dollar limits. The Plan has been amended so the company automatically had each employee make a 5% contribution to the Plan through June 30, 2009 and 3% after June 30, 2009. The employee can elect to have this automatic feature not apply. The Company makes a matching contribution of 100% of the first 2% of compensation and 50% of the next 3% of compensation for January 1 through June 30, 2009. For July 1 through December 31, 2009, the match was changed to 50% of the first 6% of compensation, limited to $2,500 in total. Beginning January 1, 2010, the match became discretionary.

Participant accounts: Each participant's account is credited with his or her voluntary contributions and allocations of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-directed investments: Participants may select from various investment options offered by Charles Schwab Bank in which to invest their account balances on a daily basis. If a participant does not designate any investment options, all contributions to their account will be deposited into the Money Market Account.

Vesting: Participants are immediately vested in their voluntary contributions and actual earnings thereon. Vesting in the Company's contribution and earnings thereon is based on years of service. The participant is fully vested after six years of credited service from the date of employment.

Payment of benefits: Balances relating to employee deferrals plus earnings will be paid in a lump-sum or annuity upon termination of services.

Forfeitures: Forfeitures of terminated participants' nonvested accounts are used to reduce administrative expense and then reduce employer contributions. Unused forfeitures included in net assets available for benefits were $2,113 and $2,191 as of December 31, 2011 and 2010, respectively. During 2011, $3,758 of forfeitures were used to reduce administrative expenses.

Participant notes receivable: A participant may not borrow from his or her participant account balances.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of investment contracts as well as the

Note 2. Summary of Accounting Policies (continued)

adjustment of the fully benefit-responsive investment contracts from fair value to contract value at December 31, 2011 and 2010, contract value approximates fair market value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes that Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses: All administrative expense may be paid out of the Plan unless paid by the Company. The Plan paid $11,519 in administrative expenses.

Payments of benefits: Benefits are recorded when paid.

Subsequent Events: Subsequent events have been evaluated through October 8, 2012, which is the date the financial statements were available to be issued.

Effective January 1, 2012 the Plan became a safe harbor plan. Also in April 2012, O'Brien purchased Wausau Steel Company, LLC and they will be a participating company in the Plan effective July 1, 2012.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the termination of the Plan, all amounts become fully vested and shall be distributed to the participants.

Note 4. Income Tax Status

The Plan has received a letter from the Internal Revenue Service as to its qualified status. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Note 5. Related Party Transactions

Certain Plan investments are managed by Principal Life Insurance Company (former trustee) and Charles Schwab Bank (current trustee). As Principal and Schwab were the trustees as defined by the Plan, those transactions qualify as party-in-interest transactions.

Note 6. Information Certified by Trustees

The following is a summary of the plan's assets information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the former and current trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 6. Information Certified by Trustees (continued)

Principal Life Insurance Company also certified to the completeness and accuracy of $60,029 of net depreciation in fair value of pooled separate accounts and $770 of net depreciation of guaranteed interest accounts related to the aforementioned assets for the year ended December 31, 2011. Charles Schwab Bank also certified to the completeness and accuracy of $79,483 in fair value of registered investment companies (mutual funds).

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Fair Value Measurements

Accounting Topic 820, *Fair Value Measurements,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 8. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on the current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common/collective trust: The fair value is based on the net asset value of units held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

	Level 1	Level 2	Level 3	Total

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2011:

Level 3
Year Ended December 31, 2011

	Pooled separate accounts	Guaranteed interest account
Balance, beginning of year	$ 225,882	$ 558,231
Interest	-	-
Gains and losses	(242,034)	(582,947)
Purchases	16,152	24,716
Balance, end of year	$ -	$ -

The only transfer between levels was $436 out of level 2 pooled separate accounts into the level 3 guaranteed interest account during the year ended December 31, 2011.

Note 9. Fair Value of Investments in Certain Entities that Calculate Net Asset Value per Share (or its equivalent)

The following table set forth additional disclosures of Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2011:

Investment	FV	Unfunded commitment	Redemption Frequency	Redemption Notice period
Common/collective trust (a)	$ 660,212	$ -	Immediate	None

(a) This category includes a common/collective trust whose objective is to protect principal while providing a higher rate of return than shorter term investments, such as money market funds. The fund invests a high percentage of its net assets in diversified portfolio bonds, including corporate bonds, US Treasuries and debt guaranteed by the US Government. The fair value of investments in this category has been estimated using the net asset value per share for the underlying investments.

Note 10. Reconciliation Between Financial Statements and the Form 5500

	2011	2010
Net assets available for benefits per the financial statements	$ 6,599,439	$ 5,856,743
Benefits payable	7,846	-
Excess contributions refundable	16,605	20,661
Adjustment to contract value	34,585	-
Net assets available for benefits per the Form 5500	$ 6,658,475	$ 5,877,404

The following is a reconciliation of the change in net assets available per the financial statements to the Plan's Form 5500, Schedule H, for the year ended December 31, 2011.

Change in net assets available for benefits per the financial statements	$ 742,696
Excess contributions refundable and benefits payable	3,790
Adjustment to contract value	34,585
Change in net assets available for benefits per Form 5500, Schedule H	$ 781,071

Note 11. Investment Contracts

In 2011, the Plan entered into benefit-responsive investment contracts with Charles Schwab Bank (Schwab). Schwab maintained the contributions in a general account. The accounts are credited with earnings on underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Charles Schwab Bank in 2011. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The

Note 11. Investment Contracts (continued)

guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net asset available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by Charles Schwab Bank, represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2011 was $660,212.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probably occurring. The average yield credited to the participants account based upon actual earnings was approximately 2.47% for the year ended December 31, 2011.
