NOTE A – PLAN DESCRIPTION

The following description of the Owens Healthcare 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for more complete information.

GENERAL
The Plan is a defined contribution plan covering substantially all employees of Owens Healthcare (the Company). The Company is a pharmacist-owned healthcare company specializing in the areas of retail pharmacy, compounding pharmacy, infusion services, medical equipment and respiratory services. The original Plan became effective January 1, 1991 and has been subsequently amended. The provisions of the Plan are included in the official Plan document, which legally governs the operations of the Plan and is available for more detailed information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ELIGIBILITY
Covered employees who have completed 500 hours of service and are age eighteen or older may elect to enter the Plan. In general, covered employees may enter the Plan on the first day of the month coinciding with or next following the date on which they satisfy the eligibility requirements.

PARTICIPANT AND COMPANY CONTRIBUTIONS
Each year, participants may elect to contribute a percentage of their eligible compensation to the Plan, either in pre-tax contributions from 1% to 100%, up to the maximum allowed under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover funds from other qualified plans.

In addition, the Plan requires the employer to make mandatory safe harbor matching contributions whereby the employer matches 100% of each participant's deferral up to 3% of the participant's compensation and 50% of each participant's deferral between 3% and 5% of compensation.

PARTICIPANTS ACCOUNTS
Each participant's account is credited with the participant's contribution and allocations of (a) the employer's contributions, and (b) Plan earnings or losses and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING
Participants are immediately 100% vested in their elective (voluntary) contributions and employer contributions.

NOTE A – PLAN DESCRIPTION (Cont.)

NOTES RECEIVABLE FROM PARTICIPANTS

The Plan provides that participants can borrow funds of at least $1,000 up to a maximum equal to the lesser of 50 percent of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at fixed rates equal to the published prime rate, plus two percent. The term of the loan cannot exceed five years, except if the loan proceeds are used to finance the purchase of a primary residence, in which case the loan term may not exceed ten years. Principal and interest is paid ratably through payroll deductions. The interest rate on all outstanding loans as of December 31, 2011 was 3.25%.

BENEFIT PAYMENTS

Distributions of benefits are defined in the Plan document. Generally, distributions may be made upon retirement, total and permanent disability, reaching fifty-nine and one half years of age, termination of employment, or demonstration of a financial hardship. Participants or beneficiaries receive, upon request, either a lump-sum payment or installments paid over a fixed number of years, or any other form of payment that may be permitted under the Plan.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

INVESTMENT VALUATION AND INCOME RECOGNITION

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note C for discussion of fair value measurements.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS
Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

ESTIMATES
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabies. Accordingly, actual results could differ from those estimates.

PAYMENT OF BENEFITS
Benefit payments to participants are recorded when paid.

OPERATING EXPENSES
The Company paid administrative costs on behalf of the Plan for the years ended December 31, 2011 and 2010.

DATE OF MANAGEMENT REVIEW
Subsequent events were evaluated through September 28, 2012, which is the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation method include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset and liability; and

	• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan for investment assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Account: The underlying assets of the pooled separate account consist of mutual funds and a common collective trust known as sub-accounts. Each sub-account invests its shares or units of an underlying mutual fund or common collective trust, respectively. Sub-accounts are measured in terms of accumulation units. The sub-accounts are valued based on the quoted market prices of the mutual funds and the underlying assets of the common collective trust. Certain fund fees and expenses, mortality and risk charges, and administration charges are deducted from the value of both the mutual funds and the common collective trust to arrive at the value of the sub-accounts. The accumulation units are valued at net asset value on a daily basis. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay withdrawal from the pooled separate account in order to ensure that securities liquidations will be carried out in an orderly business.

Group Annuity Contracts: The contracts are included in the financial statements at fair value. Fair value is determined by discounting the related cash flows based on current yields of similar instruments with comparable duration considering the credit-worthiness of the issuer. See footnote E.

Notes Receivable from Participants: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, which the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine

the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2011 and December 31, 2010.

NOTE D – UNAUDITED INVESTMENT INFORMATION CERTIFIED BY TRUSTEE

The following is a summary of the Plan's unaudited investment information certified by the Plan's Trustee, Standard Insurance Company, as complete and accurate as of and for the years ended December 31, 2011 and 2010, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations and Disclosure under ERISA. Investments that represent 5% or more of the plan's net assets are separately identified.

	2011	2010
Pooled Separate Account	$ 2,522,505	$ 2,879,086
Group Annuity Contract	1,705,044	1,508,218
Total investments certified by Standard	$ 4,227,549	$ 4,387,304

At December 31, the Plan's investments, (including investments bought, sold and held during the year) appreciated (depreciated) in value as follows:

	2011	2010
Pooled Separate Account	$ (63,001)	$ 401,324

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with Standard Life Insurance Company. Standard Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by Standard Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than the contractually guaranteed rate. Such interest rates are reviewed on a quarterly basis.

Certain events limit the ability for the Plan to transact at contract value with the issuer. Such events include the following: termination of the contract, spinoffs, divestures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY, (CON'T.)

The guaranteed insurance contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2011	2010
Based on actual earnings:	3.37%	3.37%
Based on interest rate credited to participants:	3.37%	3.37%

NOTE F – RELATED PARTY TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan invested in funds managed by Standard Insurance Company, the custodian of the Plan as of December 31, 2011; therefore, these transactions qualify as exempt party-in-interest transactions.

The Company provides certain accounting and administrative services to the Plan for which it receives no compensation. All legal, accounting and administrative fees are paid by the Company. Fees paid by the Plan for investment management services were included as reductions of the return on each fund.

NOTE G – TAX STATUS

The Plan was restated to adopt a prototype plan established by Sungard Corbel, LLC effective January 1, 2008. The Sungard prototype plan was granted a determination letter from the Internal Revenue Service dated March 31, 2008 stating that the Plan document as then designed, was in compliance with Section 401 of the Internal Revenue Code, and, therefore, the underlying trust is not subject to tax under IRC 501(a). The Plan has been amended since receiving the determination letter. However, the plan sponsor is not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan. Therefore, no provision for income tax has been included in the Plan's financial statements.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – SUBSEQUENT EVENTS

Events or transactions occurring subsequent to year end through the date the financial statements were available to be issued, September 10, 2012, have been evaluated in the preparation of the accompanying financial statements. Management is not required to and has not evaluated events or transactions that occurred after September 10, 2012.
