Independent Auditor's Report

To the Trustee
Hollywood Woodwork, Inc.
Employee Stock Ownership Plan
Hollywood, Florida

We have audited the accompanying statements of net assets available for benefits of Hollywood Woodwork, Inc. Employee Stock Ownership Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Hollywood Woodwork, Inc. Employee Stock Ownership Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets as of December 31, 2011, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Description of Plan

The following description of the Hollywood Woodwork, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: Hollywood Woodwork, Inc. (the "Company") established the Plan effective January 1, 1999. The Plan operates, in relevant part, as a non-leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by a Committee comprised of one or more persons appointed by the Company's Board of Directors.

The Plan purchased Company common shares using the proceeds of a borrowing from the Company, and holds the stock in a trust established under the Plan. The loan was repaid during 2005 and the Plan is no longer leveraged.

If the Plan were to borrow money to purchase additional stock from the Company at a future date, such borrowings would generally be collateralized by the unallocated shares of stock. As the Plan makes each payment of principal, an appropriate percentage of stock would be allocated to eligible employees' accounts in accordance with applicable regulations under the Code. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan would present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Company and its participating subsidiary are generally eligible to participate in the Plan after completing one year of service providing they worked at least 1,000 hours during the consecutive 12-month period. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Payments of benefits: Distributions from the Plan can be made once a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), terminates employment with the Company and its participating subsidiary or otherwise has been a participant of the Plan for at least ten years and has attained the age of 55. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations.

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries. There were no unallocated shares as of December 31, 2011 or 2010.

Note 1. Description of Plan (Continued)

Plan termination: The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Committee shall direct the trustee to pay all liabilities and expenses of the trust fund.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of employer contributions not used for debt retirement and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Forfeitures of terminated participants' nonvested account balances allocated to remaining participants for the year ended December 31, 2011 were $22,800. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's end of the year account balance to all participants' end of the year account balances.

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company.

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants whose employment terminates due to retirement, permanent disability or death will be fully vested in their account.

Put option: Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any share of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 1. Description of Plan (Continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. Distributions attributable to diversification were $74,504 for the year ended December 31, 2011.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts or assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The shares of Company common stock are valued at estimated fair value. See Note 4 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Operating expenses: Substantially all expenses of maintaining the Plan are paid by the Company.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-6, *Fair Value Measurements and Disclosures – Improving Disclosures About Fair Value Measurements*, which requires new disclosures and reasons for transfers between Level 1 and Level 2 measurements under the fair value hierarchy. This amendment also clarifies that disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. With the exception of the following sentences, the Plan adopted this guidance as of January 1, 2010. The amendment further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. This portion of the amendment was adopted January 1, 2011.

Note 2. Significant Accounting Policies (Continued)

In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements*, to converge the fair value measurement guidance in accounting principles generally accepted in the United States of America and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 11, 2012, the date the financial statements were available to be issued.

Note 3. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 8, 2001, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Notwithstanding this position, certain inconsistencies have been identified between the Plan's operation and the written terms of the Plan with respect to the form of distributions. The Plan Administrator is filing under Revenue Procedure 2008-50 to obtain assurance as to the Plan's continuing tax-exempt status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under that framework are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

- Level 2 – Inputs to the valuation methodology include

    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The fair value of Hollywood Woodwork, Inc. common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques, taking into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of the Company's assets and liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes it valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2011 and 2010, the Plan's sole asset measured at fair value was its investment in Company common stock, which was considered a Level 3 investment within the fair value hierarchy.

Note 4. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011:

	Hollywood Woodwork, Inc. Common Stock
Balance, beginning of year	$ 2,103,840
Realized gains/(losses)	-
Unrealized gains/(losses) relating to assets still held at the reporting date	(769,440)
Shares distributed to participants	-
Balance, end of year	$ 1,334,400

Unrealized gains or losses related to assets held at the reporting date are included in net unrealized depreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Note 5. Administration of Plan Assets

The Plan's assets, which consist principally of Hollywood Woodwork, Inc. common shares, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company or its subsidiary. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

Note 6. Investments

The Plan's investment in the Company's common shares at December 31, are as follows:

	2011	2010
	Allocated	Allocated
Number of shares	**48,000**	48,000
Cost	**$ 3,000,000**	$ 3,000,000
Fair value	**$ 1,334,400**	$ 2,103,840

Note 7. Risks and Uncertainties

The Plan invests in Company common stock, which is exposed to several risks such as market and credit risks. Due to the level of risk association with the common stock, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the Plan's financial statements.
