MUSICK, PEELER & GARRETT LLP
EMPLOYEE ASSET ACCUMULATION PROGRAM
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

1. Description of the Plan

General

The following description of the Musick, Peeler & Garrett LLP (the "Company") Employee Asset Accumulation Program (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan provisions. The Plan is intended to qualify as a profit sharing plan under Section 401 and as a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code ("IRC") and is administered by a committee appointed by the partners of the Company. The Plan covers all partners and employees of the Company who have completed at least one hour of service as defined in the Plan documents. For employer contributions, the Plan entry dates are January 1 or July 1 following eligibility. For employee contributions, the Plan entry date is the first day of the month following eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). At December 31, 2011, there were 276 participants in the Plan.

Administration of Plan assets

The Company is the Plan administrator. Certain officers or employees of the Company who are involved with Plan administration are not compensated by the Plan for such services.

Participant contributions

Participants may make pre-tax elective deferrals or Roth after-tax elective deferrals of up to 50% of their compensation not to exceed the maximum allowed under the appropriate provisions of the IRC. Partner and associate attorney deferrals are limited to 19% of their compensation. Rollovers from qualified plans and qualifying IRA accounts are allowed under the provisions of the Plan.

Company contributions

The Company annually contributes a discretionary profit sharing cash contribution determined by the Company's partners not to exceed the maximum allowed under the appropriate provisions of the IRC. Company contributions are allocated to the employee-participants based on a determined percentage of each participant's cash basis compensation during the plan year for those participants who have worked at least 1,000 hours during the Plan year and who are employed at the Plan year-end. Contributions are allocated to partner-participants based upon a designated allocation groups method. The same eligibility rules apply to partners and associate attorneys. Associate attorneys are eligible to share in profit sharing contributions at a maximum contribution rate of 3% of qualifying compensation.

1. **Description of the Plan (continued)**

Participant accounts

Each participant's account is credited with their elective deferrals, rollover contributions and allocations of (a) the Company's profit sharing contribution and (b) Plan earnings (losses). Allocations are based on participant's earnings as defined in the Plan document. The benefit to which a participant is entitled is dependent on the vested balance of the participant's account.

Vesting

Participants are immediately 100% vested in their elective deferrals, rollover contributions and qualified non-elective employer contributions plus actual earnings (losses) thereon. Vesting in other Company contributions plus actual earnings (losses) thereon will vest as follows:

Years of Service Completed	Vesting Percentage
1	33%
2	66%
3	100%

The other Company contributions also become 100% vested upon reaching the normal retirement age of 59½ and 5 years of participation, or upon death or termination of employment because of a disability while employed by the Company.

Payment of benefits

Upon retirement, termination of employment, death or disability, the participant's vested elective deferrals, rollover contributions and Company contributions are paid to the participant or beneficiaries as soon as administratively feasible in the form of a single-sum cash payment. The forfeited portion of the participant's account, if any, is used to pay administrative expenses of the Plan and then to reduce Company contributions. During the year ended December 31, 2011 there were no forfeitures.

In-service withdrawals of Company contributions are permitted under certain conditions. Participants who attain age 59½ may request an in-service withdrawal once a year to receive a distribution of all or any portion of their vested account. In addition, financial hardship distributions of elective deferral accounts are permitted if the requirements of financial hardship are met.

1. Description of Plan (continued)

Investment options

All investments are held in trust and were invested in cash and cash equivalents, common stocks, registered investment companies and other investments at the direction of the participants. The Plan allows the participants very broad investment options ranging from very low volatility to very high volatility. Charles Schwab Trust Company (the "Trustee") (deemed to be a party-in-interest) held the Plan's investment assets and executed investment transactions as of and during the year ended December 31, 2011 under a nondiscretionary trust agreement. Investment income, gains and losses are allocated to each participant's account each business day.

Notes receivable from participants

Under the terms of the Plan, participants may borrow from their vested account balances up to $50,000 or 50%, whichever is less. The loans are secured by the balance in the participants' accounts and bear interest at a bank prime rate in effect at the time of the loan plus 2.5%. Interest rates range from 5.75% to 10.75%. Loan terms range from one to five years or up to 10 years for the purchase of a primary residence.

Plan termination

Although, it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the participants' Company contribution accounts will become 100% vested and the net assets of the Plan will be distributed as prescribed by ERISA.

2. Summary of significant accounting policies

Basis of accounting

The Plan financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amount of the Plan assets, liabilities and disclosures at the date of the financial statements. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

2. Summary of significant accounting policies (continued)

Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on their trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Risk and uncertainties

The Plan, at the direction of its participants, invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. Accordingly, such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits as of December 31, 2011.

Administrative expenses

Plan administrative expenses, including accounting services, trustee, administration, auditing and legal fees, are paid by the Company and not charged to the Plan.

Subsequent events

The Plan's management has evaluated subsequent events through October 5, 2012, the date the financial statements were available to be issued.

3. Fair value measurements

Investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. **Fair value measurements (continued)**

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Level 1 fair value measurements

The fair values of the cash and cash equivalents, common stocks, registered investment companies, U.S. Treasury Bill, preferred stocks, corporate debt and municipal bonds are based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 fair value measurements

The fair values of unit investments trusts are based on quoted market prices for similar securities, interest rates, prepayment rights and credit risks.

Level 3 fair value measurements

The limited partnerships and cash surrender value of life insurance are not actively traded and significant other observable inputs are not available. Thus, the fair value is determined using unobservable inputs.

3. **Fair value measurements (continued)**

The following tables set forth, by level within the fair value hierarchy, investments at fair value as of December 31, 2011 and 2010:
